T'ai Chi Cheng Man-Ch'ing, Robert W. Smith, 2011-12-20 Master the Chinese martial art of T'ai Chi with this accessible, illustrated guide. T'ai-chi (Tai Chi) is an effortless and rhythmical art that stresses slow breathing, balanced and relaxed postures, and absolute calmness of mind. It requires no special equipment or place to practice and takes no more than ten minutes a day. This book, from renowned Tai Chi master, Cheng Man-Ch'ing, introduces T'ai-chi as a means to a healthier life, as a sport and as a method of self-defense. It is a complete step-by-step manual for the beginner. With conscientious practice, readers will master the sequence of thirty-seven postures that will make up the T'ai-chi solo exercise. Students will learn how to progress from exercise to sport to self-defense with maximum

efficiency. The instructions are clear and easy to follow, and more than 275 photographs and 122 foot-weighting diagrams guarantee an understanding of the correct form. A history of T'ai-chi, including thumbnail sketches of famous masters, and the first English translation of the basic T'ai-chi document, known as the T'ai-chi Ch'uan Classics, are also included.

Flower Mat Shugoro Yamamoto,2012-01-09 First published as Hanamushiro in 1948, the setting for *The Flower Mat* is eighteenth-century Japan, a time when families were bound together by a rigid code of honor and individual lives were of necessity valued far less than the interests of the group. It tells of a young bride, Ichi, born into such a tradition, groomed in the virtues of ideal womanhood, and finally tempered by tragedy. Her life and fate are bound up inexorably with the fortunes of her in-laws, high-ranking officials. She soon becomes aware that something is dreadfully wrong, that something is

threatening her home and her peaceful way of life. Uneasy and frightened, she tries to put clues together, but her questions go unanswered. Political intrigue and sudden tragedy force her into a new and unfamiliar world. We follow Ichi as she grows from passive observer—a wife suppressing her own passions—to active agent—a woman who will risk anything for justice. Struggling for truth and justice, Ichi finds her only weapons are her own strength and the lovely mats, decorated with delicate flowers, that she designs. Readers everywhere will find this a solid account of personal development and responsibility in the life of one Japanese woman.

Heredity of Taste Soseki Natsume, 2012-02-07 Written in eight days, in December 1905, and published in the January 1906 issue of the magazine *Teikoku Bungaku* (Imperial Literature), *Shumi no iden* (The Heredity of Taste) is Soseki Natsume's only anti-war work. Chronicling the mourning process of a narrator haunted by his friend's death, the story reveals Soseki's attitude to the atrocity of war, specifically to the Russo-Japanese War of 1904-5, and to the personal tragedies and loss of individuality of young men like his hero Ko-san, and the sacrifices made by both the living and the

dead. Although the first part of the story powerfully describes the narrator's visions of the war dead, including the recurring vision of Ko-san who cannot climb out of a ditch and return from the war, it is the second half, in which a beautiful and mysterious woman appears before the narrator at Ko-san's grave, with the promise of transcendence, that grips our attention. The story centers on finding out the identity of this woman and her relationship with Ko-san, with it's implication that what should have been a love story has been shattered by the reality of war-a reminder of the magnitude of Japan's sacrifice for it's so-called victory.
