*America 1844* John Bicknell, 2014-11-01 The presidential election of 1844 was one of the two

or three most momentous elections in American history. Had Henry Clay won instead of James K. Polk, we'd be living in a very different country today. It cemented the westward expansion that brought Texas, California, and Oregon into the union. It also took place amid religious turmoil that included anti-Mormon and anti-Catholic violence, and the Great Disappointment in which thousands of followers of an obscure preacher named William Miller believed Christ would return to earth in October 1844. Author and journalist John Bicknell details even more compelling, interwoven events that occurred during this momentous year-the murder of Joseph Smith, the religious fermentation of the Second Great Awakening, John C. Frémont's exploration of the West, Charles Goodyear's patenting of vulcanized rubber, the near-death of President John Tyler in a freak naval explosion, and much more. All of these elements illustrate the competing visions of the American future-Democrats v. Whigs, Mormons v. Millerites, nativists v. Catholics, those who risked the venture westward and those who stayed safely behind-and how Polk's victory cemented the vision of a continental nation. John Bicknell has written and edited for FCW, Congressional Quarterly, Roll Call, and was coeditor of the 2012 edition of Politics in America, CQ's 1200-page guide to the US Congress. He lives in Haymarket, Virginia.
