The European Arrest Warrant and EU Citizenship Joske Graat, 2022-09-09 This book offers an in-depth analysis of the relationship between EU citizenship, the European arrest warrant (EAW), and the legality principle. It focuses on the role of the EAW in relation to two foreseeability problems with which EU citizens – especially those who exercise free movement rights – could be confronted. These problems concern the foreseeability of specific national criminal laws at the time of the offense on the one hand and forum decisions on the other. The first part of the book addresses the extent to which these foreseeability problems and the role of the EAW therein are viewed as legality problems at the EU level and in three national legal orders (the Netherlands, Germany, and England and Wales). In turn, the second part of the book critically examines the current scope and content of the legality principle in light of the EU's objective to offer its citizens an Area of Freedom, Security and Justice (AFSJ) in which both safety and free movement are guaranteed. As EU citizens often encounter foreseeability problems when exercising their free movement rights, it is argued that they should be protected by a transnational framework of fundamental rights. The book subsequently makes recommendations for a transnational interpretation of the legality principle, one which fits the normative context of the AFSJ as described in Article 3(2) TEU. On the basis of the evolution of EU citizenship over time, the book also develops two EU citizenship narratives

and explains how they could contribute to transnational fundamental rights protection and a solution to foreseeability problems. With regard to arriving at concrete solutions, the book offers recommendations for EU legislation that could adequately remedy foreseeability problems and the role of the EAW therein.

Human Rights in Criminal Law Ben Douglas-Jones KC, Daniel Bunting, Paul Mason, Benjamin Newton, 2023-02-16 The law of human rights permeates every area of law. This title focuses on the impact of human rights law at every stage of the criminal process. It addresses the principal human rights issues that apply during an investigation and prior to a suspect knowing that they are a suspect, powers of arrest and search, and treatment at the police station. It considers every stage of the criminal process, including appeal before the domestic courts and the European Court of Human Rights. Part 1 covers the fundamental principles of the European Convention on Human Rights and the Human Rights Act 1998 and their application in domestic law, particularly in relation to criminal appeals, as well as taking a case to the European Court of Human Rights. Parts 2 to 4 address the three broad phases of a criminal case – investigation, pre-trial and trial – providing an analysis of human rights law as it applies in each phase. This book offers a comprehensive analysis of the often complex interactions between criminal law and human rights; with a wide range of experienced contributors drawn from the legal profession and academia, under the general editorship of Ben Douglas-Jones KC, Daniel Bunting, Paul Mason and Benjamin Newton.

The Anatomy of Administrative Law Joanna Bell, 2020-05-28 This book seeks to further our understanding of the nature of administrative law doctrine and adjudication. It has three main aims. The first is to improve understanding

of administrative law's 'anatomy' by pulling the subject apart and exploring the nature of the legal structures at play in adjudication. In doing so, the book emphasises three main ways in which administrative law's anatomy is both complex and diverse, namely: - administrative law doctrine interacts with a broad array of legislative frameworks; - administrative law adjudication seeks to accommodate a variety of legal values; and, - administrative law is concerned with legal relationships of different kinds. The second aim is to illustrate the importance of recognising the complexity and variety of administrative law's anatomy in three particular doctrinal contexts: procedural review, legitimate expectations and standing. The third and final aim is to raise an important but under-explored question: is it plausible and useful to attempt to make sense of administrative law doctrine by reference to a singular organising concept or principle? The overarching message of the book is one of cynicism. The complexity and variety of administrative law's legal structures probably means that attempts to explain the field 'monistically', while they may capture important themes, will be unhelpfully reductionist. Ambitious and thought-provoking, this is an important new statement on administrative law.

Professional Capital Andy Hargreaves, Michael Fullan, 2015-04-24 The future of learning depends absolutely on the future of teaching. In this latest and most important collaboration, Andy Hargreaves and Michael Fullan show how the quality of teaching is captured in a compelling new idea: the professional capital of every teacher working together in every school. Speaking out against policies that result in a teaching force that is inexperienced, inexpensive, and exhausted in short order, these two world authorities--who know teaching and leadership inside out--set out a groundbreaking new agenda

to transform the future of teaching and public education. Ideas-driven, evidence-based, and strategically powerful, Professional Capital combats the tired arguments and stereotypes of teachers and teaching and shows us how to change them by demanding more of the teaching profession and more from the systems that support it. This is a book that no one connected with schools can afford to ignore. This book features: (1) a powerful and practical solution to what ails American schools; (2) Action guidelines for all groups-individual teachers, administrators, schools and districts, state and federal leaders; (3) a next-generation update of core themes from the authors' bestselling book, What's Worth Fighting for in Your School? [This book was co-published with the Ontario Principals' Council.].

The Great Evangelical Disaster Francis A. Schaeffer, 1984-02-01 Have Christians compromised their stand on truth and morality until there is almost nothing they will speak out against? Has the evangelical church itself sold out to the world? A provocative and challenging book—but one that is tempered by Dr. Schaeffer's deep commitment to Christ and love for the church.

