Engaging The Insurgent In Negotiation: Lessons From Northern Ireland Applied To Afghanistan
Major David J. Rapone,2015-11-06 Outreach, negotiation and cooption may be a vital tool for counterinsurgencies as they transform conflict and facilitate Amnesty, Reconciliation and Reintegration (AR2) of warring elements within a war-torn society. This monograph utilizes a two-system comparison between the Taliban and the Irish Republican Army (IRA) to inquire if the Taliban are willing to participate in fruitful dialogue to initiate AR2. The suggestion for adopting a Northern Ireland approach for negotiation is compelling due to the strategic similarities the Taliban and the IRA share. The similarities, however, are the underlying reason why the Taliban will not be amenable to compromise within the short-term context compelled by the United States current strategy. What emerged is that the Taliban is reacting to changing environmental stimuli in the same manner as the PIRA. The direct consequence of this similarity is the likelihood of negotiations and outreach to take hold. The Taliban in 2010, like their IRA counterparts in 1972, believe they have a comparative advantage over their counterparts and are not willing to compromise their ideological convictions. Thus, policy makers in Washington, London, and Kabul should cool their rhetoric surrounding negotiation and dampen expectations that talks with the Taliban will yield significant

results.

Global Pandemic, Technology and Business Luo Li, Carlos Espaliu Berdud, Steve Foster, Ben Stanford, 2021-12-28 This book presents an exploration of a wide range of issues in law, regulation and legal rights in the sectors of information protection, the creative economy and business activities following COVID-19. The debilitating effect of the global pandemic on information protection and creative and business activities is powerful, widespread and deeply influential, bringing a range of uncertainties to these sectors. The effects of the crisis challenge the fundamentals of the legal systems of most countries in their attempt to govern them. Written by international academics from a diversified background of law disciplines and legal systems, this book offers a global vision in exploring the wide range of legal issues caused by the COVID-19 crisis in these fields. The book is organised into three clear thematic parts: Part I looks at information protection and intellectual property rights and strategies; Part II examines contracts, cooperation and mediation in the post-COVID-19 market arena; and Part III discusses issues pertaining to corporate governance and employment rights. The book explores the unprecedented challenges posed by the pandemic crisis from a global perspective. It will provide invaluable information and guidance in this area to those in the fields of law, politics and economics whose interests are related to information, business and the creative industry, as well as providing indispensable reading to business practitioners and public servants.

Think Bayes Allen B. Downey, 2021-05-18 If you know how to program, you're ready to tackle Bayesian statistics. With this book, you'll learn how to solve statistical problems with Python code instead of mathematical formulas, using discrete probability distributions rather than continuous

mathematics. Once you get the math out of the way, the Bayesian fundamentals will become clearer and you'll begin to apply these techniques to real-world problems. Bayesian statistical methods are becoming more common and more important, but there aren't many resources available to help beginners. Based on undergraduate classes taught by author Allen B. Downey, this book's computational approach helps you get a solid start. Use your programming skills to learn and understand Bayesian statistics Work with problems involving estimation, prediction, decision analysis, evidence, and Bayesian hypothesis testing Get started with simple examples, using coins, dice, and a bowl of cookies Learn computational methods for solving real-world problems

Fun Texas Festivals and Events Jim Gramon, 2001-10-26 Texans will use any excuse to have fun! Pull up a chair and let a legendary Texas storyteller take you on a yearlong tour to 1,600 of his favorite fun Texas events in over 600 towns.

Military Chaplaincy in Contention Revd Canon Dr Andrew Todd, 2013-06-28 Through the unique chaplain's eye view of the significance of their experience for understanding the ethics of war, this book offers clearer understanding of chaplaincy in the context of the changing nature of international conflict (shaped around insurgency and non-state forces) and explores the response of faith communities to the role of the armed services. It makes the case for relocating understandings of just war within a theological framework and for a clear understanding of the relationship between the mission of chaplaincy and that of the military.

Betrayal Linda Chavez, Daniel Gray, 2004-06-08 "Simply put, the leftist labor unions have the Democrats in their pockets. And we're all paying the price." Linda Chavez, President George W.

