Vocative Constructions in the Language of Shakespeare Beatrix Busse,2006-11-08 This study investigates the functions, meanings, and varieties of forms of address in Shakespeare's dramatic work. New categories of Shakespearean vocatives are developed and the grammar of vocatives is investigated in, above, and below the clause, following morpho-syntactic, semantic, lexicographical, pragmatic, social and contextual criteria. Going beyond the conventional paradigm of power and solidarity and with recourse to Shakespearean drama as both text and performance, the study sees vocatives as foregrounded experiential, interpersonal and textual markers. Shakespeare's vocatives construe, both quantitatively and qualitatively, habitus and identity. They illustrate relationships or messages. They reflect Early Modern, Shakespearean, and intra- or inter-textual contexts. Theoretically and methodologically, the study is interdisciplinary. It draws on approaches from (historical) pragmatics, stylistics, Hallidayean grammar, corpus linguistics, cognitive linguistics, socio-historical linguistics, sociology, and theatre semiotics. This study contributes, thus, not only to Shakespeare studies, but also to literary linguistics and literary criticism.

Shakespeare's Mystery Play Stephen T. Sohmer,1999 Through considerable detective work, this work sets out to show that Julius Caesar was the first play performed at the new Globe Theatre on 12 June 1599. Drawing on many areas of expertise, which are rarely allied in Shakespeare scholarship to such an extent, including biblical, liturgical, social and theatrical history, the author sheds new light not only on Julius Caesar but on a variety of accepted beliefs. These include: why Hamlet was not crowned king when his father died; why Brutus would not swear to murder Caesar; why the Elizabethan authorities retained the Julian calender; and why the orthodox dates of the first composition of both Twelfth Night and Hamlet can be called into question.
