Mapping Courtship and Kinship in Classical Japan Doris G. Bargen,2015-08-31 Literary critiques of Murasaki Shikibu's eleventh-century *The Tale of Genji* have often focused on the amorous adventures of its eponymous hero. In this paradigm-shifting analysis of the *Genji* and other mid-Heian literature, Doris G. Bargen emphasizes the thematic importance of Japan's complex polygynous kinship system as the domain within which courtship occurs. Heian courtship, conducted mainly to form secondary marriages, was driven by power struggles of succession among lineages that focused on achieving the highest position possible at court. Thus interpreting courtship in light of genealogies is essential for comprehending the politics of interpersonal behavior in many of these texts. Bargen focuses on the genealogical maze—the literal and figurative space through which several generations of men and women in the *Genji* moved. She demonstrates that courtship politics sought to control kinship by strengthening genealogical lines, while secret affairs and illicit offspring produced genealogical uncertainty that could be dealt with only by reconnecting dissociated lineages or ignoring or even terminating them. The work examines in detail the literary construction of a courtship practice known as *kaimami*, or “looking through a gap in the fence,” in pre-*Genji* tales and diaries, and Sei Shōnagon's famous *Pillow Book*. In Murasaki Shikibu's *Genji*, courtship takes on multigenerational complexity and is often used as a political strategy to vindicate injustices, counteract sexual transgressions, or resist the pressure of imperial succession. Bargen argues persuasively that a woman observed by a man was not wholly deprived of agency: She could choose how much to reveal or conceal as she peeked through shutters, from behind partitions, fans, and kimono sleeves, or through narrow carriage windows. That mid-Heian authors showed courtship in its innumerable forms as being influenced by the spatial considerations of the Heian capital and its environs and by the architectural details of the residences within which aristocratic women were sequestered adds a fascinating topographical dimension to courtship. In *Mapping Courtship and Kinship in Classical Japan* readers both familiar with and new to *The Tale of Genji* and its predecessors will be introduced to a wholly new interpretive lens through which to view these classic texts. In addition, the book includes charts that trace *Genji* characters' lineages, maps and diagrams that plot the movements of courtiers as they make their way through the capital and beyond, and color reproductions of paintings that capture the drama of courtship.
