

News1360 How Personalize Your Start Screen Desktop.jpg

Brendan Kilpatrick, Manisha Patel

Sentenced to Twenty Years Prison Political Prisoners Defense and Relief Committee,1919 An account of the trial of Jacob Abrams, Samuel Lipman, Hyman Lachowsky and Mollie Stimer in the U.S. District Court for the Southern District of New York, for distributing circulars opposing allied intervention in Russia.

Estate Regeneration Brendan Kilpatrick, Manisha Patel, 2020 One hundred years ago, the Addison Act created the circumstances for the large scale construction of municipal housing in the UK. This would lead to the most prolific phases of housing estate building the country has ever seen. The legacy of this historic period has been tackled for the last twenty-five years as these estates began to suffer from misguided allocation policies, systemic building and fabric failure and financial austerity. A series of estate regeneration programmes sought to rectify the mistakes of the past. Estate Regeneration describes 24 of these regeneration schemes from across the UK and the design philosophy and resident engagement which formed each new community. A number of essays from a wide range of industry experts amplify the learning experience from some key estate regeneration initiatives and provide observations on the broader issues of this sector of the housing market. Regeneration is inevitable; it is a matter of the form which regeneration should take. The information presented here is a guide to an intuitive approach to estate regeneration which commences with the derivation of strong urban design principles and is guided by real community engagement. The experience presented seeks to learn from the mistakes of the past to create the best possible platform for regeneration of the housing estates of the future.

EnerPHit James Traynor, 2020-02-05 In order to meet UK Carbon reduction commitments for 2020 and 2050 building owners will be required to upgrade their buildings to meet an increasingly

stringent set of energy performance requirements. In the absence of any clear advice from UK Government on how this can be achieved, the EnerPHit standard offers a very clear methodology. This is a practical guide that gives architects the tools to retrofit buildings to the highest EnerPHit standard. It equips the reader with the key information on EnerPHit (as the most effective benchmark for performance), the practical know-how and tips to ensure effective retrofit throughout all Plan of Work stages of a project to the EnerPHit standard. Backed with real-life case studies, it enables you to understand how to achieve successful outcomes tailored to suit available budgets and programmes.
