**The U-boat hunters** James B. Connolly, 2022-11-21 The U-boat Hunters refers the readers to the times of WWI. It was written by a reporter then on assignment for Collier Magazine to cover US Naval operations opposing the German U-boat threat. The author managed to create a mixture of narrative description and firsthand tales of life in the merchant marine. It is an interesting and informative insight into the lives of marine soldiers.

*Crusade Propaganda in Word and Image in Early Modern Italy* Nirit Ben-Aryeh Debby, 2016-02 The focus of the book is a vast (6.5 meters x 3.5 meters) and recently revealed 17th century panorama of Constantinople that is an exceptional drawing of the city. The Panorama is an elaborate piece of anti-Ottoman propaganda designed by the Franciscan friar Niccolò Guidalotto da Mondavio. It was first found in the Chigi archive in Rome and is currently displayed in the Tel Aviv Museum of Art. Guidalotto also prepared a large manuscript, held in the Vatican Library, which details the Panorama's meaning and the motivation behind its creation. It depicts Istanbul as seen from across the Golden Horn in Galata, throwing new light on both the city and the relationships between the rival Venetian Republic and the Ottoman Empire. It also trumpets the unalloyed Christian zeal of Niccolò Guidalotto and serves as a fascinating example of visual crusade propaganda against the Ottomans in the 17th century. The current book examines the artistic features and the historical significance of this unique panorama. It reveals new information about its creator and contributes to the current scholarly discussion on crusade propaganda in art and literature from the 17th century. The Panorama is a source of cultural clash, a confrontation point between east and west, and it is a virtually unknown and unexplored sample of visual propaganda that was only recently discovered. The fact that the Panorama tells us that the Venetians were still calling for a Crusade at this late date is of prime historical importance in the study of European attitudes in the mid-seventeenth century. The Panorama's artistic features are a central focus of this book, which joins art history and history, viewing the Panorama as an interdisciplinary creation that incorporates a unique visual language worthy of the attention of

art historians. The book joins word and image, i.e., it explains the meaning and significance of the complex visual imagery of the Panorama via the accompanying manuscript.--

*Holy and Noble Beasts* David Salter, 2001 It argues that through their depictions of animals, medieval writers were not only able to reflect upon their own humanity, but were also able to explore the meaning of more abstract values and ideas (such as civility, sanctity and nobility) that were central to the culture of the time.--BOOK JACKET.

**Health Expectations for Older Women** Sarah B. Laditka, 2014-06-11 Explore international trends in health and longevity--with a special focus on older women! **Imagining the Medieval Afterlife** Richard Matthew Pollard, 2020-12-17 A comprehensive, innovative study of how medieval people envisioned heaven, hell, and purgatory - images and imaginings that endure today.

**A Comedian Sees the World** Charlie Chaplin, 2014-12-21 Film star Charlie Chaplin spent February 1931 through June 1932 touring Europe, during which time he wrote a travel memoir entitled "A Comedian Sees the World." This memoir was published as a set of five articles in Women's Home Companion from September 1933 to January 1934 but until now had never been published as a book in the U.S. In presenting the first edition of Chaplin's full memoir, Lisa Stein Haven provides her own introduction and notes to supplement Chaplin's writing and enhance the narrative. Haven's research revealed that "A Comedian Sees the World" may very well have been Chaplin's first published composition, and that it was definitely the beginning of his writing career. It also marked a transition into becoming more vocally political for Chaplin, as his subsequent writings and films started to take on more noticeably political stances following his European tour. During his tour, Chaplin spent time with numerous politicians, celebrities, and world leaders, ranging from Winston Churchill and Mahatma Gandhi to Albert Einstein and many others, all of whom inspired his next feature films, Modern Times (1936), The Great Dictator (1940), Monsieur Verdoux (1947), and A King in New York (1957). His excellent depiction of his experiences, coupled with Haven's added insights, makes for a brilliant account of Chaplin's travels and shows another side to the man whom most know only from his roles on the silver screen. Historians, travelers, and those with any bit of curiosity about one of America's most beloved celebrities will all want to have A Comedian Sees the World in their collections. Available only in the USA and Canada.

