*John of Rupescissa’s VADE MECUM IN TRIBULACIONE (1356)* Matthias Kaup,2016-12-08 The VADE MECUM IN TRIBULACIONE was meant as an eschatological manual for the thirteen catastrophic years between its composition in December 1356 and the Thousand-Year Reign of Christ expected to begin in 1370. This manual, permeated by passion for clerical reform, was intended to give righteous Christians practical and spiritual advice on how to survive this period of tribulation. Likewise, it aimed to inform them about what to expect from the envoys of Satan, the Western and the Eastern Antichrists, but also from Christ’s warriors, the papal restorer and his secular assistant, the French-Roman Emperor. Moreover, it offered a brief outline of Christ’s Thousand-Year Reign and of Armageddon. The VADE MECUM was written by John of Rupescissa OFM (c. 1310-1366), the most prolific apocalyptic author of the Middle Ages, as the central work of in all three manuals designed to prepare Christendom for the impending crises. As a completely new text type and summary of the late Rupescissa’s doctrines, this eschatological manual fascinated numerous readers in the Late Middle Ages, who copied, reworked and translated it and made it thus a pivotal text of medieval apocalypticism: ten versions of the Latin VADE MECUM in more than forty manuscripts have come down to us. Rupescissa’s eschatological manual is his last known and most widely distributed work; the present study provides an annotated critical edition equipped with an English translation. It inducts in the manual’s contents, places them in the context of Rupescissa’s work and medieval prophetic literature, investigates important aspects of its reception and clarifies the relationships between its different versions. Furthermore, it ends with a critical edition of the VENI MECUM IN TRIBULACIONE, the most influential compendious version of the VADE MECUM. Thus this book offers an indispensable fundamental contribution to the flourishing studies of Rupescissa and medieval apocalypticism.

**Participation in EU Rule-making** Joana Mendes,2011-04-07 The limited scope of participation in the making of EU law remains a continued source of controversy, featuring prominently in recent institutional and political developments that have been shaping the EU's constitutional framework - most intensely in the follow up of the Commission's White Paper on Governance. Yet little attention has been paid to participation rights as a means of ensuring the procedural protection of persons affected by EU regulation in its diverse forms. This is a dimension of the rule of law that has been largely ignored by EU legislative and judicial bodies. Not only the legislator, but also the Court of Justice and the Court of First Instance tend to adhere to excessively formal conceptions of participation rights that are premised on the right to be heard in individual procedures, as well as to a restrictive view regarding the relationships between the citizens and the administration. This book shows why, in the face of new regulatory developments, these conceptions are currently inadequate to ensure the legal protection of rights and interests affected by EU regulation. Combining a conceptual analysis with thorough empirical scrutiny, this book assesses the scope of participation rights in EU law against their rationales and underlying legal values. It makes a case for the extension of participation rights to new situations and new types of procedures, in particular those that would generally fall within the category of rulemaking. It brings distinct normative insights into a crucial theme of EU administrative law, and makes a topical and timely contribution to the increasingly notable theme of public participation in EU regulation. Joanna Mendes' 2009 thesis upon which Participation in EU Rule-Making is based was awarded the the European University Institute (Florence) Mauro Cappelletti Prize for the best doctoral thesis using a methodology of comparative law
