War and Conflict Quotations Michael C. Thomsett, Jean Freestone

Thomsett, 2015-09-02 History is replete with pronouncements on war. Some reflect on man's warlike nature ("We are quick to flare up, we races of men on the earth"—Homer); others deal with the practical strategies of the combatants ("If Hitler invaded hell I would make at least a favorable reference to the devil in the House of Commons"—Winston Churchill); and still others offer advice for avoiding conflict ("The most disadvantageous peace is better than the most just war"—Desiderius Erasmus). More than 2,700 quotations on war and conflict are presented in this reference work. The quotations are arranged by more than 100 broad categories, from action to winning. For each, the quotation is first given, followed by its author, the work in which it appeared (when appropriate), and the date. The book includes numerous cross-references, and keyword-in-context and author indexes are provided for further utility.

State and Local Public Finance Ronald C. Fisher,2022-11-21 State and Local Public Finance provides a comprehensive and sophisticated analysis of state and local government public finance practices and issues, using the basic tools of economics. This fifth edition maintains its focus on key local services such as education, health care, and transportation and brings in new coverage of land use and housing, applications from behavioral economics, and more international comparisons. This textbook provides an examination and analysis of public finance practices and problems in a federal fiscal system, focusing on the fiscal behavior and policies of state and local governments. Modern economic theory is applied to examine the way key institutions are used to produce and finance services and to provide evaluation of alternative policies. This stalwart text will continue to be invaluable reading for those who study public finance, local government finance, urban economics, public policy, and public administration.
