Russian-English Dictionary of Proverbs and Sayings Alexander Margulis, Asya Kholodnaya, 2015-08-13 This dictionary contains 2,375 Russian sayings and proverbs and their English counterparts. Variants of each saying are included, and careful attention is given to the differences in British and American versions. For example, the Russian saying that is interpreted as "Children behave in a childish way, and they cannot be expected to act like grown-up people," is first given in Russian (in the Cyrillic alphabet) and then in English, and is then followed by the nearest English-language equivalent sayings in Britain and the United States: "Young colts will canter" (British) and "Boys will be boys" (American). The proverbs and sayings are arranged alphabetically by the first Russian word (in the Cyrillic alphabet) and are cross-referenced so the reader can find analogous Russian versions of English sayings. There is a keyword index for each language (one in English, one in Russian in the Cyrillic alphabet), which allows the reader to find a proverb or a saying without knowing the first word. Proverbs and sayings are current and include those popular in both spoken Russian and literature. The prefatory matter is in both English and Russian, for readers who have a command of either language.

Buddhism, Diplomacy, and Trade Tansen Sen, 2003-01-01 Relations between China and India underwent a dramatic transformation from Buddhist-dominated to commerce-centered exchanges in the seventh to fifteenth centuries. The unfolding of this transformation, its causes, and wider ramifications are examined in this masterful analysis of the changing patterns of interaction between the two most important cultural spheres

in Asia. Tansen Sen offers a new perspective on Sino-Indian relations during the Tang dynasty (618-907), arguing that the period is notable not only for religious and diplomatic exchanges but also for the process through which China emerged as a center of Buddhist learning, practice, and pilgrimage. He proposes that changes in religious interactions were paralleled by changes in commercial exchanges. For most of the first millennium, trading activities between India and China were closely connected with and sustained through the transmission of Buddhist doctrines. In the eleventh and twelfth centuries, however, secular bulk and luxury goods replaced Buddhist ritual items. Moreover, policies to encourage foreign trade instituted by the Chinese government and the Indian kingdoms transformed the China-India trading circuit in

2054 Antony Barmew, 2020-05-31 The Prime Minister glared at the hack. 'Crisis? What crisis?' he growled. Less than five years after this seemingly innocuous confrontation with a Fleet Street journalist, the government had imposed a ban on all political reporting. Total deregulation of the financial markets had finally released the monster within. Greed became an all-consuming cancer eating the life blood of society. Unfortunately, disease and climate change were more than willing bedfellows and collapse was imminent. Twenty five years later society hadn't changed. The few still rule many. How they ruled was the problem.
