Angels, Vampires & Douche Bags Carla Collins,2018-10-09 In this candid confessional, comedian Carla Collins divides the world into the angels who guide us, inspire us, and save our butts; the sexy and trendy vampires who suck the life out of us; and the douche bags who constantly annoy, disgust, and taunt us. With a fast wit, fake breasts and real heart, Collins shares her unconventional journey from a small steel town in Ontario, Canada, to Tinseltown, L.A. On this wild and revealing romp, she navigates her way through 72 imaginary friends, multiple fiancés, eight dogs, two marriages, and one topless grandmother. Her hard-earned life lessons will show you that by taking risks, embracing humiliation and tapping into the power of laughter, anything is possible—and everyone is manageable. Attract more angels into your life, control your vampires, and keep all the douche bags at bay. Angels, Vampires and Douche Bags is original, edgy, uplifting and laugh-out-loud funny.

How to Pass OSCP Series: Windows Privilege Escalation Step-By-Step Guide Alan Wang,2020-11-13 This book is the first of a series of How To Pass OSCP books and focus on techniques used in Windows Privilege Escalation. This is a step-by-step guide that walks you through the whole process of how to escalate privilege in Windows environment using many common techniques. We start by gathering as much information about the target as possible either manually or using automated scripts. Next, we search for misconfigured services or scheduled tasks, insufficient file permission on binaries or services, vulnerable kernel, vulnerable software running with high privileges, sensitive information stored on local files, credential saved in the memory, registry settings that always elevate privileges before executing a binary, hard-coded credential contained in the application configuration files, and many more. Lethbridge Belinda Crowson,Bobbie Fox,Lorien Johansen,Geroge Kuhl,2021-09-14 The Lethbridge Historical Society launched the Facebook Group that bears its name in 2011. The intent was to preserve, promote and share the colourful history of Southwest Alberta and Lethbridge in particular. Today the group has more than 16,000 members and is a tribute to the city's colourful past. The members of the Lethbridge Historical Society have put together the definitive photographic account of this unique city. With more than 130 photographs, many of them seen here for the first time, Lethbridge: A History in Pictures offers a stunning portrait of this one-of-a-kind Alberta city and the country around it. Lethbridge: A History in Pictures offers us a window into the past, showing life as it was then, and stirring in us the emotions of wonder and curiosity about those who have gone before us and the lives they lived.

The Rise and Fall of Emilio Picariello Adriana Davies,2016-02-15 A look at the life and eventual conviction for murder of Italian Canadian businessman and bootlegger Emilio Picariello.

The U-boat hunters James B. Connolly,2022-11-21 The U-boat Hunters refers the readers to the times of WWI. It was written by a reporter then on assignment for Collier Magazine to cover US Naval operations opposing the German U-boat threat. The author managed to create a mixture of narrative description and firsthand tales of life in the merchant marine. It is an interesting and informative insight into the lives of marine soldiers.

Health Expectations for Older Women Sarah B. Laditka,2014-06-11 Explore international trends in health and longevity--with a special focus on older women! This essential book examines the latest research on life expectancy and “active life expectancy”--the number of years that women can expect to live free from major disability--in developed and developing countries around the world. It also explores the policy implications of the contributors’ findings. Here you'll find a global study using data from the World Health Organization, a European study using data from OECD countries, and studies of women in the United Kingdom, Fiji, The Netherlands, Japan, Canada, and the United States. With contributions from demographers, economists, epidemiologists, gerontologists, medical statisticians, policy analysts, physicians, public health directors, and sociologists, International Perspectives on Health Expectancies for Older Women compares mortality and morbidity trends in various populations. In addition to reviewing the current literature on active life expectancy, this informative book looks at: the distribution of total, unimpaired, and impaired life for several groups of older women defined by race, education, and marital history gender differences in health profiles in The Netherlands gender differences in life with and without six major diseases, including both morbid and mortal conditions in the United States how mortality and morbidity patterns differ for Canadian women and men 45 years of age and older, focusing on risk factors and chronic conditions such as low income, low education, abnormal body mass index, lack of physical activity, smoking, cancer, diabetes, and arthritis patterns of healthy life expectancy for older women around the globe a comparison of the development and progression of physical disability in Japanese men and women and more!

