Arbitration Under International Investment Agreements Katia Yannaca-Small, 2010 Investor-state arbitration is a relatively new dispute settlement mechanism that allows foreign investors the opportunity to seek redress for damages arising out of breaches of investment-related treaty obligations by the governments of host countries. Claims are submitted to independent, international arbitration tribunals, which are called upon to interpret the treaty at hand. Because of the public interest involved in these cases, the awards of these tribunals are subject to much scrutiny and debate. Thus, it has already generated hundreds of cases and created new legal disciplines, inspiring a continuous string of legal writings. This book provides a comprehensive analysis of the main issues that arise in investor-state arbitration. It accompanies the reader through the phases of such a procedure, starting with an examination of the instruments, which provide, in the overwhelming majority of the cases, the legal basis for the requests for such arbitration. It then continues with the launching of the arbitration procedure, followed by the analysis of the main jurisdictional and substantive issues that the tribunals are confronted with, and the review procedures, when there is a request for setting aside of the award. It finally looks at the post-award phase and concludes with a reflection on the role of precedent in investment arbitration. Arbitration under International Investment Agreements: a Guide to the Key Issues contains in one volume what everybody needs to know on this evolving topic. Calling on the most renowned experts in this field, private

practitioners, academics, government and international organization officials, it describes the process in all its phases from A to Z, providing a comprehensive insight in the way investor-state arbitration works from the perspective of the main actors involved. Its analyses of all key aspects of the topic are pragmatic and reliable.

International Arbitration in Sweden Annette Magnusson, Jakob Ragnwaldh, Martin Wallin, 2021-03-09 Sweden is one of a handful of countries where the international arbitral process has reached a stage where the jurisprudence is replete with instances involving no local parties at all. In this context of credible neutrality, the Arbitration Institute of the Stockholm Chamber of Commerce (SCC) has emerged as a leading global arbitral institution. Whether the matter at issue is a business transaction dispute or a politicized conflict involving obdurate parties, the richness of its body of decided cases manifests the SCC's authority and reliability throughout the converging world of international arbitration. The present book, written by sixteen eminent practitioners and now in its second edition, provides a practical guide to international arbitration in Sweden, whether ad hoc or institutional. Among the many elements of practice and procedure detailed are the following: appointment, challenge, removal, and compensation of arbitrators; procedural efficiency and costs; use of international legal sources such as IBA guidelines; choice of law by parties; SCC rules and procedures; multiparty arbitrations - joinder, intervention, consolidation; investment treaty arbitration; confidentiality; documentary evidence, witnesses, and experts; grounds for setting aside; party succession; Swedish court review of the arbitrator's jurisdiction; and appeal of arbitrators' compensation. In addition, readers will be exposed to a trove of pertinent references to important decisions that have, in recent decades, been generated by the stream of major international arbitrations conducted in Sweden. Disputing parties wishing to know what will happen when their case is brought to Sweden for arbitration will find no clearer or more thorough guide. This book is an incomparable source for anyone called upon to act as arbitrator or counsel, or in any other capacity, in international arbitration in Sweden.

The Engagement of Domestic Courts with International Law Eleni Methymaki, 2024-04-11 The relationship between domestic courts and international law is usually defined by the frameworks of monism and dualism. The Engagement of Domestic Courts with International Law advances and develops a new paradigm for describing, assessing, and understanding the role of domestic courts in the international legal order. Two trends are examined in parallel in this volume. The traditional dividing lines between national and international law norms and institutions have become increasingly blurred. However, the practice of domestic courts can less and less be understood by reference to a formal approach that dictates how national legal orders receive international law. The solutions that courts reach are often based on a variety of other considerations that are not captured by the classical formal models. The aim of the book is to bring together the wide variety of types of engagement, as an important step towards a better understanding of what courts do and, eventually, towards a normative exercise of articulating principles or guidelines for the engagement of domestic courts with international law. To bring together the pragmatic approaches of domestic courts, the International Law Association Study Group on Principles on the Engagement of Domestic Courts with International Law engaged in studies with experts from a variety of backgrounds. On the basis of the Study Group's Final Report, the editors of this book continued to work with experts from different jurisdictions to collect and analyse alternate pragmatic forms of engagement from domestic courts. This publication contains the outcome of this process.
