Charles Schwab John Kador, 2002-11-22 Schwab's revolutionary approach to success in the face of adversity Since its founding in 1973, Schwab has led the full-brokerage market by stressing customer service. Today, Schwab has established itself as a company with a unique identity: old-fashioned integrity meets technology-empowered financial services. Charles Schwab tells the compelling story of this organization's uncanny ability to reinvent itself around an unchanging set of core values. This book is organized into five sections, each representing a critical juncture for the company when it was forced to reinvent itself or be consumed. Along the way, Kador highlights Schwab's immutable laws, direct from the Chairman and CEO: 1) Create a cause, not a business; 2) the corporate vision is only as good as the values of its culture; 3) welcome upheaval. In the whirlwind economic environment we currently face, Charles Schwab provides readers with valuable lessons on how businesses can survive and thrive in any situation.

The Black and Tans D. M. Leeson, 2011-08-25 This is the story of the Black and Tans and Auxiliaries, the most notorious police forces in the history of the British Isles. During the Irish War of Independence (1920-1), the British government recruited thousands of ex-soldiers to serve as constables in the Royal Irish Constabulary, the Black and Tans, while also raising a paramilitary raiding force of ex-officers - the Auxiliary Division. From the summer of 1920 to the summer of 1921, these forces became the focus of bitter controversy. As the struggle for Irish independence intensified, the police responded to ambushes and assassinations by the guerrillas with reprisals and extrajudicial killings. Prisoners and suspects were abused and shot, the homes and shops of their families and

supporters were burned, and the British government was accused of imposing a reign of terror on Ireland. Based on extensive archival research, this is the first serious study of the Black and Tans and Auxiliaries and the part they played in the Irish War of Independence. Dr Leeson examines the organization and recruitment of the British police, the social origins of police recruits, and the conditions in which they lived and worked, along with their conduct and misconduct once they joined the force, and their experiences and states of mind. For the first time, it tells the story of the Irish conflict from the police perspective, while casting new light on the British government's responsibility for reprisals, the problems of using police to combat insurgents, and the causes of atrocities in revolutionary wars.

Five Views on Law and Gospel Greg L. Bahnsen, Walter C. Kaiser, Jr., Douglas J. Moo, Wayne G. Strickland, Willem A. VanGemeren, 2010-09-21 An introduction to a complex theological issue that impacts our daily lives as believers in Christ: What is the relevance of the Old Testament Law to our understanding of the Gospel and how it should be lived? This book explores five major approaches to this important biblical topic as they've developed in Protestant circles: Non-Theonomic Reformed View – the law is the perfection of righteousness in Jesus Christ. Theonomic Reformed View – the goodness of the law is dependent on how it's used and does not offer a way to salvation. Heavily focused on Paul's discussion of the Law. Law as Gracious Guidance View – emphasizes the contrasts between the Mosaic law and the Gospel of grace, while still asserting the Law's value. Dispensational View – approaches the Law from a historical perspective to help us understand its presentation, treatment, and recipients. Modified Lutheran View – the Law of Christ as the

fulfillment of the Law of Moses. This book allows each contributor to not only present the case for his view, but also to critique and respond to the critiques of the other contributors, allowing you to compare their beliefs in an open forum setting to see where they overlap and where they differ. The Counterpoints series presents a comparison and critique of scholarly views on topics important to Christians that are both fair-minded and respectful of the biblical text. Each volume is a one-stop reference that allows readers to evaluate the different positions on a specific issue and form their own, educated opinion.

