**Not My House You Don't** Karl Thomson,2023-06-26 While this book is about America in 2028 under a socialist government that no longer provides protection for its citizens and no longer believes public should have the right to protect themselves. That no longer believes our Constitution and Bill of Rights means the same as it did one hundred or even fifty years ago. Then calls this progress with their new ideas of how the nation should be run. While discarding old definitions to replace with their new interpretations. Forgetting past promises to balance the budget, control government spending. Free speech is redefined and limited; gun ownership is restricted to firearms that do not pose a problem against law enforcement. Even then very strict enforcement of very restrictive laws applies. Inter-structure means paying for government programs as well as repairing roads, dams, bridges and all it meant in the past. A time when Citizenship means nothing, and any human with their feet on American soil, all have the same rights. A time when inflation has grown so bad that retirement funds are valueless. Then only a small percentage of Americans are able to maintain a small standard of living in 2028.A time when opposition to the government is treason.

The 2028 Election J. R. Shumar,2007-05-10 Dick Shumar's erotic/political/sci-fi novel follows the adventures and misadventures of Kent Storm, a popular TV reporter as he and the insatiable Bobbie Marshall zig zag across the country trying to win votes for Nicole Sparks, the Constitution Party candidate for President and her running mate, Evan Wood, a renowned African-American journalist. Americans have become desensitized to violence and sex and society is crumbling. Kent had refused Nicole's offer to be her campaign manager but agreed after Bobbie offered to accompany him to provide discreet sexual services after her husband accepted the fact that she was going to have a fling with someone even though they had been married less than a year and had a newborn baby. Nicole's ratings grow from less than 1% to more than 40% in a 3-way race but just when it appears that she is unbeatable the Kent-Bobbie arrangement becomes public. Can Kent save the campaign and keep Nicole from confessing her acquiescence?

*2028 End* Gabriel Erb,2019-07-12 God created a game - it's called The Game of Life. Planet Earth is the playing field, the 10 love commandments are the rules, and we humans are the players who can win or lose. The game is played by two teams, like the game of football. One team's head coach is Jesus and the other team's head coach is Satan. All of us on earth are playing for one of these two teams! Gabriel Ansley Erb wrote the book 2028 END in order to fully elucidate God's game clock scenario for The Game of Life as contained in the game's handbook, the Holy Bible. The handbook says, God declared the end from the beginning (Isaiah 46:10) by using 7 days in the creation event. Each 24 hour creation day foretold of a future 1,000 year period for a total 7,000 year plan God had for The Game of Life to be played on planet earth. And amazingly, to confirm this is all true, God hid a secret prophesy in each creation day foretelling the greatest event He had planned to occur in that day's future millennium!Consequently, Creation day 1 foretold Adam & Eve's fall, which was fulfilled during earth's 1st millennium. Creation day 2 foretold Noah's global flood, which was fulfilled during earth's 2nd millennium. Creation day 3 foretold Moses' Red Sea parting, which was fulfilled during earth's 3rd millennium. Creation day 4 foretold of John the Baptist & Jesus Christ, and so they lived and died during earth's 4th millennium. And the prophecies continue with each Creation day!Gabriel proves all of the above, carefully revealing the prophetic Scriptures as well as the fulfillment Scriptures. Then he reveals a

dozen Scriptures proving Christ died earth's 4,000 year and will return earth's 6,000 year. Finally, he proves Christ died Feast of Passover AD 28 and will return Feast of Trumpets 2028. For those who read this book, it is an open and shut case: The Game of Life will end 2,000 years from the year of Christ's death on the cross - AD 2028.

*Military Families and War in the 21st Century* Rene Moelker,Manon Andres,Gary Bowen,Philippe Manigart,2015-05-14 This book focuses on the key issues that affect military families when soldiers are deployed overseas, focusing on the support given to military personnel and families before, during and after missions. Today's postmodern armies are expected to provide social-psychological support both to their personnel in military operations abroad and to their families at home. Since the end of the Cold War and even more so after 9/11, separations between military personnel and their families have become more frequent as there has been a multitude of missions carried out by multinational task forces all over the world. The book focuses on three central questions affecting military families. First, how do changing missions and tasks of the military affect soldiers and families? Second, what is the effect of deployments on the ones left behind? Third, what is the national structure of family support systems and its evolution? The book employs a multidisciplinary approach, with contributions from psychology, sociology, history, anthropology and others. In addition, it covers all the services, Army, Navy/Marines, Air Force, spanning a wide range of countries, including UK, USA, Belgium, Turkey, Australia and Japan. At the same time it takes a multitude of perspectives such as the theoretical, empirical, reflective, life events (narrative) approach, national and the global, and uses approaches from different disciplines and perspectives, combining them to produce a volume that enhances our knowledge and understanding of military families. This book will be of much interest to students of military studies, sociology, war and conflict studies and IR/political science in general.

**KI 2010: Advances in Artificial Intelligence** Rüdiger Dillmann, Jürgen Beyerer, Uwe D. Hanebeck, Tanja Schultz, 2010-09-08 The 33rd Annual German Conference on Artificial Intelligence (KI 2010) took place at the Karlsruhe Institute of Technology KIT, September 21–24, 2010, under the motto “Anthropomatic Systems.” In this volume you will find the keynote paper and 49 papers of oral and poster presentations. The papers were selected from 73 submissions, resulting in an acceptance rate of 67%. As usual at the KI conferences, two entire days were allocated for targeted workshops—seven this year—and one tutorial. The workshop and tutorial materials are not contained in this volume, but the conference website, [www.ki2010.kit.edu](http://www.ki2010.kit.edu), will provide information and references to their contents. Recent trends in AI research have been focusing on anthropomatic systems, which address synergies between humans and intelligent machines. This trend is emphasized through the topics of the overall conference program. They include learning systems, cognition, robotics, perception and action, knowledge representation and reasoning, and planning and decision making. Many topics deal with uncertainty in various scenarios and incompleteness of knowledge. Summarizing, KI 2010 provides a cross section of recent research in modern AI methods and anthropomatic system applications. We are very grateful that Josef Edelmann, Hans-Hellmut Nagel, Carl Edward Rasmussen, and David Vernon accepted our invitation to give a talk.
