**The New Silk Road Becomes the World Land-Bridge** Helga Zepp-LaRouche, Michael O. Billington, Ramtanu Maitra, Dennis Small, Bruce Director, Jason Ross, Paul Gallagher, Hussein Askary, Rachel Douglas, Benjamin Deniston, 2014-12 EIR RELEASES ROAD-MAP TO THE NEW WORLD ECONOMIC ORDER: THE NEW SILK ROAD BECOMES THE WORLD LAND-BRIDGE EIR's comprehensive study of the progress of the Eurasian Land-Bridge project which Lyndon and Helga LaRouche have championed for over 20 years, has finally been completed. The official release date is Dec. 1. The 374-page report, entitled *The New Silk Road Becomes the World Land-Bridge*, "is nothing less than a conceptual, and often physical, road-map" to a New World Economic Order. This path is currently being charted by the nations of the BRICS (Brazil, Russia, India, China, and South Africa), who are leading a dynamic of global optimism toward real economic development, complete with new credit institutions and major high-technology projects for uplifting all mankind. After an introduction by Helga Zepp-LaRouche, the report lays out the Metrics of Progress, based on the economic scientific principles developed by renowned physical economist Lyndon LaRouche. It then proceeds region by region, beginning with China and Russia, to present the stunning progress, and plans, which have been made toward the Eurasian Land-Bridge design that the Chinese government laid out in 1996, and other nations have begun to rally behind in recent years. The report, complete with many full-color maps of its featured development corridors, is available in paperback for \$50 and hard cover bound for \$75.

**The Fragile X Zombies** Alan J. Weberman, 2018-05-08 This book puts forth the theory that autism is congenital brain disorder not a neuro-developmental disorder. Autistic humans are the defectives of nature's factory and are not wired right. They should be institutionalized if they show violent tendencies because they lack empathy for other human beings as their illness makes them think only of themselves as in the word auto. Automobile. Self Moving. These misfits have taken more lives in the mass shootings than any other group and it is time for the public to do something about it. This book examines the most gregarious cases one by one and demonstrates that if not for the Politically Correct BS generated by Obama's Department of Miseducation and Autism Speaks, a lobby group for mass murder, a lot of these attacks could have been prevented. It is not worth sacrificing the lives of normal young people so a bunch of miscreants can be accepted by society. Autistic people should NOT be allowed to own guns nor should they have access to others guns. Look what happened to Nancy Lanza. She let Adam have access to guns and he killed dozens of little children after killing this mother varmint with a varmint gun.

Teacher Education in Taiwan Shen-Keng Yang, Jia-Li Huang, 2016-04-14 Since the Teacher Education Act was in place in 1994, student teachers were educated through diverse educational institutions instead of the traditional normal schools (Taiwan's equivalent of teachers' colleges). But such market-based teacher education has been altered by politics, society and culture in the direction of government-controlled teacher education, particularly in the quality evaluation of teacher education. Taiwan maintains teacher education quality by controlling the number of teachers, using teacher assessment to eliminate teachers who are not up to standard, evaluating teacher education institutions, evaluating professional development of teachers to raise elementary and secondary teacher quality. This book uses Taiwan as a case study to analyze the transformation of teacher education in a country which goes through political, economic and societal transitions, along the axis of state regulation vs marketization. It analyzes the uniqueness of Taiwanese teacher education for international reference, and draws implications for teacher education policies in the context of education reform. The Formation of Two Approaches to Teacher Education Teacher Education Policy and Policy Direction in Taiwan The Ideology, Implications, Applications of Teacher Profession Standards The Teacher Education Strategic Alliances in Taiwan This book will interest policy makers, researchers and students in the field of education, especially in teacher education and comparative education.

Matricentric Feminism Andrea O'Reilly, 2016-10-01 The book argues that the category of mother is distinct from the category of woman, and that many of the problems mothers face—social, economic, political, cultural, psychological, and so forth—are specific to women's role and identity as mothers. Indeed, mothers are oppressed under patriarchy as women and as mothers. Consequently, mothers need a feminism of their own, one that positions mothers' concerns as the starting point for a theory and politic of empowerment. O'Reilly terms this new mode of feminism matricentric feminism and the book explores how it is represented and experienced in theory, activism, and practice. The chapter on maternal theory examines the central theoretical concepts of maternal scholarship while the chapter on activism considers the twenty-first century motherhood movement. Feminist mothering is likewise examined as the specific practice of matricentric feminism and this chapter discusses various theories and strategies on and for maternal empowerment. Matricentric feminism is also examined in relation to the larger field of academic feminism; here O'Reilly persuasively shows how matricentric feminism has been marginalized in academic feminism and considers the reasons for such exclusion and how such may be challenged and changed.