**The Reformation of the Image** Joseph Leo Koerner, 2004-05-03 With his 95 Theses, Martin Luther advanced the radical notion that all Christians could enjoy a direct, personal relationship with God—shattering years of Catholic tradition and obviating the need for intermediaries like priests and saints between the individual believer and God. The text of the Bible, the Word of God itself, Luther argued, revealed the only true path to salvation—not priestly ritual and saintly iconography. But if words—not iconic images—showed the way to salvation, why didn't religious imagery during the Reformation disappear along with indulgences? The answer, according to Joseph Leo Koerner, lies in the paradoxical nature of Protestant religious imagery itself, which is at once both iconic and iconoclastic. Koerner masterfully demonstrates this point not only with a multitude of Lutheran images, many never before published, but also with a close reading of a single pivotal work—Lucas Cranach the Elder's altarpiece for the City Church in Wittenberg (Luther's parish). As Koerner shows, Cranach, breaking all the conventions of traditional Catholic iconography, created an entirely new aesthetic for the new Protestant ethos. In the Crucifixion scene of the altarpiece, for instance, Christ is alone and stripped of all his usual attendants—no Virgin Mary, no John the Baptist, no Mary Magdalene—with nothing separating him from Luther (preaching the Word) and his parishioners. And while the Holy Spirit is nowhere to be seen—representation of the divine being impossible—it is nonetheless dramatically present as the force animating Christ's drapery. According to Koerner, it is this iconoclasm that animates the best Reformation art. Insightful and breathtakingly original,

The Reformation of the Image compellingly shows how visual art became indispensable to a religious movement built on words.

Beasts and Birds of the Middle Ages Willene B. Clark, Meredith T. McMunn, 2016-11-11 The medieval bestiary, or moralized book of beasts, has enjoyed immense popularity over the centuries and it continues to influence both literature and art. This collection of essays aims to demonstrate the scope and variety of bestiary studies and the ways in which the medieval bestiary can be addressed. The contributors write about the tradition of one of the bestiary's birds, Parisian production of the manuscripts, bestiary animals in a liturgical book, theological as well as secular interpretations of beasts, bestiary creatures in literature, and new perspectives on the bestiary in other genres.

*In the Skin of a Beast* Peggy McCracken, 2017-05-17 In medieval literature, when humans and animals meet—whether as friends or foes—issues of mastery and submission are often at stake. *In the Skin of a Beast* shows how the concept of sovereignty comes to the fore in such narratives, reflecting larger concerns about relations of authority and dominion at play in both human-animal and human-human interactions. Peggy McCracken discusses a range of literary texts and images from medieval France, including romances in which animal skins appear in symbolic displays of power, fictional explorations of the wolf's desire for human domestication, and tales of women and snakes converging in a representation of territorial claims and noble status. These works reveal that the qualities traditionally used to define sovereignty—lineage and gender among them—are in fact mobile and contingent. In medieval literary texts, as McCracken demonstrates, human dominion over animals is a disputed model for sovereign relations among people: it justifies exploitation even as it mandates protection and care, and it depends on reiterations of human-animal difference that paradoxically expose the tenuous nature of human exceptionalism.

**Sacred Space in Early Modern Europe** Will Coster, Andrew Spicer, 2005-07-28 In this 2005 book, leading historians examine sanctity and sacred space in Europe during and after the religious upheavals of the early modern period.

**Environmental Health Literacy** Symma Finn, Liam R. O'Fallon, 2018-09-12 This book explores various and distinct aspects of environmental health literacy (EHL) from the perspective of investigators working in this emerging field and their community partners in research. Chapters aim to distinguish EHL from health literacy and environmental health education in order to classify it as a unique field with its own purposes and outcomes. Contributions in this book represent the key aspects of communication, dissemination and implementation, and social scientific research related to environmental health sciences and the range of expertise and interest in EHL. Readers will learn about the conceptual framework and underlying philosophical tenets of EHL, and its relation to health literacy and communications research. Special attention is given to topics like dissemination and implementation of culturally relevant environmental risk messaging, and promotion of EHL through visual technologies. Authoritative entries by experts also focus on important approaches to advancing EHL through community-engaged research and by engaging teachers and students at an early age through developing innovative STEM curriculum. The significance of theater is highlighted by describing the use of an interactive theater experience as an approach that enables community residents to express themselves in non-verbal ways.
