Autumn 1943 James Clark, 2002-12-09 By autumn 1943 in Danton, Kentucky, the government has converted the small town's college into an Army Air Corps pre-preflight facility, the nearby state mental hospital into a treatment center for soldiers suffering battle fatigue, and installs a satellite POW camp in the south end of town. Major Sam Ross, a fighter pilot shot down and badly wounded in Tunisia, arrives to take command of the school. Ross, also an excellent musician, has a chance encounter with a widowed schoolteacher with whom he falls in love but faces possible rejection because of her teenage son. Woven into the story are the accounts of an anti-Nazi German prisoner of war who, fearing for his life, escapes one POW camp and tries to get to the Danton POW facility; attempts to heal battle fatigue, especially a case involving a heinous crime perpetrated by German captors on a U.S. soldier later liberated; an itinerant evangelist gassed in France in WWI and his musically gifted wife; the wisdom of a one-legged, railroad-crossing watchman, a veteran of the Spanish-American War; the searching for meaning by a ministerial student; a night-club/big-band songstress; and how it was in small-town U.S.A. in the precise time-frame of autumn 1943.

Forgotten Battles Charles T. O'Reilly, 2001 Italy's War of Liberation takes issue with the apparently prevalent attitude among Allied commanders during World War II that the Italian military was ineffective. O'Reilly recounts the little-known story of the significant contribution made by the Italian military during the Italian Campaign, including the contribution of relatively unacknowledged Italian Partisan formations that fought in Italy, France, Yugoslavia, and Greece. Despite the fact that Italians fought on the front lines with the British and American soldiers, and despite the service of the Italian Navy and Air Force, the Allies refused repeated Italian pleas for more involvement in combat. This book not only attempts to correct the record of military history by illustrating the ways in which the Italians were underutilized by the Allies, but it also serves to paint a fair portrait of the Italian military's substantial efforts to defeat Hitler and eradicate Fascism.

Run Home If You Don't Want to Be Killed Rachel Marie-Crane Williams, 2021-02-25 In the heat of June in 1943, a wave of destructive and deadly civil unrest took place in the streets of Detroit. The city was under the pressures of both wartime industrial production and the nascent civil rights movement, setting the stage for massive turmoil and racial violence. Thirty-four people were killed, most of whom were Black, and over half of these were killed by police. Two thousand people were arrested, and over seven hundred sustained injuries requiring treatment at local hospitals. Property damage was estimated to be nearly \$2 million. With *Run Home If You Don't Want to Be Killed*, Rachel Marie-Crane Williams delivers a graphic retelling of the racism and tension leading up to the violence of those summer days. By incorporating firsthand accounts collected by the NAACP and telling them through a combination of hand-drawn images, historical dialogue, and narration, Williams makes the history and impact of these events immediate, and in showing us what happened, she reminds us that many issues of the time—police

brutality, state-sponsored oppression, economic disparity, white supremacy--plague our country to this day.

1943 Joseph Esherick, Matthew T. Combs, 2015 In the grand narrative of modern Chinese history, 1943 is usually passed over with little notice. Great attention has been paid to critical watersheds in Chinese history--the end of the empire in 1911, the outbreak of full-scale war with Japan in 1937, or the triumph of the Chinese Communist revolution in 1949. What can we learn if we focus attention on a less dramatic year? In 1943, in the middle of World War II, the Allies renounced the unequal treaties, Chiang Kai-shek wrote China's Destiny and met with Roosevelt and Churchill at Cairo, and Mme Chiang made her memorable trip to the United States. From the northwestern province of Xinjiang to the southern smuggling entrepôt of Guangzhouwan, the stories of calculating politicians, suspected spies, starving peasants, downtrodden intellectuals, recalcitrant preachers, and star-crossed actors come together to illuminate the significance of this year for China as a whole. In thirteen topical chapters, both the achievements and the disappointments of 1943 are explored in an effort to capture a moment in time when China stood at a crossroads but the road ahead lay shrouded in the impenetrable fog of war.

