*Heroes and Saints* Phyllis Granoff,Koichi Shinohara,2009-05-05 The present volume makes a unique contribution to the study of dying in ancient cultures by focusing on what happens in the critical moments before death. Employing a wide range of literary sources, the essays in this volume focus exclusively on the moment of death and practices associated with the transition from this world to the next. Five of the essays deal with Asian religions, primarily Buddhism in India, Tibet, China, and Japan. The other five essays deal with the moment of death in the West, old Norse-Icelandic, Old English, and the Judeo-Christian tradition. The authors explore the many ways in which the good death was envisioned. Remarkable parallels emerge between the good death in religious texts and in heroic sagas . Despite the diversity of cultures, time periods and religious traditions represented in these essays, this volume vividly illustrates the fundamental human need to see in the inevitable moment of death a possibility of choice and a promise of hope.

**2061: Odyssey Three** Arthur C. Clarke,1989-04-13 Arthur C. Clarke’s 2061: Odyssey Three is truly a masterful elaboration on one man’s epic vision of the universe. Only rarely does a novelist weave a tapestry so compelling that it captures the imagination of the entire world. But that is precisely what Arthur C. Clarke accomplished with 2001: A Space Odyssey. It is even more unusual that an author is able to complement so well-received an invention with an equally successful sequel. But Arthur C. Clarke’s 2010: Odyssey Two enthralled a huge audience worldwide. Now, in 2061: Odyssey Three, Arthur C. Clarke revisits the most famous future ever imagined, as two expeditions into space are inextricably tangled by human necessity and the immutable laws of physics. And Heywood Floyd, survivor of two previous encounters with the mysterious monoliths, must once again confront Dave Bowman—or whatever Bowman has become—a newly independent HAL, and the power of an alien race that has decided Mankind is to play a part in the evolution of the galaxy whether it wishes to or not.
