Cruising Guide to the Leeward Islands Chris Doyle,1998 Fair winds and fine cruising is author Chris Doyle's wish for readers of this popular, newly updated guide to the 10 island nations of this enchanting Caribbean chain.Doyle's background in research makes this volume rich in practical details; yet its tone is conversational. His is also an intimate knowledge, gathered from more than 20 years of live-aboard Caribbean cruising on his Carib 41 Helos, a former charterboat.The Leewards are a cultural and topographic mix, and Doyle addresses them by geographical grouping. The Renaissance Islands (St. Martin, St. Barts and Anguilla), an economically strong bareboating enclave, offer short cruising passages and a wide choice of anchorages. The Islands That Brush the Clouds - a volcanic chain strung between Saba and Montserrat - present cruisers with a variety of channels and terrain. Most broadly strewn are the Islands of Mountains and Mangroves, a patchwork chiefly of rugged rainforest and exotic fauna, guarded in spots by spectacular reefs.The southern Leewards in particular have cried for reliable charting. Doyle provides aid throughout, using GPS coordinates, a trove of charts and color maps. All are cross-referenced with the newly released Caribbean Yachting Charts, exactly detailed and available through Cruising Guide Publications. Spectacular photographs add a visual feast.Onshore accommodations, transportation, communications, entertainment and provisioning are also addressed throughout the guide, and in an exhaustive directory by island and service type.

Sea Change Amanda Phillips,2021-04-06 Textiles were the second-most-traded commodity in all of world history, preceded only by grain. In the Ottoman Empire in particular, the sale and exchange of silks, cottons, and woolsens

generated an immense amount of revenue and touched every level of society, from rural women tending silkworms to pashas flaunting layers of watered camlet to merchants traveling to Mecca and beyond. Sea Change offers the first comprehensive history of the Ottoman textile sector, arguing that the trade's enduring success resulted from its openness to expertise and objects from far-flung locations. Amanda Phillips skillfully marries art history with social and economic history, integrating formal analysis of various textiles into wider discussions of how trade, technology, and migration impacted the production and consumption of textiles in the Mediterranean from around 1400 to 1800. Surveying a vast network of textile topographies that stretched from India to Italy and from Egypt to Iran, Sea Change illuminates often neglected aspects of material culture, showcasing the objects' ability to tell new kinds of stories.