Cybersecurity Peter W. Singer, Allan Friedman, 2014-03 Dependence on computers has had a transformative effect on human society. Cybernetics is now woven into the core functions of virtually every basic institution, including our oldest ones. War is one such institution, and the digital revolution's impact on it has been profound. The American military, which has no peer, is almost completely reliant on high-tech computer systems. Given the Internet's potential for full-spectrum surveillance and information disruption, the marshaling of computer networks represents the next stage of cyberwar. Indeed, it is upon us already. The recent Stuxnet episode, in which Israel fed a malignant computer virus into Iran's nuclear facilities, is one such example. Penetration into US government computer systems by Chinese hackers-presumably sponsored by the Chinese government-is another. Together, they point to a new era in the evolution of human conflict. In *Cybersecurity and Cyberwar: What Everyone Needs to Know*, noted experts Peter W. Singer and Allan Friedman lay out how the revolution in military cybernetics occurred and explain where it is headed. They begin with an explanation of what cyberspace is before moving on to discussions of how it can be exploited and why it is so hard to defend. Throughout, they

discuss the latest developments in military and security technology. Singer and Friedman close with a discussion of how people and governments can protect themselves. In sum, *Cybersecurity and Cyberwar* is the definitive account on the subject for the educated general reader who wants to know more about the nature of war, conflict, and security in the twenty-first century.

Discourses and Selected Writings Epictetus, 2008-08-28 Contains The Discourses/Fragments/Enchiridion 'I must die. But must I die bawling?' Epictetus, a Greek Stoic and freed slave, ran a thriving philosophy school in Nicopolis in the early second century AD. His animated discussions were celebrated for their rhetorical wizardry and were written down by Arrian, his most famous pupil. The Discourses argue that happiness lies in learning to perceive exactly what is in our power to change and what is not, and in embracing our fate to live in harmony with god and nature. In this personal, practical guide to the ethics of Stoicism and moral self-improvement, Epictetus tackles questions of freedom and imprisonment, illness and fear, family, friendship and love. Translated and Edited with an Introduction by Robert Dobbin

Torn from the Nest Clorinda Matto de Turner, 1999-04-29 Clorinda Matto de Turner was the first Peruvian novelist to command an international reputation and the first to dramatize the exploitation of indigenous Latin American people. She believed the task of the novel was to be the photograph that captures the vices and virtues of a people, censuring the former with the appropriate moral lesson and paying its homage of admiration to the latter. In this tragic tale, Clorinda Matto de Turner explores the relationship between the landed gentry and the indigenous peoples of the Andean mountain communities. While unfolding as a love story rife with secrets and dashed hopes, *Torn from the Nest* in fact reveals a deep and destructive class disparity, and criticizes the Catholic clergy for blatant corruption. When Lucia and Don Fernando Marin settle in the small hamlet of Killac, the young couple become advocates for the local Indians who are being exploited and oppressed by their priest and governor and by the gentry allied with these two. Considered meddling outsiders, the couple meet violent resistance from the village leaders, who orchestrate an assault on their house and pursue devious and unfair schemes to keep the Indians subjugated. As a romance blossoms between the a member of the gentry and the peasant girl that Lucia and Don Fernando have adopted, a dreadful secret prevents their marriage and brings to a climax the novel's exposure of degradation: they share the same father--a parish priest. *Torn from the Nest* was first published in Peru in 1889 amidst much enthusiasm and outrage. This fresh translation--the first since 1904--preserves one of Peru's most distinctive and compelling voices.

Armor John Steakley, 1984-12-04 The military sci-fi classic of courage on a dangerous alien planet The planet is called Banshee. The air is unbreathable, the water is poisonous. It is home to the most implacable enemies that humanity, in all its interstellar expansion, has ever encountered. Body armor has been devised for the commando forces that are to be dropped on Banshee—the culmination of ten thousand years of the armorers' craft. A trooper in this armor is a one-man, atomic powered battle fortress. But he will have to fight a nearly endless horde of berserk, hard-shelled monsters—the fighting arm of a species which uses biological technology to design perfect, mindless war minions. Felix is a scout in A-team Two. Highly competent, he is the sole survivor of mission after mission. Yet he is a man consumed by fear and hatred. And he is protected, not only by his custom-fitted body armor, but by an odd being which seems to live within him, a cold killing machine he calls "The Engine." This is Felix's story—a story of the horror, the courage, and the aftermath of combat, and the story, too, of how strength of spirit can be the greatest armor of all.

out your afterlife with annoying versions of who you could have been. With a probing imagination and deep understanding of the human condition, acclaimed neuroscientist David Eagleman offers wonderfully imagined tales that shine a brilliant light on the here and now.
