War and Conflict Quotations Michael C. Thomsett,Jean Freestone
Thomsett,2015-09-02 History is replete with pronouncements on war. Some reflect on man's warlike nature ("We are quick to flare up, we races of men on the earth"—Homer); others deal with the practical strategies of the combatants ("If Hitler invaded hell I would make at least a favorable reference to the devil in the House of Commons"—Winston Churchill); and still others offer advice for avoiding conflict ("The most disadvantageous peace is better than the most just war"—Desiderius Erasmus). More than 2,700 quotations on war and conflict are presented in this reference work. The quotations are arranged by more than 100 broad categories, from action to winning. For each, the quotation is first given, followed by its author, the work in which it appeared (when appropriate), and the date. The book includes numerous cross-references, and keyword-in-context and author indexes are provided for further utility.

Routledge International Handbook of Consumer Psychology Cathrine V. Jansson-Boyd,Magdalena J. Zawisza,2016-11-18 This unique handbook maps the growing field of consumer psychology in its increasingly global context. With contributions from over 70 scholars across four continents, the book reflects the cross-cultural and multidisciplinary character of the field. Chapters relate the key consumer concepts to the progressive globalization of markets

in which consumers act and consumption takes place. The book is divided into seven sections, offering a truly comprehensive reference work that covers: The historical foundations of the discipline and the rise of globalization The role of cognition and multisensory perception in consumers' judgements The social self, identity and well-being, including their relation to advertising Social and cultural influences on consumption, including politics and religion Decision making, attitudes and behaviorally based research Sustainable consumption and the role of branding The particularities of online settings in framing and affecting behavior The Routledge International Handbook of Consumer Psychology will be essential reading for anyone interested in how the perceptions, feelings and values of consumers interact with the decisions they make in relation to products and services in a global context. It will also be key reading for students and researchers across psychology and marketing, as well as professionals interested in a deeper understanding of the field.