Letters from Josephine Gloria Wierzbowski to PFC Talmage Preston Shaw Josephine Gloria Wierzbowski, 2014-07-01 After my father's passing I was given a box containing just about all the letters my mother wrote to him. I always thought how nice it would be to be able to read them and possibly have them compiled and saved for our family. It was some years later after I became retired that I was in the mood to really sit down and begin the arduous job of trying to read the small handwriting that had been written decades earlier. There was no order to the box her letters. Some were in the original envelopes, some were crammed four or five together in one envelope or just bound loosely. Gloria did not date all of her letters and a time element had to be studied before transcribing them on the computer could begin. Having mom within driving distance or phone call away I was fortunate to be able to see if she could recall any details that I missed, names and places, or words that I could not read legibly. Even with early memory problems in her glory years Gloria was able to come through for me most of the times to get the context in order. After completing and rereading her letters it occurred to me that this type of communication will not be seen again by future generations who live in the 'cyber-world'. The art of penning and expressing oneself on paper is a dying art so-to-speak. Her letters are now a treasure of history; with all the small details and twists of growing up a teen and tidbits of life during late 1943 to mid 1945.

Letters from Home James K. Thome, 2020-12-01 Letters From Home consists of a collection of original letters. The people who wrote the letters were Americans, most of them members of an extended family. They were written during World War II, from 1943 to 1945. The letters in this book contain the thoughts, concerns, hopes, dreams, worries, and anxieties of Americans during World War II, in their own words. There are many individual stories within the letters. Those stories describe not only events and places, but people who endured and triumphed during a very difficult and historic time.

Facilitating Injustice Yoosun Park, 2019-10-17 On February 19, 1942, President Franklin Roosevelt issued Executive Order 9066--the primary action that propelled the removal and incarceration of Japanese Americans. From

the last days of that month, when California's Terminal Island became the first site of forced removal, to March of 1946, when the last of the War Relocation Authority concentration camps was finally closed, the federal government incarcerated approximately 120,000 persons of Japanese ancestry. Social workers were integral cogs in this federal program of forced removal and incarceration: they vetted, registered, counseled, and tagged all affected individuals; staffed social work departments within the concentration camps; and worked in the offices administering the resettlement, the planned scattering of the population explicitly intended to prevent regional re-concentration. In its unwillingness to take a resolute stand against the removal and incarceration and carrying out its government-assigned tasks, social work enacted and thus legitimized the bigoted policies of racial profiling en masse. *Facilitating Injustice* reconstructs this forgotten disciplinary history to highlight an enduring tension in the field-the conflict between its purported value-base promoting pluralism and social justice and its professional functions enabling injustice and actualizing social biases. Highlighting the urgency to examine the profession's current approaches, practices, and policies within today's troubled nation, this text serves as a useful resource for students and scholars of immigration, ethnic studies, internment studies, U.S. history, American studies, and social welfare policy/history.

Michael at the Invasion of France, 1943 Laurie Calkhoven, 2012-02-16 When the Nazis invade Paris, Michael, a thirteen-year-old French-American, wants to be a part of the Resistance. Starting small, vandalizing Nazi propaganda and refusing to hail Hitler, Michael works his way into the full-blown Resistance, escorting American aviators to safe zones and delivering important spy documents. But when an injured pilot needs help to escape France, will Michael be brave enough to complete the mission? With historical notes, time lines, and maps to augment the page-turning action, it's easy to see why School Library Journal says *Boys of Wartime* will appeal to history buffs and reluctant readers alike.

