End to End Performance Management on IBM i Hernando Bedoya, Mark Roy, Nandoo Neerukonda, Petri Nuutinen, IBM Redbooks, 2009-11-23 Monitoring and managing your system's performance is critical to ensure that you are keeping pace with the changing demands of your business. To respond to business changes effectively, your system must change too. Managing your system, at first glance, might seem like just another time-consuming job. But the investment soon pays off because the system runs more efficiently, and this is reflected in your business. It is efficient because changes are planned and managed. Managing performance of any system can be a complex task that requires a thorough understanding of that system's hardware and software. IBM® i is an industry leader in the area of performance management and has many qualities that are not found in other systems, such as: - Unparalleled performance metrics - Always-on collection of metrics - Graphical investigation of performance data While understanding all the different processes that affect system performance can be challenging and resolving performance problems requires the effective use of a large suite of tools, the functions offered by IBM i are intended to make this job easier for users. This IBM Redbooks® publication explains the tasks and rich tools associated with performance management on IBM i.

Leading experts have joined forces for the first time to explain the state of the art in quantum computing, hash-based cryptography, code-based cryptography, lattice-based cryptography, and multivariate cryptography. Mathematical foundations and implementation issues are included. This book is an essential resource for students and researchers who want to contribute to the field of post-quantum cryptography.

Host Identity Protocol (HIP) Andrei Gurtov, 2008-09-15 "Within the set of many identifier-locator separation designs for the Internet, HIP has progressed further than anything else we have so far. It is time to see what HIP can do in larger scale in the real world. In order to make that happen, the world needs a HIP book, and now we have it." - Jari Arkko, Internet Area Director, IETF One of the challenges facing the current Internet architecture is the incorporation of mobile and multi-homed terminals (hosts), and an overall lack of protection against Denial-of-Service attacks and identity spoofing. The Host Identity Protocol (HIP) is being developed by the Internet Engineering Task Force (IETF) as an integrated solution to these problems. The book presents a well-structured, readable and compact overview of the core protocol with relevant extensions to the Internet architecture and infrastructure. The covered topics include the Bound End-to-End Tunnel Mode for IPsec, Overlay Routable Cryptographic Hash Identifiers, extensions to the Domain Name System, IPv4 and IPv6 interoperability, integration with SIP, and support for legacy applications. Unique features of the book: All-in-one source for HIP specifications Complete coverage of HIP architecture and protocols Base exchange, mobility and multihoming extensions Practical snapshots of protocol operation IP security on lightweight devices Traversal of middleboxes, such as NATs and firewalls Name resolution infrastructure Micromobility, multicast, privacy extensions Chapter on applications, including HIP pilot deployment in a Boeing factory HOWTO for HIP on Linux (HIPL) implementation An important compliment to the official IETF specifications, this book will be a valuable reference for practicing engineers in equipment manufacturing companies and telecom operators, as well as network managers, network engineers, network operators and telecom engineers. Advanced students and academics, IT managers, professionals and operating system specialists will also find this book of interest.

The State of the World's Children 2009 UNICEF., 2008 Having a child remains one of the biggest health risks for women worldwide. Fifteen hundred women die every day while giving birth. That's a half a million mothers every year. UNICEF's flagship publication, The State of the World's Children 2009, addresses maternal mortality, one of the most intractable problems for development work. The difference in pregnancy risk between women in developing countries and their peers in the industrialised world is often termed the greatest health divide in the world. A woman in Niger has a one in seven chance of dying during the course of her lifetime from complications during pregnancy or delivery. That's in stark contrast to the risk for mothers in America, where it's one in 4,800 or in Ireland, where it's just one in 48,000. Addressing that gap is a multidisciplinary challenge, requiring an emphasis on education, human resources, community involvement and social equality. At a minimum, women must be guaranteed antenatal care, skilled birth attendants and emergency obstetrics, and postpartum care. These essential interventions will only be guaranteed within the context of improved education and the abolition of discrimination.

Emerging Topics in Management Studies Patrícia Moura e Sá, 2020-08-02 Presently, Management has witnessed vast advancements, clearly becoming an area of trans and interdisciplinary knowledge. It has widened its scope from traditional business areas – such as marketing, strategy, management control, accounting and finance, taxation or operations – to other spaces, namely deepening bridges with behavioural sciences, engineering, health, or energy, fostering both quantitative models and methods. Management thinking at the Faculty of Economics of the University of Coimbra (FEUC) has followed these trends, enabling students with the essential skills supporting the practice of the profession, both in business and public sector organisations. This book features topical trends of research in Management studies, in which FEUC professors are involved, together with international peers, evidencing the openness of the Faculty to the world. Numerous of the subjects addressed relate to challenges that organisations are already facing or will have

to deal with shortly. Therefore, the book not only presents innovative research questions, but it also delivers a practical perspective. Thus, organisations will certainly find here some support to better manage those issues in practice.

Research Program Peer Review Ronald N. Kostoff,2004-06-01 The purposes, principles, practices, and protocols of research program peer review are described. While the principles are fundamentally generic, and apply to peer review across the full spectrum of performing institutions as well as manuscript, proposal, and program peer review, the focus of this report is peer review of proposed and ongoing research programs in federal agencies. Following the self-contained Executive Summary of factors for high-quality peer reviews, the report addresses potential implications of the implementation of the Government Performance and Results Act of 1993 on federal agency research program peer review practices. Then, the report describes strengths and weaknesses of major peer review components and issues, including the following: Objectives and Purposes of Peer Review; Quality of Peer Review; Impact of Peer Review Manager on Quality; Selection of Peer Reviewers; Selection of Evaluation Criteria; Secrecy (Reviewer and Performer Anonymity); Objectivity, Bias, and Fairness of the Peer Review; Normalization of Peer Review Panels; Repeatability and Reliability of the Peer Review; Effectiveness and Predictability of Peer Review; Global Data Awareness; Costs of Performing a Peer Review; Ethical Issues in Peer Review; and Alternatives to Peer Review. The report then presents different federal agency peer review practices as well as sample protocols and processes for conducting a successful research program peer review. Some peer review variants, such as the Science Court and Network-Centric Peer Review, are described, and research requirements to improve peer review are discussed. The final section is an extensive bibliography of over 3,000 references that includes text references and related references for further reading. (49 refs.)
