The Federalist Papers Alexander Hamilton,John Jay,James Madison,2018-08-20 Classic Books Library presents this brand new edition of “The Federalist Papers”, a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. “The Federalist”, as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation’s finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

The Papers of Thomas Jefferson: 1 January to 6 August, 1787 Thomas Jefferson,1950

Decision in Philadelphia Christopher Collier,James Lincoln Collier,2012-05-01 Fifty-five men met in Philadelphia in 1787 to write a document that would create a country and change a world: the Constitution. Here is a remarkable rendering of that fateful time, told with humanity and humor. Decision in Philadelphia is the best popular history of the Constitutional Convention; in it, the life and times of eighteenth century America not only come alive, but the very human qualities of the men who framed the document are brought provocatively into focus-casting many of the Founding Fathers in a new light. A celebration of how and why our Constitution came into being, Decision in Philadelphia is also a testament of the American spirit at its finest.

Ratification Pauline Maier,2011-06-07 Drawing on the speeches and letters of the United States' founders, the author recounts the dramatic period after the Constitutional Convention and before the Constitution was finally ratified, describing the tumultuous events that took place in homes, taverns and convention halls throughout the colonies. By the author of American Scripture.

The Papers of Thomas Jefferson Thomas Jefferson,1950 The Louisiana Purchase dominates the months covered in this volume. Jefferson departs for Monticello to enjoy a needed respite after the busy three and a half months he has just spent in the nation's capital. Shortly before leaving Washington, he has a last meeting with his cabinet, after which he issues a proclamation to reconvene Congress on 17 October, three weeks early. It is the “great and weighty” business of the French government's stunning offer to transfer all of the Louisiana Territory to the United States that necessitates this important gathering. The event brings Jefferson enthusiastic congratulations from his friends and fellow Republicans. With Jefferson's great success, however, comes the reality of getting the agreement with France approved and implemented. The boundaries of the territory ceded are not even clear. In private letters to his trusted advisers, Jefferson discusses the proper course of action. Should both houses of Congress be called to consider the French offer? Is it prudent to make the substance of a treaty public? And perhaps most vexing, does this executive action require an amendment to the Constitution? Some Federalists criticize the plan, but an expansion of the nation's territory, proponents argue, will raise America's stature in the eyes of the world. With the widening of the country's borders, Jefferson's project to send an exploratory party westward seems even timelier. William Clark accepts Meriwether Lewis's invitation to join the expedition, and on the last day of August Lewis begins his journey down the Ohio River, the building of his boat finally complete.
