Assassination, Politics, and Miracles David Skuy,2003 Annotation An in-depth examination of the event that precipitated the complete domination of Restoration politics by the Royalists and ultimately convinced millions of French citizens to support Louis XVIII and the Bourbon monarchy. On 13 February 1820 the Duke of Berry, the only Bourbon prince capable of siring an heir, was assassinated. Seven months later the Duchess of Berry gave birth to a boy, the Duke of Bordeaux, and the Bourbon lineage was saved. The boy was immediately nicknamed the miracle child. The Duke's assassination and the birth of his son gave rise to the Royalist Reaction of 1820, a ten-month period that forever altered France's political landscape. This remarkable story provides the backdrop for David Skuy's analysis of the Royalist Reaction and its place in the history of the French Restoration. Skuy argues

that the Royalist Reaction was the product of two divergent forces: historical echoes of the French Revolution and the Napoleonic Empire and the psychological consequences of the assassination, and the miracle child. Skuy discusses Restoration political theory and the development of modern political parties. He follows the strategems of anti-royalist extremists plotting to overthrow the Bourbon regime, and details the complexities and intrigues that characterized the royal court and parliament. Skuy reveals how the assassination and the birth of the miracle child triggered a popular Royalist Reaction that changed millions of French citizens from passive observers into ardent royalists.
