The Zuma Administration Kwandiwe Kondlo, Mashupye Herbet Maserumule, 2010 This book examines the challenges accompanying the transformation of the political economy and society of South Africa since 1994 - which now present challenges and prospects for the new administration that took office in May 2009 under the leadership of Jacob Zuma. The book provides interpretation, critique and fresh perspectives on political and administration dynamics since the birth of democracy in 1994, to the era of the Mbeki administration (1999-2008), and then to the transition to the Zuma administration. That transition was led by the now deputy president, Kgalema Motlanthe, who provided 'stop-gap' presidency from September 2008 until the new president, Zuma, was sworn into office in May 2009.

**Public Service Improvement** Rachel E. Ashworth, George A. Boyne, Tom

Entwistle, 2010-04-29 The performance of the public services, from education and policing to health and recycling, is a matter of concern in many countries. Issues of public service efficiency, cost, and effectiveness have moved to the forefront of political debate. This book applies the latest thinking from Management and Organization Studies to the performance of public organizations in order to evaluate the merits of different mechanisms for driving improvement in the public sector. Research in Management and Organization Studies on the private sector has identified a number of 'drivers' of improved performance, including innovation, organizational culture, leadership, and strategic planning. Many of these 'private sector' characteristics have emerged within public sector organisations in recent years. However, public managers face additional pressures, whether from regulators, constrained resources, or political interference. This book takes each of these drivers in turn and assesses whether they lead to improvement in public services. Written for students and researchers of Public Management, this book will also be of interest to public managers and consultants.

**Public Service and Democracy** Louis C. Gawthrop, 1998 In this provocative and timely new work, the winner of the APSA's 1998 John Gaus Award for lifetime achievement in political science and public administration argues eloquently for recognition of the ethical-moral values that pervade democracy. He focuses on the linkage of these values with the current vogue for reinventing government and purifying public service.
