This Standard is the basic safety technical specification for mechanical equipment on upper stages. This Standard applies to the mechanical equipment on upper stages installed in various performance venues including theater, multi-function hall, exhibition hall, TV studio, concert hall, auditorium, gymnasium, bar, discotheque and amphitheater, etc. In addition to the stage, the auditorium is also a performance venue so this Standard is also applicable.

T-28 Trojan; Oil, Smoke, and Noise ,2009-10-31 This collection of photographs is not intended to be the definitive history of North American Aviation's T-28 Trojan. Rather it is a small but representative sample of the photographic and design works of Paul D. Baca, whose association with the T-28, and more specifically the three T-28's of Trojan Phlyers, Inc., spans over a decade. It includes a behind-the-scenes look at the maintenance, preparation, and training involved in keeping these historical birds flying.

Nuclear Science Abstracts ,1973 NSA is a comprehensive collection of international nuclear science and technology literature for the period 1948 through 1976, pre-dating the prestigious INIS database, which began in 1970. NSA existed as a printed product (Volumes 1-33) initially, created by DOE's predecessor, the U.S. Atomic Energy Commission (AEC). NSA includes citations to scientific and technical reports from the AEC, the U.S. Energy Research and Development Administration and its contractors, plus other agencies and international organizations, universities, and industrial and research organizations. References to books, conference proceedings, papers, patents, dissertations, engineering drawings, and journal articles from worldwide sources are also included. Abstracts and full text are provided if available.

NORTH AMER T-28 TROJAN PILOTS United States Navy,2010-08 Designed as a replacement for the T-6 Texan, North American's T-28 Trojan first flew in 1949 and remained in production until 1957. The T-28A was initially adopted as primary trainer by the U.S. Air Force, but it served in this capacity for less than a decade. The U.S. Navy and Marine Corps found the T-28B/C model aircraft well suited to their needs, and continued to use it up until 1984, when it was replaced by the T-34C turboprop. Despite its training designation, the T-28 flew in a combat role, perhaps most famously during the Vietnam conflict where Trojans performed close air support and counter-insurgency missions for the C.I.A. Modified attack trainer T-28D Nomads also flew for the French in Algeria. Originally created by the U.S. Navy in 1962, this T-28B/C pilot's flight operating manual was required reading for pilots and trainees. This high quality reproduction includes the original manual in its entirety, including information on carrier landing training and emergency procedures. It's a fascinating reference that puts you right in the cockpit of one of history's great planes.

Final Tour of Duty Robert Genat,Lisa Hanks,1996 One of the more popular 'Warbirds' seen at airshows, the T-28 Trojan was both America's front-line trainer, preparing thousands of pilots for jet flight, as well as a serious combat aircraft used by many nations, including the U.S. during its involvement in Vietnam. Stubby and unglamorous in appearance, the Trojan was a superb performer in the air, the ideal platform from which to train new pilots as well as fly missions over the jungles of southeast Asia. Genat provides excellent photographic coverage as well as a nuts and bolts examination of the physical and flying characteristics of this famous aircraft.
