Death or Deliverance Teresa Iacobelli,2013-08-27 Soldiers found guilty of desertion or cowardice during the Great War faced death by firing squad. Novels, histories, movies, and television series often depict courts martial as brutal and inflexible, and social memories of this system of frontline justice have inspired modern movements to seek pardons for soldiers executed on the battlefield. In this powerful and moving book, Teresa Iacobelli looks beyond stories of callous generals and quick executions to consider the trials of nearly two hundred soldiers who were sentenced to death but spared by a disciplinary system capable of thoughtful review and compassion. By bringing to light these men's experiences, Death or Deliverance reconsiders an important chapter in the history of both a war and a nation.

Climate Change and Northern Fish Populations National Research Council Canada,Canada. Department of Fisheries and Oceans,1995 These documents summarize some of the recent studies of the relationships among climate, the aquatic environment, and the dynamics of fish populations. The studies are mostly from the North Pacific ocean, but there are reports of investigations from the North Atlatic Ocean and from fresh water. Various papers include numerous examples of the relationships between fish abundance trends and the environment.
