Buddhism, Diplomacy, and Trade Tansen Sen,2003-01-01 Relations between China and India underwent a dramatic transformation from Buddhist-dominated to commerce-centered exchanges in the seventh to fifteenth centuries. The unfolding of this transformation, its causes, and wider ramifications are examined in this masterful analysis of the changing patterns of interaction between the two most important cultural spheres in Asia. Tansen Sen offers a new perspective on Sino-Indian relations during the Tang dynasty (618-907), arguing that the period is notable not only for religious and diplomatic exchanges but also for the process through which China emerged as a center of Buddhist learning, practice, and pilgrimage. He proposes that changes in religious interactions were paralleled by changes in commercial exchanges. For most of the first millennium, trading activities between India and China were closely connected with and sustained through the transmission of Buddhist doctrines. In the eleventh and twelfth centuries, however, secular bulk and luxury goods replaced Buddhist ritual items. Moreover, policies to encourage foreign trade instituted by the Chinese government and the Indian kingdoms transformed the China-India trading circuit in

Heroes and Saints Phyllis Granoff,Koichi Shinohara,2009-05-05 The present volume makes a unique contribution to the study of dying in ancient cultures by focusing on what happens in the critical moments before death. Employing a wide range of literary sources, the essays in this volume focus exclusively on the moment of death and practices associated with the transition from this world to the next. Five of the essays deal with Asian religions, primarily Buddhism in India, Tibet, China, and Japan. The other five essays deal with the moment of death in the West, old Norse-Icelandic, Old English, and the Judeo-Christian tradition. The authors explore the many ways in which the good death was envisioned. Remarkable parallels emerge between the good death in religious texts and in heroic sagas . Despite the diversity of cultures, time periods and religious traditions represented in these essays, this volume vividly illustrates the fundamental human need to see in the inevitable moment of death a possibility of choice and a promise of hope.
