Real-Time Risk Irene Aldridge,Steven Krawciw,2017-02-28 Risk management solutions for today's high-speed investing environment Real-Time Risk is the first book to show regular, institutional, and quantitative investors how to navigate intraday threats and stay on-course. The FinTech revolution has brought massive changes to the way investing is done. Trading happens in microsecond time frames, and while risks are emerging faster and in greater volume than ever before, traditional risk management approaches are too slow to be relevant. This book describes market microstructure and modern risks, and presents a new way of thinking about risk management in today's high-speed world. Accessible, straightforward explanations shed light on little-understood topics, and expert guidance helps investors protect themselves from new threats. The discussion dissects FinTech innovation to highlight the ongoing disruption, and to establish a toolkit of approaches for analyzing flash crashes, aggressive high frequency trading, and other specific aspects of the market. Today's investors face an environment in which computers and infrastructure merge, regulations allow dozens of exchanges to coexist, and globalized business facilitates round-the-clock deals. This book shows you how to navigate today's investing environment safely and profitably, with the latest in risk-management thinking. Discover risk management that works within micro-second trading Understand the nature and impact of real-time risk, and how to protect yourself Learn why flash crashes happen, and how to mitigate damage in advance Examine the FinTech disruption to established business models and practices When technology collided with investing, the boom created stratospheric amounts of data that allows us to plumb untapped depths and discover solutions that were unimaginable 20 years ago. Real-Time Risk describes these solutions, and provides practical guidance for today's savvy investor.

The Old Testament in the Layman's Language Leroy Stout,2024-02-13 Roy presents information that allows the reader to retain what is read. For example, the major prophets can be remembered using the term JEDI from the Star Wars movie, J -Jeremiah, E – Ezekiel, D – Daniel, I – Isaiah. Roy reveals some of God's humor. 1 Kings 11:29-31. Jereboam meets the prophet Ahiah, who demonstrates that Jereboam will rule 10 Of the 12 tribes of Israel by cutting Jereboam's "new garment" into 12 pieces and giving Jereboam 10. There he stands in his diaper holding 10 rags. Try explaining that to a stranger. The Bible does tell of more serious moments such as 2 Kings 15. During the captivity, All 18 kings of the northern kingdom were bad. The last five kings became kings by murdering their predecessor, We could say the KKK existed i.e, Kings Killing Kings. Some critical information is not obvious. Who is "us" in Genesis 1:26? I And God said let us make man in our image.... Us is the trinity, God, Jesus, The Holy Spirit. They are mentioned in the first chapter of the bible. Roy brings to life the actions of biblical characters in an easy to understand manner that helps to understand scripture. Lets consider the Noah flood. The flood occurred 10 generations after Adam. The average age before the flood was 858 and after the flood it was 317. In order to compare this to today, we divide each side by 10 and get 86 and 32 ie, people died at 32 instead of the normal 86, Why? Solar radiation. We sent wasp larvae into space and proved this theory. The "windows of heaven" were the cooling clouds of a new planet. It had not rained since God created earth Gen 2:5. Water came from two directions, rain and flooding ie, Genesis 7:11. Roy also covers the activities between the Old and New testaments including Persia, Greece, Macabeans and Rome.
