Documents on the Tokyo International Military Tribunal Neil Boister, Robert Cryer, 2008-09-25 Despite the recent growth of interest in international criminal law, in research and practice, the Tokyo International Military Tribunal remains largely neglected. One of the reasons for this is the absence of any readily available version of the judgments that emanated from the Tribunal. This absence has prevented informed debate about a hugely important part of the development of international criminal law. These volumes fill the gap in the literature by reproducing the full text of the judgment, the separate and dissenting opinions and a selection of accompanying documents, including the charter, indictment and rules of procedure. All the documents are indexed and referenced to the original pagination of the Tribunal transcript. In addition, an introductory essay by the editors explains the nature of the tribunal and the law it applied, and outlines its impact on contemporary international criminal law.
