**2050** Kristian Zenz,2019-04-29 In a world of digitized euphoria, the lights shine bright. The future that humans have desired has finally arrived. The year is 2050, and all that shines is gold, except for one man. Named Patrick Shields, the man is a dark spot in such a world. His distaste for technology has become notorious to all who know him. Perhaps, he is just a precursor to what lies ahead. Patrick himself doesn't know what is coming, but he is going to do whatever it takes to change the future for all of mankind. Even if that includes embracing what he hates. In this novel, a man whose experiences with technology and society drive him to change the past, in order to save the future.

Quarantine City-2050 Jack Lillis,2001-06 With the proliferation of drug use, liberal life styles, and HIV/AIDS, the world's cultures are faced with chaos and anarchy. Cultures are formed that try to combat this trend and extreme measures are taken to head off the extinction of the human race. It is the year 2050. From one of these cultures, the protagonist emerges to try and discover what lies outside of his restrictive life. His odyssey takes him through much peril while a romance teaches him the natural gender relations that are innate in the human race.

Future History 2050 Thomas Harding,2022-03-01 This future history of the next thirty years, imagined by bestselling author Thomas Harding, is a compelling and startling call to action. In 2020, a researcher is shocked to find a set of notebooks detailing the history of the next thirty years. Is this a hoax? Or could it be real? The notebooks, written in the year 2050, contain interview transcripts between teenage Billy and Gran Nancy. We learn about the great climate SHOCK, when global temperatures rise much faster than anticipated, resulting in catastrophic consequences for humanity. We learn about a shift away from democracy, toward unelected “ethnarchs” — heads of corporations who use their access to our personal data to competently run the world. We learn about the giant city towers where most people live, work and play inside — where it's safe from natural disasters and viral outbreaks. And between these interviews, we learn more about Billy,

whose interest in the history that has been erased from the official record is causing trouble in 2050. Is it too late to change the past to save the future? Key Text Feature glossary

**Life in 2050** Jim Musgrave, 2015-10-28 1984 Meets Logan's Run The youth of the world have finally taken over in the futuristic SciFi adventure novel, *LIFE IN 2050*, by Jim Musgrave. In Musgrave's novel, old folks don't die from viruses; they get forced into a permanent dementia state to die. In Big Bro's dystopian world, citizens over 40 are given surgeries to see in black and white and to prepare them for early death. Short Listed in the Cygnus Best SciFi Awards, 2016. The Young Socialist Libertarians took over after the old order was defeated in the World Revolution of 2028. The elderly were now seen as a hindrance to present peace and prosperity. They carry disease, are non-productive, and they are remembered for the past generations of wars, greed, and famine. William must save his parents and family, who have been separated. This is a world, he discovers, where getting social security has become a reality show fight to the death, and prostitutes are safe sex androids. Who's behind Big Bro, and what will become of people of color and William's family? Read *LIFE IN 2050*. Up ahead stood the tall skyscraper—the only one allowed—of the Young Socialists' Ministry of Mindfulness. This was where William worked, and it was also broadcasting the libertarian message of the party, in ten-foot letters, running every ten seconds across the huge digital banner in front of the building: WAR IS IN THE PAST FREEDOM IS ALWAYS TODAY IGNORANCE IS IN WRITTEN HISTORY

2050 It Isn't Pretty Tom Norton, 2019-09-17 The backdrop of this story is a time and conditions in the very near future that most people living today will experience. Regardless of the cause of climate change, it was raising its ugly head well before the twenty-first century. The rate of change in the warming climate increased dramatically in the twenty-first century and by the year 2050 the hand writing was on the wall, and it read, the Earth is losing its ability to sustain human life. The conditions at the time of this story are when mankind can still adapt to the ever worsening warming and the hurricanes and typhoons it spawned. The national and international communities are in a situation of cooperation as well as one of conflict due to the increasing warm to hot conditions and the impending doom to be faced in the future. This story plays out under these climatic conditions and concerns a scenario that may be given a great deal of thought in the near future. This isn't an end of the world story, it's a; we are on our way, story.
