Rebecca Bryan

Edible Schoolyard Alice Waters,2008-12-17 Offers a look at an organic garden on school grounds, which are tended and harvested by students and the benefits that arise from it.

The Complete Idiot's Guide to Linux Manuel Alberto Ricart,2000 Complete Idiot's Guide To Linux, Second Edition, covers: Preparing to install the system, Using shells and online documentation, The X Windows graphical interface, Networking and Internet, Administration, Configuring Linux for multimedia , and A guide to available software and tools. If you have been wanting to get started using Linux, but are not sure how to go about it or have not made deep inroads into your installed system, you'll benefit most from this book. In addition, the step-by-step guide to standard Linux tasks will satisfy your need to utilize the system's capabilities, especially its Internet functions.

Learning Scrapy Dimitris Kouzis - Loukas,2016-01-29 Learn the art of efficient web scraping and crawling with PythonAbout This Book• Extract data from any source to perform real time analytics.• Full of techniques and examples to help you crawl websites and extract data within hours.• A hands-on guide to web scraping and crawling with real-life problems and solutionsWho

This Book Is For If you are a software developer, data scientist, NLP or machine-learning enthusiast or just need to migrate your company's wiki from a legacy platform, then this book is for you. It is perfect for someone , who needs instant access to large amounts of semi-structured data effortlessly.

What You Will Learn•

- Understand HTML pages and write XPath to extract the data you need
- Write Scrapy spiders with simple Python and do web crawls
- Push your data into any database, search engine or analytics system
- Configure your spider to download files, images and use proxies
- Create efficient pipelines that shape data in precisely the form you want
- Use Twisted Asynchronous API to process hundreds of items concurrently
- Make your crawler super-fast by learning how to tune Scrapy's performance
- Perform large scale distributed crawls with scrapyd and scrapinghub

In Detail This book covers the long awaited Scrapy v 1.0 that empowers you to extract useful data from virtually any source with very little effort. It starts off by explaining the fundamentals of Scrapy framework, followed by a thorough description of how to extract data from any source, clean it up, shape it as per your requirement using Python and 3rd party APIs. Next you will be familiarised with the process of storing the scrapped data in databases as well as search

engines and performing real time analytics on them with Spark Streaming. By the end of this book, you will perfect the art of scraping data for your applications with ease. The book is a hands on guide, with first few chapters written as a tutorial, aiming to motivate you and get you started quickly. As the book progresses, more advanced features are explained with real world examples that can be referred while developing your own web applications.

Digital Crime and Forensic Science in Cyberspace Panagiotis Kanellis, Evangelos Kiountouzis, Nicholas Kolokotronis, 2006-01-01
Digital forensics is the science of collecting the evidence that can be used in a court of law to prosecute the individuals who engage in electronic crime--Provided by publisher.

Rare or Threatened Australian Plants JD Briggs, JH Leigh, 1996-01-01
The Rare or Threatened Australian Plants (ROTAP) list and associated coding system was developed and has been maintained by CSIRO since 1979, and lists taxa that are Presumed Extinct, Endangered, Vulnerable, Rare or Poorly Known at the national level. This edition provides the most up-to-date list for conservation purposes. A significant number of endangered and Vulnerable taxa are included, which have not yet been considered

for inclusion on either the Australian and New Zealand Environment and Conservation Council list or the Commonwealth's Schedule 1. This is the first ROTAP publication to include subspecies and varieties, and the list now includes 5031 taxa. There have also been at least 3270 amendments to data for listed taxa. A total of 2012 additional records of regional data for taxa already listed has been included. A key factor in the development of public opinion, and the design of effective management schemes, lies in the production of accurate data to tell the story. What is threatened? Where is it found? These are two of the most fundamental questions to answer before any strategic plans can be drawn up. Obtaining such apparently simple statistics is a huge task. Rare or Threatened Australian Plants is therefore an important reference for the national status of threatened species, particularly for Rare and Poorly Known species.

Emotionally Intelligent Leadership for Students Marcy Levy Shankman, Scott J. Allen, Rosanna Miguel, 2015-01-07 The only instrument that measures behaviors associated with emotionally intelligent leadership The Emotionally Intelligent Leadership for Students: Inventory is an evidence-based assessment of the capacities of emotionally intelligent leadership (EIL). Research that

spans the globe has demonstrated that there is a relationship between emotional intelligence and leadership. For the second edition, the authors have conducted original studies, yielding a substantial revision that better reflects the world of emotionally intelligent leadership and will be transformative for students of all backgrounds. First, this 57-item assessment measures how often students engage in behaviors that align with emotionally intelligent leadership. Then, the reflection portion walks students through the process of analyzing and understanding their results, giving them concrete suggestions for how to explore and improve their emotionally intelligent leadership. The inventory reflects 19 EIL capacities supported by recent studies. A section on guided interpretation allows students to determine next steps to help them prepare to become effective leaders. Guidance for reflection and analysis of the results introduces learning opportunities that align with unique learning styles. Use the inventory along with *Emotionally Intelligent Leadership: A Guide for Students and its Student Workbook* for an immersive and transformative educational experience. Students will appreciate the opportunity to learn more about themselves as they reflect on their experiences as learners and their own leadership journeys.

