Rückzug Joachim Ludewig,2012-10-05 A German historian's account of the Nazi retreat from France in the summer of 1944: "An important book [about] a surprisingly under-examined phase of WWII" (Anthony Beevor, Wall Street Journal). The Allied invasion of Normandy on June 6, 1944, marked a critical turning point in the European theater of World War II. The massive landing on France's coast had been meticulously planned for three years, and the Allies anticipated a quick and decisive defeat of the German forces. Many of the planners were surprised, however, by the length of time it ultimately took to defeat the Germans. While much has been written about D-Day, very little has been written about the crucial period from August to September, immediately after the invasion. In *Rückzug*, Joachim Ludewig draws on military records from both sides to show that a quick defeat of the Germans was hindered by excessive caution and a lack of strategic boldness on the part of the Allies, as well as by the Germans' tactical skill and energy. This intriguing study, translated from German, not only examines a significant and often overlooked phase of the war, but also offers a valuable account of the conflict from the perspective of the German forces.

Christmastime 1944: A Love Story Linda Mahkovec,2017-11-07 *Christmastime 1944: A Love Story* is the fifth installment in the *Christmastime Series*. A WWII Christmas story of love and family that takes place on the home front (NYC and rural Illinois).

T-34-85 Medium Tank 1944-94 Steven J. Zaloga,2013-08-20 The T-34-85 tank is one of those rare weapons that have remained in service for more than half a century. First introduced in 1944, it has seen combat in nearly every corner of the globe. Steven Zaloga and Jim Kinnear look at this long-serving tank at length. Although long obsolete in Europe, it has proven a reliable and potent weapon in many Third World conflicts, and is still in service with more than a dozen armies around the world.

Time Capsule—1944 Myron C. Peterson,2011-02-11 When America was attacked in December 1941, many young men were drafted, given a few months of training, and sent off to fight in a war that seemed to have no end. In *Time Capsule*1944, one combat rifleman shares his personal story. In northern Italy in 1944, of the twelve men in an infantry rifle squad, ten were just nineteen years oldand all draftees who had never before seen combat action. Former combat rifleman Myron Peterson narrates a poignant story told through not only his eyes, but also of the eyes of his fellow infantry members who, despite their innocence, would be forever changed from their war experiences. Told through actual letters sent from the home front that relay one familys worries and attempts to boost and sustain the morale of their loved one, Peterson shares a never-before-seen glimpse into how the love of his family and friends helped one soldier keep his dreams aliveeven as destruction and death surrounded him. *Time Capsule*1944 shares the incredible account of how a few courageous young men who never asked to be soldiers became heroes.

T-34/76 Medium Tank 1941-45 Steven J. Zaloga,2013-08-20 The T-34 was the most influential tank design of World War 2. When first introduced into combat in the summer of 1941, it represented a revolutionary leap forward in tank design. Its firepower, armour protection and mobility were superior to that of any other medium tank of the period. This superiority did not last long. While the T-34 underwent a series of incremental improvements during 1943, it was being surpassed by new German tank designs, most notably the Panther. This title traces the life of the original T-34 through all its difficulties to eventual success.

T-34 vs StuG III Steven J. Zaloga,2019-08-22 In the summer of 1944, the Red Army staged a massive armoured assault up the Karelian Isthmus with the intent of eliminating any remaining German and Finnish forces facing the Leningrad region. Most of the Soviet units sent into Finland were new to the region, moving mainly from the fighting in the Leningrad area. As a result, some had the latest types of Soviet equipment including the new T-34-85 tank, fielded alongside the older T-34-76. Germany refused to sell the Finns new tanks without a reinforced military alliance, but in 1943 began selling them a few dozen StuG III assault guns. This made the StuG III battalion the most modern and powerful element of the Finnish armoured division, and it saw very extensive combat in the June-July summer battles. Featuring specially commissioned artwork and an array of

archive photographs, this is the absorbing story of the parts played by Soviet and Finnish armour in the epic battles in Finland during June and July 1944.

