International Arbitration in Sweden Annette Magnusson,Jakob Ragnwaldh,Martin Wallin,2021-03-09 Sweden is one of a handful of countries where the international arbitral process has reached a stage where the jurisprudence is replete with instances involving no local parties at all. In this context of credible neutrality, the Arbitration Institute of the Stockholm Chamber of Commerce (SCC) has emerged as a leading global arbitral institution. Whether the matter at issue is a business transaction dispute or a politicized conflict involving obdurate parties, the richness of its body of decided cases manifests the SCC's authority and reliability throughout the converging world of international arbitration. The present book, written by sixteen eminent practitioners and now in its second edition, provides a practical guide to international arbitration in Sweden, whether ad hoc or institutional. Among the many elements of practice and procedure detailed are the following: appointment, challenge, removal, and compensation of arbitrators; procedural efficiency and costs; use of international legal sources such as IBA guidelines; choice of law by parties; SCC rules and

procedures; multiparty arbitrations – joinder, intervention, consolidation; investment treaty arbitration; confidentiality; documentary evidence, witnesses, and experts; grounds for setting aside; party succession; Swedish court review of the arbitrator’s jurisdiction; and appeal of arbitrators’ compensation. In addition, readers will be exposed to a trove of pertinent references to important decisions that have, in recent decades, been generated by the stream of major international arbitrations conducted in Sweden. Disputing parties wishing to know what will happen when their case is brought to Sweden for arbitration will find no clearer or more thorough guide. This book is an incomparable source for anyone called upon to act as arbitrator or counsel, or in any other capacity, in international arbitration in Sweden.

Commercial Arbitration in Sweden Finn Madsen, 2007-09-13 The Arbitration Institute of the Stockholm Chamber of Commerce has become an important forum for international commercial arbitration, with parties from more than 30 countries, especially Western European countries and increasingly Russia, other Eastern European Countries, and China. The author offers practitioners several background chapters on commercial arbitration in Sweden and a detailed analysis of each section of the Swedish Arbitration Act (SAA). This is a ready-reference handbook analyzing Swedish arbitration- the SAA, the Rules, and cases- and also includes references and commentary with respect to international commercial arbitration in general. The author's intention is to help practitioners in search of rapid guidance regarding the interpretation of a particular provision or who wish to solve a practical problem. This Third Edition of *Commercial Arbitration in Sweden* provides us all with a valuable and up-to-date understanding of the Swedish system in operation, and a comprehensive commentary on the SCC Rules, both new and existing. World business has the means, through this

work, to see why Sweden and Stockholm are good choices for their international arbitrations.-- ? Phillip Capper, Head of International Arbitration, Lovells; Nash Professor of Engineering Law, King's College, University of London; former Chairman of the Faculty of Law, University of Oxford
