Photoshop Elements 4 One-on-one Deke McClelland,Galen Fott,2005 Photoshop Elements 4 One-on-One marks a landmark in computer publishing. In addition to offering 12 lessons of project-based tutorials with all sample files included, each lesson starts with a video introduction, hosted by the author himself, Deke McClelland. And these are no ordinary videos. Produced by Adobe's official video training partner, Total Training, each video measures 960 by 540 pixels and plays at 30 frames per second, with no interlacing. That's a play rate of 15.5 million pixels per second, making this the first computer publication to include high-definition video, playable on any modern PC with a DVD-ROM drive. The picture is so crystal clear, it's like watching the world-reknowned expert work right along with you. In addition to the video -- all new recordings created exclusively for this title -- the book has been completely revamped for Photoshop Elements 4. Inside the full-color pages are new exercises devoted to color-correcting skin tones, auto-tagging images with faces, isolating foreground subjects, extracting people and objects from their backgrounds, creating custom slide shows, correcting red-eye, and sharing images online. Every bit as wildly ambitious and brass-tacks practical as the best-selling image editor itself, Photoshop Elements 4 One-on-One will have you gasping with amazement at your own creations. Deke puts the magic of digital imaging squarely where it belongs -- in your hands.

2032 Was a Very Good Year J. William Mauck,2011-05-18 It is 2023, and the clouds for a perfect storm are gathering. Most of the world's population is desperately fighting for survival. In the midst of the chaos and confusion, some countries have descended into civil war while others are attacking their neighbors. The timing is perfect for a monumental jihad to be launched against all infidels and the Great Satan. The world is about to experience a catastrophe event. After Islamic terrorists annihilate much of the world and the dust and radiation finally settles, the reality is stark. Millions are dead, and now the survivors must test their resourcefulness in order to rebuild their communities. As civilization slowly comes back to life, Alex Foster attends college and is enthralled with the political history his professor shares in class. But someone else has captured even more of his attention—fellow student Lyra Ricci. As the two lovers begin a passionate relationship, each struggles within the aftermath of a catastrophe that has replaced security and happiness with

uncertainty and fear. Only time will tell if Alex and Lyra will realize their own truths in order to help recreate a better world.