Tula Pink's City Sampler Tula Pink,2013-04-17 Create a sampler quilt as unique as you are! Tula Pink gives you an inspiring quilt block collection with Tula Pink's City Sampler. Make a beautiful, modern quilt of your own design with the 100 original quilt blocks or try one of the 5 city-themed sampler quilts designed by Tula. A note from Tula: You will notice...that the blocks are not named but simply numbered. This is intentional. I may have designed the blocks and given you the instructions on what to cut and where to stitch, but I have not infused the blocks with any meaning. This is your quilt. The fabrics that you choose, the colors that you use and why you are making it are what will give the quilt a purpose. Name your blocks, write in the margins, cross out the ones that you don't like, draw hearts around the ones that you love. In a perfect world, everyone's book would end up looking like a journal, coffee stains and all. The more adventurous ones might rename the book and write their own introduction. Tula Pink's City Sampler is a collaboration between you and me. I am the platform and you are the speaker, so stand on my shoulders and tell the future who you are and why you make.

Create Your Own Improv Quilts Rayna Gillman,2017-11-01 A natural follow-up to the best-selling Create Your Own Free-Form

Quilts, this book applies Rayna's no rules, no mistakes, no worries style to modern quilting. Starting with strips and geometric shapes, you'll cut and sew without patterns, required yardage, or complicated diagrams. This freeing method lets you create modern quilts organically as you follow your instincts, ask what if...?, and experiment with scale, color, value, and placement.

Modern Triangle Quilts Rebecca Bryan, 2017-01-01 Ready to take the triangle challenge? Choose from 70 pieced modern triangle blocks and 11 exquisite quilts that wow! Fourth-generation quilter Rebecca Bryan is back—this time with beautiful 3-sided blocks sewn from pieced stripes, chevrons, curves, and more. A dedicated graphic design chapter will help you choose a winning color palette, play up unexpected elements, and achieve balance and symmetry. Grab your favorite ruler and the full-size block templates to create equilateral, isosceles, and right triangles with ease. With no tricky seams, these sampler blocks are perfect to mix and match.

Respect, Plurality, and Prejudice Lene Auestad, 2018-05-15 This book helps us understand the current resurgence of social prejudice against ethnic minority groups, the logics of scapegoating and the resulting violence. Our time is characterised by a growth in

expressed hostility and violence towards people who are perceived as 'others'. Hatred towards and discrimination against minorities is on the rise. This book presents a new understanding of prejudice, racism, antisemitism, xenophobia, islamophobia, sexism and homophobia. It combines philosophy with psychoanalytic thinking, sociology and psycho-social studies, analysing the unconscious elements of social processes. The author makes a case for framing a questioning of prejudice, not in terms of normality versus pathology or deviance, but in what is socially unconscious. Hypocrisy and double standards are inherent in our social practices, reflecting the contradictions present in our thinking about these issues: that we both believe and do not believe in equality.

Mapping between X.400 (1988)/ISO 10021 and RFC 822

Steve Hardcastle-Kille, 1992 Describes a set of mappings which will enable interworking between systems operating the CCITT X.400 (1988) Recommendations on Message Handling Systems / ISO IEC 10021 Message Oriented Text Interchange Systems (MOTIS) [CCITT/ISO88a], and systems using the RFC 822 mail protocol [Crocker82a] or protocols derived from RFC 822. Aims to maximize the services offered across the boundary, whilst not requiring unduly complex mappings. Specifies a mapping between two

protocols.

Accidental Landscapes Karen Eckmeier,Quilted Lizard,
The,2008-02

Improv Paper Piecing Amy Friend,2017-03-27 Paper piecing blocks means they stand alone, mixed with other stand-alone style blocks in a quilt. Rarely are paper pieced designs repeated with other blocks to create a distinctly modern, secondary pattern that appears to be unrestrained. But Amy's paper-pieced patterns and 9 quilt designs combine both the precision of paper piecing and a spontaneous appeal. Design opportunities are opened through the repetition of paper-pieced blocks. This creates irresistible, modern quilts with precise--yet improvisational--flavor. Amy's patterns easily appeal to both the modern and the new traditional quilt maker alike.

Transitions to parenthood in Europe Ann Nilsen,Julia Brannen,Suzan Lewis,2013 Transitions to Parenthood in Europe analyzes and compares the biographies of mothers and fathers in seven European countries. Focusing on how working people negotiate the transition into parenthood—and the work-life balances it requires—the contributors provide an in-depth understanding of

working parents' real lives within a diverse set of national, workplace, and family contexts. With rich insights into how institutional policy and practices affect individuals and families, it highlights pertinent and sometimes challenging issues regarding the sustainability of contemporary lifestyles as people try to create a healthy, supportive home.