1944 Diary Hans Keilson,2017-06-06 An account of the Nazi-occupied Netherlands from one of Europe's most powerful chroniclers of the Holocaust. In 2010, FSG published two novels set in World War II by the German Jewish psychoanalyst Hans Keilson: *The Death of the Adversary* (1959) and *Comedy in a Minor Key* (1944). With their Chekhovian sympathy for perpetrators and bystanders as much as for victims and resisters, they were, as Francine Prose raved on the front page of *The New York Times Book Review*, 'masterpieces' by 'a genius.' After Keilson's death at age 101, a diary was found among his papers covering nine months in hiding with members of a Dutch resistance group. It tells the story not only of Keilson's survival but also of the moral and artistic life he was struggling to make for himself. Along with Keilsonian set pieces--such as an encounter with a pastor who is sick of having to help Jews, and a day locked upstairs during a Nazi roundup in the city--the diary is full of reading notes on Kafka, Rilke, Celine, Buber, and others. Forcibly separated from his wife and young child, Keilson was having a passionate love affair with a younger Jewish woman in hiding a few blocks away, and writing dozens of sonnets to her, struggling with claims of morality and of love. *1944 Diary* is a revelatory new angle on an often-told history and the work of one of Europe's most important novelists at a key moment of the twentieth century--

The Big Kiss-Off of 1944 Andrew Bergman,2012-02-21 Searching for a chorus girl's stag film, Jack LeVine stumbles on a sinister political plot Like all chorus girls, Kerry Lane yearns to get her name on the marquee. After years of high-kicking, she lands a bit part in a Broadway smash hit which should lead to better things. The only thing holding her back is her past: specifically a series of stag films from her days as a struggling wannabe film starlet. When a blackmailer demands a payoff to keep them out of the public eye, Kerry comes to Jack LeVine. Stocky, sweaty, and bald, LeVine is a Jewish private detective who makes a living by being polite. But underneath his smile lies a bulldog. Lured by long legs and a roll of crisp twenties, LeVine takes Kerry's case. But before he can speak to the blackmailer, the crook turns up dead. As LeVine hunts for Kerry's pictures, he finds that the heart of this case is even uglier than greed, lust, or murder. It's politics.

The Forgotten Battle A. Korthals Altes,N. K. C. A. in't Veld,2001 This book examines the battles of Overloon and Maas Salient, the other side of WWII in Europe -- a bloody slugging match between equally skilled opponents that comprised the reality of the broad front strategy.

War Stories of D-Day Michael Green,James D. Brown,2009-10-08 D-Day, June 6, 1944: it was the biggest amphibious operation in history. German Field Marshal Rommel, declared, "the enemy must be annihilated before he reaches our main battlefield," the Allied Forces undertook a massive invasion of the German-occupied coast of Normandy, France. First, there was the aerial onslaught by British and American airborne divisions, then the landing of the American, British, and Canadian seaborne troops. Over 150,000 Allied troops took the fight to the enemy, their incursion paving the way to their ultimate victory over Nazi tyranny. This book tells the story of those who lived and fought through this historic conflict. In first-person accounts of the Normandy landings, soldiers recreate the harrowing, world-changing drama of taking the beaches of France, dropping from the sky, wading out of landing craft, fighting to survive and, in the process, keeping alight the hopes of humanity.

Red Sun Setting Carolyn C Y'Blood,2012-04-15 Many regard this work as the definitive account of a controversial conflict of the war in the Pacific, the June 1944 battle known as the Great Marianas Turkey Shoot. Drawing on ten years of research and told from the viewpoint of the fliers and sailors who were on the firing line, William T. Y'Blood leads the reader through every stage of the battle, from the dogfights to the persistent attacks on the Japanese carriers to the frantic efforts of the returning fliers to land on friendly carriers. He takes the battle from the initial planning through the invasion of the Marianas and the recriminations that followed, describing Admiral Spruance's decision to allow U.S. forces to remain on the defensive and giving blow-by-blow details of the action. This intensive study of what many believe to be a major turning point in the Pacific War has remained an important reference since it was first published in 1981.

