Sophocles: Oedipus at Colonus Adrian Kelly, 2013-10-10 In his final play, Sophocles returns to the ever-popular character of Oedipus, the blind outcast of Thebes, the ultimate symbol of human reversal, whose fall he had so memorably treated in the 'Oedipus Tyrannus'. In this play, Sophocles brings the aged Oedipus to Athens, where he seeks succour and finds refuge, despite the threatening arrival of his kinsman Creon, who tries to tempt and then force the old man back under Theban control. Oedipus' resistance shows a fierceness in no way dimmed by incapacity, but he also refuses to aid his repentant son, Polyneices, in his coming attack on Thebes, manifesting once more the passion and harshness which mark his character so thoroughly. His mysterious death at the end of the play, witnessed only by Theseus himself, seems the sole fitting end for such an exceptional and problematic figure, transforming Oedipus into one of the 'powerful dead' whose beneficence towards Athens heralds a positive future for the city. This useful companion provides background, context, a synopsis and detailed analysis of the play.

The Modern Weaponry of the World's Armed Forces Col. Y Udaya Chandar (Retd.), 2017-04-24 The Modern Weaponry of the World's Armed Forces is a treatise of military weaponry. It depicts about forty present-day weapon systems possessed by various nations, describing three to four weapons of each category with images, specifications, origin, development and design briefly. The weapon systems presented are almost all from the twenty-first century or the weapons presently under development. Only a very few officers in the three services know the finer distinctions between, say, cruise missile and ballistic missile, fourth generation jet fighter and fifth generation jet fighter and howitzer and a field gun. All such nuances are explained clearly. The beginning explains the 'history of military weapons' briefly and ends with information on the missile shield erected by most countries including India. The missile shield destroys the hostile incoming aircraft or missile automatically. The missile shield presented is real, exists on the ground today and not fictitious. The militaries win the war with the help of the man who stands erect in the face of the enemy fire and the weapon that is in his hands. All the students of military science must read this invaluable book about the gun in the hands of a soldier, what exactly it is and how much it matters.