T-34 Medium Tank (1939-1943) Mikhail Baryatinskiy, 2007 This is the fourth title in our new Russian Armour series which has been designed to provide much needed authoritative information on the classic Soviet tank designs of the 20th century. The books are written by Russian experts and the research has been done in Russian archives. The series has already established itself as required reading for all those interested in the development of armored warfare over the past 100 years. The latest title examines in detail the T-34, one of the most famous and successful vehicles in the history of armored warfare. The T-34 was a Soviet medium tank produced from 1940 to 1958. It was widely regarded as the world's best tank when the Soviet Union entered the Second World War, and although its armour and armament were surpassed by later World War II tanks, it is credited as the war's most

effective, efficient and influential design. First produced at the KhPZ factory in Kharkov, it was the mainstay of Soviet armored forces throughout World War II, and widely exported afterwards. At least 39 countries are known to have operated T-34s. It was the most-produced tank of the war, and the second most-produced tank of all time, after its successor, the T-54/55 series. The T-34 was still in service with twenty-seven countries as late as 1996. There are hundreds of surviving T-34s. Examples of the type are in the military collections and museums around the globe, and hundreds more serve as war memorials in Russian and former Eastern bloc countries. Aimed at the modeler, military historian and wargamer, we believe that the Russian Armour series provides authoritative information on the classic Soviet tank designs of the 20th century, to a level of detail probably not previously available in the English language.

Panther vs T-34 Robert Forczyk, 2007-10-23 Robert A. Forczyk provides a riveting and intense description of the design and development of these two deadly opponents, the Panther and the T-34, analyzing their strengths and weaknesses and describing their tactics, weaponry and training. Moreover he gives an insight into the lives of the tank crews themselves, who were caught up in the largest land conflict of World War II, in some of the most important engagements in the history of warfare. Innovative digital artwork and first-person perspectives place the reader in the midst of a duel between the titans of the Soviet and German armed forces in a ruthless and relentless death match that would determine the war on the Eastern Front and, indeed, the fate of Nazi Germany.

Railway Age , 1944

The Wehrmacht Retreats Robert M. Citino, 2016-09-16 Throughout 1943, the German army, heirs to a military tradition that demanded and perfected relentless offensive operations, succumbed to the realities of its own overreach and the demands of twentieth-century industrialized warfare. In his new study, prizewinning author Robert Citino chronicles this weakening Wehrmacht, now fighting desperately on the defensive but still remarkably dangerous and lethal. Drawing on his impeccable command of German-language sources, Citino offers fresh, vivid, and detailed treatments of key campaigns during this fateful year: the Allied landings in North Africa, General von Manstein's great counterstroke in front of Kharkov, the German attack at Kasserine Pass, the titanic engagement of tanks and men at Kursk, the Soviet counteroffensives at Orel and Belgorod, and the Allied landings in Sicily and Italy. Through these events, he reveals how a military establishment historically configured for violent aggression reacted when the tables were turned; how German commanders viewed their newest enemy, the U.S. Army, after brutal fighting against the British and Soviets; and why, despite their superiority in materiel and manpower, the Allies were unable to turn 1943 into a much more decisive year. Applying the keen operational analysis for which he is so highly regarded, Citino contends that virtually every flawed German decision—to defend Tunis, to attack at Kursk and then call off the offensive, to abandon Sicily, to defend Italy high up the boot and then down much closer to the toe—had strong supporters among the army's officer corps. He looks at all of these engagements from the perspective of each combatant nation and also establishes beyond a shadow of a doubt the synergistic interplay between the fronts. Ultimately, Citino produces a grim portrait of the German officer corps,

dispelling the longstanding tendency to blame every bad decision on Hitler. Filled with telling vignettes and sharp portraits and copiously documented, *The Wehrmacht Retreats* is a dramatic and fast-paced narrative that will engage military historians and general readers alike.

Britain and the Origins of the Vietnam War T. Smith, 2007-08-10 British foreign policy towards Vietnam illustrates the evolution of Britain's position within world geopolitics, 1943-1950. It reflects the change of the Anglo-US relationship from equality to dependence, and demonstrates Britain's changing association with its colonies and with the other European imperial spheres within Southeast Asia.