Ships of Song Patricia Walsh-Haluska, Stanley Walsh-Haluska, 1999 An epic adventure, Ships of Song, A Parable of Ascension, explores the holographic nature of humanity, integrating science, religion, philosophy and fantasy into a cinematic view of human existence. It reveals the intricate tapestry of a loving universe which orchestrates the delicate dance of oneness with

All That Is, offering hope for a brighter future and the realization that we are not alone in the universe. The setting for the Ships of Song is deep within the North Carolina mountains at a date in the not too distant future. The earth has been experiencing violent environmental changes creating a fragile ecosystem and the collapse of the country's infrastructure. Elizabeth, the main character, is overwhelmed by their lack of food and the pending winter. She struggles between hope and despair wondering what will become of herself, her husband, John, and the hundred-fifty refugees who have gathered in their once tranquil valley. The story occurs in a single day with Elizabeth feeling she is called to witness the rising sun from the pinnacle high above the community. During her vigil she is unaware that she is whisked away between heartbeats to a place beyond time and space. She thought-walks and witnesses the moment of creation, the exploration of the universe, the inhabitation of Earth, their entrapment in consciousness and the long evolutionary process back to humanity's origins which culminate that night in the evening sky. Her day, which began in the fitful sleep of one unable to resolve their life, emerges into a day interspersed with a sense of mystery, magic and hope. Review In this visionary novel, the human mind has embedded memories of its evolution from a hybrid race of earth-dwellers and extraterrestrials. Tracing the lives of John and Elizabeth, a couple who feel compelled to leave the city to live in the hills, the authors introduce the reader to the possibility that we do have celestial guardians guiding us

through our lives. Through ten thousand years of humanity's growth and achievements, Michael, Miriam, and many others hover silently and invisibly above our planet in great ships, observing the ebb and flow of our spiritual unfolding. Once in a while a human remembers, vaguely, the sentinels above, perhaps in a dream or while staring into a fire. And to help people remember, the Ships of Song emanate the great Om into the atmosphere. Occasionally Ship-dwellers are sent into the world of humans, as humans themselves. One comes to John and Elizabeth for a single hour, as their child Rebecca, who has drawn them together in the first place as a part of a grand pattern. As the novel reaches its crescendo and then gently draws to a bittersweet close, the reader is left wanting a sequel. Nicely done. (TJE) New Age Retailer

Dr. Nicholas Romanov's Pose Method of Running Nicholas S. Romanov, 2002
Running barefoot isn't as natural as we're led to believe. Recent studies have shown that up to 85% of runners get injured every year, how natural is that? The most important question that running barefoot or naturally doesn't address is how we should run. Repetitive ground impact forces are at the root of most running injuries. A 30 minute jog can log more than 5,000 foot strikes; its because of this volume of movement that efficient

Project Everlasting Mathew Boggs, Jason Miller, 2007-06-05 A heartwarming and revealing look at the wisdom drawn from successful marriages and the secrets

to making love last, not from Ph.D.s or therapists but from more than 200 real couples who have walked the walk to more than forty years of marriage. Jaded by his parents' divorce, Mathew Boggs was a young man who'd lost all belief in lifelong love. After observing his grandparents who were madly in love after sixty-three years of marriage, Mat talked his best friend Jason into joining him on a cross-country search for America's greatest marriages. The two bumbling bachelors jumped in an RV and embarked on Project Everlasting, a 12,000-mile cross-country adventure to discover what it takes to make love last. Each chapter of Project Everlasting is dedicated to one of the pressing questions the bachelors asked the couples, such as: –How do you know you've found The One? –What's missing from today's marriages? –How do you keep the romance alive? –What's the most important ingredient for a solid marriage? As the traveled the country, meeting happy couples from all walks of life, Mat and Jason began to understand why their own relationships hadn't worked out quite as planned. They also realized that what they were learning from their wise new friends could change everything for them and—through Project Everlasting—show their generation and generations to come how to build a marriage to last.

Motion Leadership Michael Fullan, 2010 Cycling from practice to theory and back again, this concise book provides the skinny on motion leadership, or how to “move” individuals, institutions, and whole systems forward.

The Hidden and the Revealed Lilian Broca, Sheila D. Campbell, Yosef

Wosk,Gareth Sirotnik,2011 A stunning art book, but far more. In addition to glittering reproductions, details and working drawings of the ten mammoth pieces in this award-winning series about Esther of the Bible, the book features the artist's own story, illuminating her journey from war-torn Romania to Israel to Canada, what drew her to Esther and mosaics as a medium, and how she employed ancient techniques with a contemporary sensibility. An art historian provides a chapter comparing Broca's interpretation of Esther to that of such past artists as Rembrandt and Artemisia Gentileschi. The book finishes with a provocative, lyrical prose-poem written in the imagined voice of Esther by a prominent rabbi and scholar. An appendix provides the full text of Esther in beautiful calligraphed Hebrew with an accompanying English translation.

The Human Cost of Welfare Phil Harvey,Lisa Conyers,2016-02-25 Why is the welfare system failing to work for so many people? This book examines the problems with the current welfare system and proposes reforms to create a smarter, smaller system that helps people improve their lives through rewarding work. Unlike other books on welfare, this one draws on the stories of more than 100 welfare recipients who are trapped in a system that keeps them underemployed and unemployed. The authors present case studies that show that being a part of a welfare program can actively result in the recipient having to limit their job efforts for fear of losing government assistance. The book examines all major U.S. welfare systems, including Temporary

Assistance for Needy Families, SNAP, Medicaid, and others. The authors begin by exploring the nation's basic poverty issues and examining the relationship between work and happiness. Next, they zero in on specific welfare programs, reporting both on their dollar costs and on the ways that they fail enrollees. The book then concludes with strategies for addressing the shortcomings of the current U.S. welfare system. This book is appropriate for readers interested in public policy, government programs, welfare, and cultural shifts in America. It adds a new perspective to the existing body of welfare scholarship by systematically assessing the impact of welfare on the receivers themselves.