Railway Age ,1944

Shattered Days Lee Trawick,2017-05-18 With the world on the brink of collapsing to the Nazi regime, the world is looking for a miracle. One is found in an open field in northern France on March 19, 1944. Thaddeus Grace is left for dead by the Germans and presumed dead by the United States. He awakens with no memory of who he is, how he got there, or what he is doing there, armed with only a photograph. He is driven to make a difference and fight his way through the war and find the woman in the photograph, who saved him. Throughout, he is faced with many insurmountable odds. He faced them all while inspiring a nation to rise and defend

their homeland. But this leaves the question to be answered. Who is the beautiful woman in the photograph? And what role did she play in his life? Can the beauty of a woman inspire a lost soldier to lead an army against the greatest of odds to change the fate of the world? That question is answered on March 19, 1944, in northern France. This story is inspired by the true events of Zara and Thaddeus Grace and the amazing love that has stood the test of time for over seventy years. Three years ago, I asked my great-aunt Tiny (Zara Grace) to tell me about Thaddeus Grace. She immediately lit up as if she was falling in love for the first time. She talked about him over the next two days. I could easily see how proud she still was of him and how much she was in love with him today. I knew at that point I had to tell this amazing story, which takes us back to WWII. I am honored to tell this story of my family.

D-Day General Noel F. Mehlo Jr.,2021-05-15 Omaha was the make-or-break Allied beach on D-Day—in (perhaps) the make-or-break campaign of World War II. If American soldiers couldn’t gain a foothold there, then D-Day was unlikely to succeed. On June 6, 1944, U.S. troops on Omaha suffered the worst casualties of any of the five Allied invasion beaches—so many casualties, and so much tactical difficulty, that Omaha almost didn’t succeed. One big reason why Americans gained a foothold on Omaha was Gen. Norman “Dutch” Cota. A graduate of the West Point class of 1917 (alongside famous classmates Matthew Ridgway, Mark Clark, and Lightning Joe Collins), Norm Cota played football with Dwight Eisenhower, who graduated two years earlier. From March 1941 to February 1943, Cota served with the famous 1st Infantry Division, the Big Red One, as division intelligence officer, plans/training officer, and finally chief of staff. He performed so well in the North Africa campaign that he was sent to England to help plan D-Day. After laying the tactical groundwork for the amphibious landings, Cota was made assistant division commander of the 29th Infantry Division. On the eve of D-Day, he told his men, “You’re going to find confusion. The landing craft aren’t going in on schedule, and people are going to be landed in the wrong place. Some won’t be landed at all. . . . We must improvise, carry on, not lose our heads.” On June 6, 1944, under heavy fire, Cota landed with the second wave of the 29th Infantry Division on Omaha Beach, about an hour after the start of the invasion. He personally rallied the survivors of the landings and led the opening of one of the first exits off Omaha. Cota seemed to be everywhere that day. Coming upon a group of Rangers, the general told them, “Rangers, lead the way” (hence the Rangers’ motto). He is also known for saying, “Gentlemen, we are being killed on the beaches. Let us go inland and be killed.” And, to a captain uncertain how to proceed: “I’ll tell you what, captain.You and your men start shooting at them. I’ll take a squad of men, and you and your men watch carefully. I’ll show you how to take a house with Germans in it.” Having demonstrated the task, Cota asked the officer, “Do you understand? Do you know how to do it now? . . . I won’t be around to do it for you again. I can’t do it for everybody.” Great quips—which American military history will always remember and which show the character, in every sense, of Dutch Cota. Cota was a fighter—a fighting general, a D-Day general—and his contribution to D-Day will remain his rallying of demoralized troops and his blazing the trail toward the breakout and victory on Omaha. Ted Roosevelt Jr., who landed at Utah Beach, has always received credit as the D-Day general (like Cota, Roosevelt also demanded that he land on D-Day—and then died of a heart attack a month later), but Cota is the hero-general of the day, having landed early on D-Day on bloody Omaha. Portrayed by Robert Mitchum in the grand D-Day film *The Longest Day*, Cota has not yet received his due—and there’s a campaign now afoot to award him a belated Medal of Honor. His story cries out to be told. Now, with the cooperation of the Cota family, Noel F. Mehlo Jr. tells the compelling story Dutch Cota on Omaha Beach, revealing new information and never-before-seen photos.
