[Energy Dissipators and Hydraulic Jump](#) Willi H. Hager,2013-03-09 Stilling basins utilizing a hydraulic jump for energy dissipation are widely used in hydraulic engineering . D a Vinci was the first to describe the hydraulic jump, and Bidone conducted classical experiments about 170 years ago . Stilling basins were developed in the thirties with significant design improvements being made during the last sixty years . Although well - a c c e p t e d guidelines for a successful design are presently available, the information for the design of such dissipators is not yet compiled in book form . This book provides state-of-the-art information on hydraulic jumps and associated stilling basins . A large number of papers on the topics are reviewed. The present trends of the art of designing a stilling basin are discussed and ideas for future research are outlined. Design criteria and recommendations are frequently given . However, this should not be considered as a ready-to -use guideline since the design of an effective stilling basin is much more complex than following general design steps . The book is divided into two parts. Part 1 on hydraulic jumps is comprised of chapters 2 to 5. Part 2 consisting of chapters 6 to 14 deals with various hydraulic structures used to dissipate energy. The lists of notation and references are provided in each part separately although the same notation is used throughout.

The 1926 Orland Park Murder Mystery Matthew T Galik,2018-10-01 The true story behind a Jazz Age crime that shook the Chicago region and shaped the fates of three very different men. On the morning of April 14, 1926, the Inland Steel payroll delivery was hijacked in Indiana Harbor. Later that afternoon, Will County deputy sheriff and Mokena resident Walter Fisher died in a hail of gunfire just outside Orland Park. That night, the bullet-riddled body of Santo Calabrese turned up on a Broadview road. The exact sequence of events remains uncertain, but a jury was able to trace enough of the day's violent trajectory to send Daniel Hesly on the path to Alcatraz. Matthew Galik leaps into a drama of high-speed pursuit and mistaken identity that shocked the jaded sensibilities of Prohibition-era Chicago and plunged the town of Mokena into mourning.

[Italian Immigrants in Philadelphia 1926](#) Robert DiSpaldo,2017-06-30 In 1926 Philadelphia was a haven for immigrants looking for a better life. Philadelphia had the reputation as the manufacturing center of the nation and the world. Immigrants that came to Philadelphia settled in neighborhoods where people from their own countries lived. The immigrants strived to assimilate by learning the language and the ways of the United States. They believed they should keep the traditions of their mother countries and not to forget where they came from and how they once lived. The immigrants had one common goal, to achieve the promise that America offers, Life, Liberty and the Pursuit of Happiness. Robert DiSpaldo has written a story inspired by his memories growing up in an Italian family in South Philadelphia. Combining tales his father and mother told him and his own experiences makes this story authentic. The summer of 1926 Philadelphia was the host for the Sesquicentennial Exposition, a celebration of the 150th anniversary of the signing of the Declaration of Independence. Joey Nocelli a nine-year old Italian boy saw exhibits displaying other cultures from around the world. Seeing these exhibits Joey realized the way other people lived was very different from his own way of life. The summer of 1926 Joey learned that boys and girls were different from Carmela the girl next door. Joeys father Giovanni made wine for his own family and friends to share. Prohibition was the law of the land. One day Giovanni was confronted by evil men called the Black Hand interested in his home made wine. In 1926 radio was a source of entertainment if you had electricity. Homes were heated with coal that was stored in the basements. An illness called diphtheria would warrant a quarantine and separate families for months. Joeys coming of age journey begins when he climbs in a Hole in the Ceiling in an alley between row houses.
