Webster's 1828 American Dictionary of the English Language Noah Webster,2010-05 This new edition has been carefully prepared in a proprietary compact format : All of the words, definitions, and examples have been preserved, but the explanations of word origins have been omitted to save space, as has Webster's lengthy technical introduction. Scripture references have been standardized in modern format, and many abbreviations have been spelled out for greater understanding. The text has been newly typeset with Charter typeface, making the text highly readable in spite of its small size. --from publisher's preface.

The Formative Period in Alabama, 1815-1828 Thomas Abernethy,2009 The Formative Period in Alabama, 1815-1828 is a beautifully crafted history of the evolution of the state written by Thomas Perkins Abernethy in 1922. The work shows how Alabama grew out of the Mississippi Territory and discusses the economic and political development during the years just before and just after Alabama became a state. Abernethy’s story begins when Alabama existed as the eastern part of the Mississippi Territory, settled primarily by Cherokees, Choctaws, and Creeks, a few traders, and some brave but foolhardy “squatters” who thought to supplant the Indians and carve out a home for themselves and their descendants from Indian territory. Friction with the Creeks escalated into war and, with their defeat at the Battle of Horseshoe Bend, the successful move began to wrest land from the Indians for white settlement. The availability of good land, the promise of transportation of goods along the waterways, and the opening of the Federal Road brought rapid population growth to an area blessed (and cursed) with forceful leaders. Abernethy describes in detail the political maneuverings and economic strangleholds that created territorial division and turmoil in the early days of Alabama’s statehood.
