**Business Statistics and Accounting** Ken Hoyle,Geoffrey Whitehead,2014-05-15 *Business Statistics and Accounting: Made Simple* focuses on the principles, approaches, and operations involved in business statistics and accounting, including book-keeping, value added tax, cash and credit, and trial balance. The book first takes a look at basic numerical knowledge, introduction to business statistics, and classification and tabulation. Discussions focus on frequency distributions, discrete and continuous variables, approximation and error, simple mathematical symbols, importance of business calculations, calculating percentages of quantities, and powers and roots. The text then elaborates on time series, pictorial representation of statistical data, graphs, and mean, median, and mode. The manuscript examines the nature and purpose of accounting, double-entry book-keeping to the trial balance level, books of original entry, value added tax, and accounting to the trial balance, with books of original entry. Topics include original entries for petty cash, original entries for the payment of money, double entries for cash and credit transactions, and extracting a trial balance. The publication is a dependable reference for students and researchers interested in business statistics and accounting.

**Excavations at Nemea III** Robert C. Knapp,John D. Mac Isaac,2005-05-23 Since 1974 the University of California at Berkeley has been sponsoring extensive excavations at the Panhellenic athletic festival center of ancient Nemea in the modern Greek province of Korinthia. With its well-documented excavation and clear historical context, the site offers an excellent opportunity for investigation and analysis. This volume, the third in a series of publications on Nemea, is a detailed presentation of the more than three thousand legible coins from all over the ancient world that have been unearthed there. The coins, which are mostly bronze but show an unusually high proportion of silver, reflect the periods of greatest activity at the site—the late Archaic and Early Classical, the Early Hellenistic, the Early Christian, and the Byzantine. More than a compendium of data, the study breaks new ground with its analysis and contextualization of numismatic evidence in an archaeological setting.

**Jayne Mansfield Jocelyn Faris,1994-11-30** People today remember Jayne Mansfield as a famous Hollywood movie star. However, she starred in only three American movies before moving to low-budget European films. She was a master of publicity who appeared in newspapers across the nation almost daily. The media focused on her figure and her stormy love life. Through her constant exposure in the press, she gave the public the false impression that she was a major movie star. This book charts the captivating life and career of Jayne Mansfield. A biography overviews her rise to fame, her three marriages and five children, and her death in a grisly automobile accident at an early age. The chapters that follow are each devoted to her performances in a particular genre, such as film, stage, and television. Each chapter contains annotated entries for her work in that media, providing cast and credit listings, plot summaries, review excerpts, and commentary. Appendices list her appearances on magazine and record covers, and an annotated bibliography discusses additional sources of information.

**Handbook of Autobiography / Autofiction** Martina Wagner-Egelhaaf,2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time. General questions of the literary as, e.g., the relation between literature and reality, truth and fiction, the dependency of author, narrator, and figure, or issues of individual and cultural styles etc., can be studied preeminently in the autobiographical genre. Yet, the tradition of life-writing has, in the course of literary history, developed manifold types and forms. Especially in the globalized age, where the media and other technological / cultural factors contribute to a rapid transformation of lifestyles, autobiographical writing has maintained, even enhanced, its popularity

and importance. By conceiving autobiography in a wide sense that includes memoirs, diaries, self-portraits and autofiction as well as media transformations of the genre, this three-volume handbook offers a comprehensive survey of theoretical approaches, systematic aspects, and historical developments in an international and interdisciplinary perspective. While autobiography is usually considered to be a European tradition, special emphasis is placed on the modes of self-representation in non-Western cultures and on inter- and transcultural perspectives of the genre. The individual contributions are closely interconnected by a system of cross-references. The handbook addresses scholars of cultural and literary studies, students as well as non-academic readers.
