I Am Martin Luther King, Jr. Brad Meltzer,2016-01-05 We can all be heroes. That's the inspiring message of this New York Times Bestselling picture book biography series from historian and author Brad Meltzer. Even as a child, Martin Luther King, Jr. was shocked by the terrible and unfair way African-American people were treated. When he grew up, he decided to do something about it--peacefully, with powerful words. He helped gather people together for nonviolent protests and marches, and he always spoke up about loving other human beings and doing what's right. He spoke about the dream of a kinder future, and bravely led the way toward racial equality in America. This lively, New York Times Bestselling biography series inspires kids to dream big, one great role model at a time. You'll want to collect each book.

Unrevolutionary England, 1603-1642 Conrad Russell,1990-07-01 What holds these essays together is the rejection of the idea of 'the birth of the modern world'. England before the Civil War was not a country welcoming a brave new world but one clinging fearfully to an old one. Change, where it happened, was not the result of a deliberate striving for 'progress', and the polity of pre-Civil War England was not on the point of collapse. Parliaments were not dominated by two 'sides' in training for a Cup Final at Naseby, but were groups of people struggling with limited success to reach agreement.

The Spanish Match Alexander Samson,2017-05-15 In the spring of 1623 Charles, Prince of Wales, the young heir to the English and Scottish thrones donned a false wig and beard and slipped out of England under the assumed name of John Smith in order to journey to Madrid and secure for himself the hand of the King of Spain's daughter. His father James I and VI had been toying with the idea of a Spanish match for his son since as early as 1605, despite the profoundly divisive ramifications such a policy would have in the face of the determined 'Puritan' opposition in parliament, committed to combatting the forces of international Catholicism at every opportunity. With the Spanish ambassador, the machiavellian Count of Gondomar's encouragement to 'mount' Spain, Charles impetuously took matters into his own hands and as the negotiations stalled he departed secretly in the guise of Mr Smith to win with his romantic and foolhardy daring what his father could not achieve through diplomacy. The eventual failure and public humiliation that followed his journey to Madrid has been cited as a major influence on Charles's subsequent development and policies as king. Until now, there has been no attempt to systematically explore the failure of the Spanish match from an interdisciplinary perspective, including what it reveals about the practice of diplomacy, the taste, art, and dress of the period, its literature and the long-term consequences for Anglo-Spanish relations. In this volume leading scholars from a variety of disciplines analyse the reactions and representations of Charles's romantic escapade and offer their insights into the affair. In doing so many traditional assumptions about the trip are overturned. By taking into account the political, social, religious and international dimensions of the event, and examining historical, literary and artistic evidence, this volume paints a rounded, lively and vivid portrait of one of the most remarkable episodes of the Jacobean age.

The Encyclopædia Britannica: Poll-Reeves Hugh Chisholm,1911

The Encyclopaedia Britannica: Poll-Reeves ,1911 The last great work of the age of reason, the final instance when all human knowledge could be presented with a single point of view ... Unabashed optimism, and unabashed racism, pervades many entries in the 11th, and provide its defining characteristics ... Despite its occasional ugliness, the reputation of the 11th persists today because of the staggering depth of knowledge contained with its volumes. It is especially strong in its biographical entries. These delve deeply into the history of men and women prominent in their eras who have since been largely forgotten - except by the historians, scholars-- The Guardian, <https://www.theguardian.com/books/booksblog/2012/apr/10/encyclopedia-britannica-11th-edition>.