Bush's original choice for Secretary of Labor and a former union official, is one of the foremost authorities on America's labor unions. Now, in the explosive new book *Betrayal*, she and fellow union expert Daniel Gray expose the corrupt bargain between the labor movement and the Democratic Party. Committed to a far-left political agenda—and to enhancing their own power—union bosses funnel at least half a billion dollars into Democratic coffers every year. And they do it, illegally, by using dues money that workers are forced to pay as a condition of their employment—dues money that each year brings the unions \$17 billion, all of it tax-free. What do labor bosses get in return? The power to call the shots in Democratic campaigns and on party policy, extraordinary influence at all levels of government, billions of dollars in taxpayer-funded federal grants, and special legal privileges that leave them free to act as they please, no matter the consequences for the American people. The cycle of corruption is seemingly endless. Chavez and Gray name names, exposing the many politicians who are in Big Labor's pocket—including the leading lights of the Democratic Party. *Betrayal* also reveals:

- Big Labor's all-out efforts in the 2004 election, including how just one local union has launched a \$35-million campaign to unseat President Bush
- How corrupt union officials use members' hard-earned money to fund lavish lifestyles—and how their Democratic supporters let them get away with it
- How unions flout the law by failing to report any of their political spending to the IRS
- How a government report uncovered the Democrats' sellout to Big Labor—but how the unions and the Democrats sued to keep the report from going public
- How the U.S. government lets unions practice legalized terrorism against American citizens
- How public-employee unions extort concessions from the government and put Americans at risk by refusing to provide vital services like policing and firefighting
- How Americans now live under a system of legal apartheid—one set of rules for labor bosses, another for the rest of us

All of us foot the bill for this corrupt system. Now

it's up to us to do something about it.

Elections during emergencies and crises Toby S. James, Alistair Clark, Erik Asplund, 2023-05-08
Elections often have to be held in emergency situations. The Covid-19 pandemic was one of the most serious emergency situations that the world has seen. The rapid spread of the virus presented a huge humanitarian threat—but also an unparalleled challenge to electoral stakeholders globally seeking to protect electoral integrity during times of uncertainty. This volume identifies how the pandemic affected electoral integrity, what measures were put in place to protect elections and what worked in defending them. It brings together a comprehensive set of 26 country case studies to explore how elections were affected on the ground, what measures were put in place and what worked. These case studies are of elections which took place in the eye of the storm when practitioners and policymakers were operating under uncertainty and without the benefit of hindsight. To learn lessons in a more systematic way, this volume also provides a thematic analysis of electoral integrity during the pandemic using crossnational studies. This provides the big picture for policymakers, practitioners and academics looking back at the crisis. The volume therefore seeks to contribute towards the future development of policy and practice. However, it does so by using academic research methods and concepts which enable greater confidence in the policy lessons, as well as contributing directly to the scholarship on democracy, democratization and elections. The volume includes 11 areas of recommendation based on the evidence collected in this volume to protect electoral integrity in any future emergency situation.

Review of Compensation Levels, Incentives and the Clinical Excellence and Distinction Award Schemes for NHS Consultants Review Body on Doctors' and Dentists' Remuneration, 2012-12-17
The Review Body on Doctors' and Dentists' Remuneration is an independent body that makes

recommendations to the Prime Minister, the Secretary of State for Health, and the appropriate Ministers and departments in Scotland, Wales and Northern Ireland in respect of pay. The Review takes in account the following considerations: (i) The need to recruit, retain and motivate doctors and dentists; (ii) Regional/local variations in labour markets; (iii) The funds available to the Health Departments; (iv) The overall strategy of the NHS in respect of patient care. The consultant body is comprised of the most senior medical and dental staff in the NHS, who have expert knowledge in their specialities. The Review Body concludes that the overall compensation for consultants is appropriate, but has some reservations about existing schemes and believes that awards should not be a substitute for pay progression. The Review Body outlines a proposed integrated package and career structure for consultants.
