The Revelation Donald E. DeFilippo,2007-03 The year is 2027. A supercomputer under the supervision of Father Conrad is accidentally programmed to find the last day of Earth. He doesn't take this too seriously at first, he knows that the Earth's demise will be proceeded by clear and specific signs: Abnormal and unusual events in outer space, strong and frequent natural disasters on Earth, and certain individuals having insights, religious revelations or dreams. Having secret information, Father Conrad is alarmed as all three intertwined events occur, and a foreboding computer printout reading, Fire came down from Heaven, is followed by eight other ominous messages from the Holy Bible. This series of messages come as the computer responds to these frightening events, and they form a mysterious puzzle leading up to and concluding with the printing of a date . the last day of Earth Three of the revelations or dreams are true and are based on actual events that have taken place in 1996.

Total Solar Eclipses and How to Observe Them Martin Mobberley,2007-08-03 This is the ultimate, easy-to-read guide for eclipse-chasers which includes everything an eclipse chaser needs. There are some important eclipses coming up in the years ahead and the technology available to amateur astronomers is improving fast. The book provides eclipse virgins with a good feeling for what a trip abroad to an eclipse is like - including a humorous look at all the things that can and have gone wrong. Travel details are included, essential in these days of high-security. And of course the first part of the book contains a wealth of information about solar eclipses and what can be observed only during a total eclipse.

War and Conflict Quotations Michael C. Thomsett,Jean Freestone Thomsett,2015-09-02 History is replete with pronouncements on war. Some reflect on man’s warlike nature (“We are quick to flare up, we races of men on the earth”—Homer); others deal with the practical strategies of the combatants (“If Hitler invaded hell I would make at least a favorable reference to the devil in the House of Commons”—Winston Churchill); and still others offer advice for avoiding conflict (“The most disadvantageous peace is better than the most just war”—Desiderius Erasmus). More than 2,700 quotations on war and conflict are presented in this reference work. The quotations are arranged by more than 100 broad categories, from action to winning. For each, the quotation is first given, followed by its author, the work in which it appeared (when appropriate), and the date. The book includes numerous cross-references, and keyword-in-context and author indexes are provided for further utility.
