The Music of Bill Monroe Neil V. Rosenberg,Charles K. Wolfe,2024-04-22 Spanning over 1,000 separate performances, The Music of Bill Monroe presents a complete chronological list of all of Bill Monroe’s commercially released sound and visual recordings. Each chapter begins with a narrative describing Monroe’s life and career at that point, bringing in producers, sidemen, and others as they become part of the story. The narratives read like a “who’s who” of bluegrass, connecting Monroe to the music’s larger history and containing many fascinating stories. The second part of each chapter presents the discography. Information here includes the session’s place, date, time, and producer; master/matrix numbers, song/tune titles, composer credits, personnel, instruments, and vocals; and catalog/release numbers and reissue data. The only complete bio-discography of this American musical icon, The Music of Bill Monroe is the starting point for any study of Monroe’s contributions as a composer, interpreter, and performer.

Global Review of Human Settlements Gyoujin Cho,2013-10-02 Global Review of Human Settlements: A Support Paper for Habitat: United Nations Conference on Human Settlement reviews global human settlement conditions and the factors affecting their present and future developments. The report presents information, analyses, and conclusions. It analyzes the causes and effects of the urbanization process; describes the quality of life in human settlements; and presents relevant definitions, list of tables, and country composition by regions. The urbanization process pertains to demographical and economical aspects. Demographical aspects include city size, city growth, migration, and natural increase. Natural population increase accounts for about one-half of urban population while migration from rural to urban places account for the other half. One aspect of the quality of life in human settlements is the prevailing housing conditions. According to the report, housing conditions in most developing countries have become worse in the past ten years due to rapid population growth, to rates of migration from rural to urban places, and to the decline of the rate of increase in national output. The report also contains a list of criteria used nationally to distinguish urban areas from rural areas. For example, South Korea defines urban areas as Seoul or municipalities with 5,000 or more inhabitants. The report is suitable for demographers, economists, environmentalists, ecologists, and policy makers involved in rural development and social services.
