GB/T-2014, GB-2014 -- Chinese National Standard PDF-English, Catalog (year 2014) <https://www.chinesestandard.net>,2020-06-06 This document provides the comprehensive list of Chinese National Standards - Category: GB, GB/T Series of year 2014.

China Standard: GB/T 2816-2014 Submersible pumps for deep well www.lclicktong.com,2019-07-24 This standard specifies types,model,basic parameters,connection size,technical requirements,test methods,inspection rules,marking,packaging and storage for complete set of pumps and information. This standard is applicable to submersible pumps for deep well which was connected to submersible motor and used to pump water(hereinafter refered as pump).

China Standard:GB/T 14846-2014 Tolerances on dimensions and form of aluminium and aluminium alloy extruded profiles www.lclicktong.com,2019-07-26 This standard specifies the dimensional deviation of aluminum and aluminum alloy extruded profiles (including cross-sectional dimension deviation, curved surface clearance, plane clearance, bending, torsion, inclination, length deviation) requirements and detection methods. B This standard applies to extruded profiles of aluminum and aluminum alloys.

Can't and Won't Lydia Davis,2014-04-08 A new collection of short stories from the woman Rick Moody has called the best prose stylist in America Her stories may be literal one-liners: the entirety of Bloomington reads, Now that I have been here for a little while, I can say with confidence that I have never been here before. Or they may be lengthier investigations of the havoc wreaked by the most mundane disruptions to routine: in A Small Story About a Small Box of Chocolates, a professor receives a gift of thirty-two small chocolates and is paralyzed by the multitude of options she imagines for their consumption. The stories may appear in the form of letters of complaint; they may be extracted from Flaubert's correspondence; or they may be inspired by the author's own dreams, or the dreams of friends. What does not vary throughout Can't and Won't, Lydia Davis's fifth collection of stories, is the power of her finely honed prose. Davis is sharply observant; she is wry or witty or poignant. Above all, she is refreshing. Davis writes with bracing candor and sly humor about the quotidian, revealing the mysterious, the foreign, the alienating, and the pleasurable within the predictable patterns of daily life.

Make Your Bed Admiral William H. McRaven,2017-04-04 Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons should be read by every leader in America (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, What starts here changes the world, he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. Powerful. --USA Today Full of captivating personal anecdotes from inside the national security vault. --Washington Post Superb, smart, and succinct. --Forbes

The Battle for Open Martin Weller,2014-11-28 With the success of open access publishing, Massive open online courses (MOOCs) and open education practices, the open approach to education has moved from the periphery to the mainstream. This marks a moment of victory for the open education movement, but at the same time the real battle for the direction of openness begins. As with the green movement, openness now has a market value and is subject to new tensions, such as venture capitalists funding MOOC companies. This is a crucial time for determining the future direction of open education. In this volume, Martin Weller examines four key areas that have been central to the developments within open education: open access, MOOCs, open education resources and open scholarship. Exploring the tensions within these key arenas, he argues that ownership over the future direction of openness is significant to all of those with an interest in education.
