A Bibliographical Catalogue of Italian Books Printed in England 1603–1642 Soko Tomita,Masahiko Tomita,2016-12-05 A sequel to Tomita's A Bibliographical Catalogue of Italian Books Printed in England 1558-1603, this volume provides the data for the succeeding 40 years (during the reign of King James I and Charles I) and contributes to the study of Anglo-Italian relations in literature through entries on 187 Italian books (335 editions) printed in England. The Catalogue starts with the books published immediately after the death of Queen Elizabeth I on 24 March 1603, and ends in 1642 with the closing of English theatres. It also contains 45 Elizabethan books (75 editions), which did not feature in the previous volume. Formatted along the lines of Mary Augusta Scott's Elizabethan Translations from the Italian (1916), and adopting Philip Gaskell's scientific method of bibliographical description, this volume provides reliable and comprehensive information about books and their publication, viewed in a general perspective of Anglo-Italian transactions in Jacobean and part of Caroline England.

A Modern Course on Statistical Distributions in Scientific Work Ganapati P. Patil,S. Kotz,J.K. Ord,1975-05-31 These three volumes constitute the edited Proceedings of the NATO Advanced Study Institute on Statistical Distributions in Scientific Work held at the University of Calgary from July 29 to August 10, 1974. The general

title of the volumes is Statistical Distributions in Scientific Work. The individual volumes are: Volume 1 - Models and Structures; Volume 2 - Model Building and Model Selection; and Volume 3 - Characterizations and Applications. These correspond to the three advanced seminars of the Institute devoted to the respective subject areas. The planned activities of the Institute consisted of main lectures and expositions, seminar lectures and study group discussions, tutorials and individual study. The activities included meetings of editorial committees to discuss editorial matters for these proceedings which consist of contributions that have gone through the usual refereeing process. A special session was organized to consider the potential of introducing a course on statistical distributions in scientific modeling in the curriculum of statistics and quantitative studies. This session is reported in Volume 2. The overall perspective for the Institute is provided by the Institute Director, Professor G. P. Patil, in his inaugural address which appears in Volume 1. The Linnik Memorial Inaugural Lecture given by Professor C. R. Rao for the Characterizations Seminar is included in Volume 3.
