**The Nyingma School of Tibetan Buddhism** Dudjom, 2012-07-23 Written by a great modern Nyingma master, Dudjom Rinpoche's The Nyingma School of Tibetan Buddhism covers in detail and depth both the fundamental teachings and the history of Tibetan Buddhism's oldest school. This, the first English translation of His Holiness' masterwork, constitutes the most complete work of its type in the West. An absolute treasure for students of the tradition, it is also an indispensable reference for anyone with an interest in Buddhism. The book includes chronologies and glossaries that elucidate Buddhist doctrine, and it provides fascinating insights into the Buddhist

history of Tibet. Two treatises form the present volume, namely the Fundamentals of the Nyingma School and the History of the Nyingma School. Among the most widely read of all His Holiness Dudjom Rinpoche's works, these treatises were composed during the years immediately following his arrival in India as a refugee. His intention in writing them was to preserve the precise structure of the Nyingma philosophical view within its own historical and cultural context. This is the first time this text has been available in a trade edition. Beautifully presented, this single-volume edition represents a truly wonderful gift, and features illustrations in black and white and in color, plus maps, bibliographic information, and useful annotations.

The Advanced TEXbook David Salomon, 2012-12-06 Why is 'lEX so hard to use? is the most frequent comment/complaint made by (frustrated) 'lEX users. The answer: Because it is programmable (has many features commonly found in programming languages), because it pays attention to detail, and because its creator has developed it for his own use (perhaps also his administrative assistant's) and not for general use. The material presented here is a direct result of this complaint and is an attempt to make it easier for inexperienced users to get the kind of high-quality typesetting that is possible with 'lEX. The material is based on classes taught since 1985, and on the author's personal experience with 'lEX, which includes writing three books and numerous articles, handouts, and letters. Both introductory and advanced material is included here. There are many examples as well as a detailed discussion of topics, such as \valign and \emergencystretch, that are only briefly touched upon in The TpJXbook. Chapter 20 describes the macros used to typeset this book; it also lists the METAFONT programs for the special characters used.
