It enjoyed great success against North Vietnamese Mig-17s and Mig-21s during the Rolling Thunder campaign of 1965-68, officially downing 18 jets, which represented 53 per cent of all Mig claims lodged by Navy squadrons during this period.

*F-8 Crusader vs MiG-17* Peter Mersky,2014-11-20 Revered by Naval Aviators as the 'last of the gunfighters' due to its quartet of Colt-Browning Mk 12 20 mm cannon, the F-8 Crusader enjoyed great success against VPAF MiG-17s during the Rolling Thunder campaign of 1966-68. But, the MiG-17's unequalled low-speed manoeuvrability, small size and powerful cannon armament meant that the American forces didn't have it all their own way. This fully illustrated book, featuring photographs, maps and battlescene artwork, reveals the tactics that were developed by pilots on both sides to give themselves the edge in air-to-air dogfights, allowing the reader to understand how the differing design and development doctrines played a part in combat.

**F-8 and RF-8 Crusader in Detail and Scale** Bert Kinzey,2019-04-11 Detail & Scale produced its first book on the F-8 Crusader in 1988, and it was one of the most successful titles in the Detail & Scale Series. This new work, F-8 & RF-8 Crusader in Detail & Scale, brings our original work forward 31 years, enriched with much new content, more photos, mostly in color, and the addition of dozens of illustrations and full color profiles. The photographic collections of some of the very best aviation photographers have been opened to Detail & Scale, and several recognized experts have also contributed to this new book, resulting in a new, more comprehensive, and much larger publication on the Crusader. The book begins with a comprehensive developmental and operational history of the Crusader, a jet fighter that achieved a number of firsts and went a long way towards bringing Naval carrier-based fighters to a level equal to and in some cases surpassing that of land-based fighters. This is followed by a chapter covering every variant of the Crusader produced for the U. S. Navy and Marines, from the prototypes, all of the F-8A/B/C/D/E variants and their upgraded versions after the remanufacture program, the two-seat TF-8A, both the original and remanufactured versions of the RF-8 photo reconnaissance variant, and the XF8U-3 prototype, often considered the best aircraft ever cancelled. Chapters on the F-8s used by NASA in advanced flight research and the Crusaders used by the French Navy and the Philippine Air Force follow. An area of wholly new content is contained in a chapter on the Crusader in the Vietnam War. A summary of how the Navy and Marines used the F-8 and RF-8 in Vietnam is provided, including a listing of every fighter squadron that flew the Crusader in combat. A comprehensive table lists all of the F-8 carrier deployments carried out by the Navy fighter squadrons as well as the Marine squadrons that flew out of Da Nang Air Base, South Vietnam. The chapter concludes with color photographs and full color profiles of all nineteen F-8s responsible for the confirmed destruction of MiGs in air combat. A comprehensive chapter on Crusader Details, long the hallmark of the Detail & Scale brand, follows. This chapter contains nine sections covering the cockpit, windscreen and canopy, fuselage, landing gear, wings, tail, engine, armament, and ECM equipment details. Complete coverage of almost every square inch of the various variants of the Crusader is provided through 136 high resolution photographs and illustrations (123 in full color). As with all Detail & Scale books, the final chapter covers the scale models of the Crusader, from the early kits that are now only collector's items, to the gamut of kits that have been available for the past half-century. The standard modeling scales of 1/144th, 1/72nd, 1/48th, and 1/32nd are treated as separate sections and the available models in are reviewed. F-8 & RF-8 Crusader in Detail & Scale is an extensively detailed look at the F-8 Crusader, with more color photos of this iconic Navy fighter than any other book ever published. This print edition features 105 pages, 259 high resolution photographs (239 in color), 25 full color profiles and 19 Illustrations.

**Vought F-8 Crusader** Gerard Paloque,2011 KEYNOTE: \* A highly-illustrated study of the 30-year career of the US Navy's first supersonic aircraft, the Vought F-8 Crusader When it built the Crusader, the US Navy's first supersonic aircraft, Vought repeated the success it had had with the legendary WWII fighter, the F4U Corsair. 1250 examples were built. This fighter with its unusual variable incidence wing, made its maiden flight in March 1955 and equipped more than seventy Navy and Marine Corps squadrons during its thirty year career. Used in combat as early as the autumn of 1962 during the Cuban missile crisis, the Crusader distinguished itself during the first part of the Vietnam War in which it scored eighteen confirmed kills, more than half of the US Navy's total of kills for the whole of the conflict, earning it the unofficial title of 'MiGMaster'. Replaced gradually by more effective fighters like the F-4 Phantom II and the F-14 Tomcat, the Crusader, nicknamed the 'Last Gunfighter', finished its career in the United States in the Reserve units or specializing in photographic reconnaissance at the end of the eighties. France, the only export client except for the Philippines, had Crusaders specially designed to operate from its small aircraft carriers, and the Aeronavale's last 'Crouze', and thereby the last F-8 in the world, was withdrawn from service in October 1999. *Vought's F-8 Crusader* Steve Ginter,1990-01-01 The photos in this edition are black and white. First published in 1990, this book is a squadron-by-squadron history of the Last Gunfighter, Vought's F-8 Crusader. It covers the 69 Navy units that flew the MiG Master including squadron patches with additional pages on operating the Crusader in Vietnam. During the Vietnam War, F-8 squadrons deployed 59 times from carrier decks off Vietnam and were responsible for downing 16 MiG-17s, two MiG-21s, plus two probable MiG-17s. This is an excellent account of a true warrior. When your out of F-8's your out of fighters. Over 600 photos.

**F-8 Crusader** Peter E. Davies,2023-07-20 With specially commissioned artworks and dynamic combat ribbon diagrams, this volume reveals how the 'last of the gunfighters', as the F-8 was dubbed by its pilots, prevailed against the growing MiG threat of the Vietnamese People's Air Force. When the Vietnam War began, the F-8 was already firmly established as a fighter and reconnaissance aircraft. It entered combat as an escort for Alpha strike packages, braving the anti-aircraft artillery and surface-to-air missiles alongside the A-4 Skyhawk bombers and meeting MiGs for the first time on 3 April 1965. Although the Crusader was nicknamed 'last of the gunfighters', its pilots employed 'secondary' AIM-9D Sidewinder missiles in all but one of their MiG kills, with guns also used as back-up in three. Its 20 mm guns were unreliable as they often jammed during strenuous manoeuvres, although they were responsible for damaging a number of MiGs. However, in combat the F-8 had the highest 'exchange ratio' (kills divided by losses) at six-to-one of any US combat aircraft involved in the Vietnam War. Through the copious use of first-hand accounts, highly detailed battlescene artwork, combat ribbon diagrams and armament views, Osprey's Vietnam air war specialist Peter E. Davies charts the successful career of the F-8 Crusader over Vietnam.