Loving and Hating Mathematics Reuben Hersh,Vera John-Steiner,2010-12-13 Mathematics is often thought of as the coldest expression of pure reason. But few subjects provoke hotter emotions--and inspire more love and hatred--than mathematics. And although math is frequently idealized as floating above the messiness of human life, its story is nothing if not human; often, it is all too human. *Loving and Hating Mathematics* is about the hidden human, emotional, and social forces that shape mathematics and affect the experiences of students and mathematicians. Written in a lively, accessible style, and filled with gripping stories and anecdotes, *Loving and Hating Mathematics* brings home the intense pleasures and pains of mathematical life. These stories challenge many myths, including the notions that mathematics is a solitary pursuit and a young man's game, the belief that mathematicians are emotionally different from other people, and even the idea that to be a great mathematician it helps to be a little bit crazy. Reuben Hersh and Vera John-Steiner tell stories of lives in math from their very beginnings through old age, including accounts of teaching and mentoring, friendships and rivalries, love affairs and marriages, and the experiences of women and minorities in a field that has traditionally been unfriendly to both. Included here are also stories of people for whom mathematics has been an immense solace during times of crisis, war, and even imprisonment--as well as of those rare individuals driven to insanity and even murder by an obsession with math. This is a book for anyone who wants to understand why the most rational of human endeavors is at the same time one of the most emotional.

The Secret of Snow Nickelodeon (Firm),Alison Inches,2007-11 The adventures begin in the backyard - with the Backyardigans! Come and meet Uniqua, Pablo, Tasha, Tyrone and Austin - five lovable, adventurous friends. The Backyardigans is the brilliant new pre-school property from Nickelodeon focusing on imaginative play. Each 3D CGI-animated episode of The Backyardigans is a journey into the kind of fantasy play that is prevalent with every child, encouraging them to sing and dance along and go wherever their imagination takes them.

The Rise of the Joyful Economy Michael Hutter,2015-03-24 This book argues for the increasing importance of the arts as a major resource in fuelling growth through the experiential dimension of today’s economy. As we move from the knowledge economy to a new stage called the joyful economy, consumers shift their spending from physical objects and technical know-how to experiences of joy and disappointment. This book investigates how artistic ideas are translated into successful commercial production, and how economic growth impacts artistic invention. It examines cases of successful innovation in the creative industries ranging from the Italian Renaissance to the present. The book suggests a framework where social players move in diverse worlds of value, which leads to a stream of controversies and manias that result in the establishment of new joy products. Studies include the effect of linear perspective, as pioneered by Filippo Brunelleschi, the discovery of taste as an argument for consumption, the serial production of Pop Art and the self-

commercialization of contemporary works by artists like Takashi Murakami . This theoretical and empirical study brings together the fields of cultural economics, economic sociology, management studies and cultural history. In doing so, it offers a fascinating study of how creativity has shaped and fuelled commerce.

Environmental Health Literacy Symma Finn,Liam R. O'Fallon,2018-09-12 This book explores various and distinct aspects of environmental health literacy (EHL) from the perspective of investigators working in this emerging field and their community partners in research. Chapters aim to distinguish EHL from health literacy and environmental health education in order to classify it as a unique field with its own purposes and outcomes. Contributions in this book represent the key aspects of communication, dissemination and implementation, and social scientific research related to environmental health sciences and the range of expertise and interest in EHL. Readers will learn about the conceptual framework and underlying philosophical tenets of EHL, and its relation to health literacy and communications research. Special attention is given to topics like dissemination and implementation of culturally relevant environmental risk messaging, and promotion of EHL through visual technologies. Authoritative entries by experts also focus on important approaches to advancing EHL through community-engaged research and by engaging teachers and students at an early age through developing innovative STEM curriculum. The significance of theater is highlighted by describing the use of an interactive theater experience as an approach that enables community residents to express themselves in non-verbal ways.

The Best of Time, Rolex Wristwatches James M. Dowling,Jeffrey P. Hess,2001 The name Rolex is recognized around the world. As an icon of beauty, quality, accuracy, style, and taste. While there are other fine manufacturers of timepieces, none has reached this pinnacle of public respect and acclaim. The watches produced by Rolex over the last 90 years are celebrated in this lavishly illustrated classic, now in an expanded second edition. Dowling and Hess, both acknowledged Rolex authorities, have captured the watches' beauty in color photography and present the most thorough and extensive history written of the company. Information for collectors and newly revised market values of the watches make this a truly useful volume, one that will be cherished by watch lovers around the world.
