British-Indian Adult Children of Divorce Dr Chaitali Das,2013-01-28 Divorce has become a form of family change in contemporary western societies, spawning much research to investigate its causes and consequences. Such research has promoted a sociological understanding of divorce, impact on families and individuals as well as implications for public policy. However, research in this domain has been largely restricted to white populations in western contexts as well as adhering to quantitative research methodologies. There is little understanding of the dynamics of minority ethnic families, sometimes resulting in false assumptions and over-generalizations about family structures, stability and transitions in these communities. The impact of this gap in knowledge leads to perspective blocks in terms of how minority ethnic families are conceived in the public sphere as well as in academia. Similar to other minority ethnic groups, there is little literature on divorce in South-Asian families. Though traditionally divorce rates within South-Asian communities were low, there is now an upward trend. This is the first book to analyze the experiences of British-Indian adult children of divorce and contextualize their experiences within the larger multi-cultural polity of the UK. It also discusses the value and implications of understanding the divorce phenomenon and how it is experienced within this community to present insights into what multi-cultural social work and knowledge can mean. This can also enhance support provision for all children and enable better coping of family transitions by acknowledging their specific contexts and needs.

**The Northern Front** Charles Glass,2013-06-01 This is the Iraq war as it really started, amid lies, confusion and profound distrust between the United States and its Iraqi allies. Charles Glass, who first covered the Kurds in 1974 and was in Iraq for their failed rebellion in 1991, depicts the tense epoch that sowed the seeds of America's inevitable failure there. The Northern Front is the dramatic eyewitness account of the machinations of Iraqi leaders - Ahmad Chalabi, Abdel Aziz Hakim, Massoud Barzani and Jalal

Talabani - to control the country before their opponents seized the initiative. Glass recounts what went wrong when the US, with Britain in tow, imposed its will on a people unlikely to accept foreign designs for their future. He indicts international media conglomerates that failed to tell the truth when public debate could have prevented the deaths and destruction that came with war. 'Witty and absorbing ... Essential, and humbling, reading for all those pundits and commentators who think they understand what happened in Iraq.' Malise Ruthven, author of *A History of the Arab Peoples* 'A vivid picture of the events leading up to the war and the chaos of the war itself.' Ian Gilmour 'Should be mandatory reading for all wannabe foreign correspondents.' Jonathan Randal 'A beautifully written account of the full sweep of the war and of what it was like to report on it. A starting-point for any proper understanding of the whole contentious business of the Iraq war.' John Simpson 'In the finest tradition of radical reporting - anti-war, sympathetic, compassionate and enlightening.' Phillip Knightley, author of *The First Casualty*

**Chasing Masculinity** Alicia M. Walker, 2020-10-17 This book analyzes men's experiences and perceptions regarding their participation in infidelity and offers a glimpse into the inner workings of their most intimate relationships, as well as the ways men negotiate marriages that fall short of their expectations. Using a sample collected from the online dating service Ashley Madison, this

book finds that contrary to gendered social scripts, the men in this study described motivations for outside partnerships that were not rooted in the desire for sexual pleasure or variety. Rather, men described those relationships as an outlet to soothe their bruised egos, receive attention and validation from a romantic partner, and to fight their feelings of emasculation. These infidelities thus provide support and praise, and aid in the processing of complex emotions. This in-depth analysis provides a unique insight into men's experiences of sexuality and masculinity, and will be of keen interest to those seeking to understand male infidelity from a sociological perspective, across gender studies, psychology, counselling, and beyond.

**The Black Mirror and Other Stories** Franz Rottensteiner, 2008-12-31 Handsomely equipped with a comprehensive introductory historical essay, editor's notes and selected bibliography, this distinguished anthology is a model of genre research. These previously untranslated stories, published from 1871 onward, offer reading virtually unknown to most American (and many German) readers. Some authors combine scientific and philosophical issues, like Kurd Lasswitz in his witty tale *To the Absolute Zero of Existence: A Story from 2371*, while others, as in Erik Simon's 1983 title story, pose psychological puzzles involving alien phenomena. Though the earlier stories in particular demand painstaking reading, all of them repay it with rewarding insights into German and Austrian culture and the many possible uses and misuses of science.

**Detroit's Holy Family Church** Bonnie Leone, 2008-04-14 A treasury of photos and stories celebrating this historic landmark and Detroit's Italian-American community. The traditions of the Sicilians and Italians have been a part of Detroit since the early 1900s, and Holy Family Church represents the very root of this community's soul, maintaining the culture and the rituals their ancestors brought with them to America over a century ago. Some of these customs date back hundreds of years in their homelands of Cinisi, Terrasini, Trapani, and many other cities. Bonnie Leone was born, raised, and still resides in Detroit. Originally appointed by Gov. John Engler to the position of Wayne County jury commissioner, Leone is a member of several genealogical societies, tracing some of her ancestors as far back as the 1500s. Her strong sense of history, art, and tradition brought her to this church, so that she may help to preserve and protect the traditions of the Sicilians in Detroit—and in this richly illustrated book, she shares its story.
