Greek Ostraca from Abu Mina (O.AbuMina) Nikos Litinas,2008-11-06 The volume contains an edition of c. 1,300 ostraca excavated in Abu Mina, Egypt, under the directorship of Peter Grossmann. Most of these ostraca comprise a partially surviving record of the pickings of grapes and of wine deliveries in the first half of the seventh century AD, before the Arab conquest in 642. Also, a small number contains some Christian texts, writings on pots or flasks, designs and writing exercises. They provide information on the community, the economical and agricultural activities, the prosopography and onomastics of this pilgrimage centre. This volume will be of interest to Greek papyrologists and to ancient historians.

The Correspondence of Reginald Pole Thomas F. Mayer,2017-09-19 Reginald Pole (1500-1558), cardinal and archbishop of Canterbury, was at the centre of reform controversies in the mid 16th century - antagonist of Henry VIII, a leader of the reform group in the Roman Church, and nearly elected pope (Julius III was elected in his stead). His voluminous correspondence - more than 2500 items, including letters to him - forms a major source for historians not only of England, but of Catholic Europe and the early Reformation as a whole. In addition to the insight they provide on political history, both secular and ecclesiastical, and on the spiritual motives of reform, they also constitute a great resource for our understanding of humanist learning and cultural patronage in the Renaissance. Hitherto there has been no comprehensive, let alone modern or accurate listing and analysis of this correspondence, in large part due to the complexity of the manuscript traditions and the difficulties of legibility. The present work makes this vast body of material accessible to the researcher, summarising each letter (and printing key texts usually in critical editions), together with necessary identification and comment. The first three volumes in this set will contain the correspondence; the fourth and fifth will provide a biographical companion to all persons mentioned, and will together constitute a major research tool in their own right. This first volume covers the crucial turning point in Pole's career: his protracted break with Henry and the substitution of papal service for royal. One major dimension of this rupture was a profound religious conversion which took Pole to the brink of one of the defining moments of the Italian Reformation, the writing of the 'Beneficio di Christo'.
