Archaeological Investigations in a Northern Albanian Province: Results of the Projekti Arkeologjik I Shkodrës (PASH) Michael L. Galaty, Lorenc

Bejko, 2023-09-12 To date, very few northern Albanian archaeological sites have been surveyed and excavated. Situated beyond the reach, and allure, of the Classical Greek colonies of south-central Albania, the region has drawn less scholarly attention. But in various ways, northern Albania is just as important to the ongoing archaeological debates regarding the origins of inequality and the rise of social complexity. Some of the earliest and largest hill forts and tumuli (burial mounds) in Albania, dating to the Bronze and Iron Age, are located in Shkodër. Shkodër (Rozafa) Castle became the capital of the so-called Illyrian Kingdom, which was conquered by Rome in the early 3rd century BC. This research report, focused on the province of Shkodër, is based on five years of field and laboratory work and is the first synthetic archaeological treatment of this region. The results of the Projekti Arkeologjik i Shkodrës (or PASH) are presented here in two volumes. Volume 1 includes geological context, a literature review, historical background, and reports on the regional survey and test excavations at three settlements and three tumuli. In Volume 2, the authors describe the artifacts recovered through survey and excavation, including chipped stone, small finds, and pottery from the prehistoric, Classical, Roman, medieval, and post-medieval periods. They also present results of faunal, petrographic, chemical, carpological, and strontium isotope analyses of the artifacts. Extensive supporting data is available on the University of Michigan's Deep Blue data repository: <https://doi.org/10.7302/xnpy-0e60> These two volumes place northern Albania--and the Shkodër Province in particular--at the forefront of archaeological research in the Balkans.

United States Code United States,2013 The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited U.S.C. 2012 ed. As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office--Preface.
