EU Environmental Principles and Scientific Uncertainty before National Courts Mariolina Eliantonio, Emma Lees, Tiina Paloniitty, 2023-04-20 This comparative book explores the dynamics driving how courts across Europe and beyond understand and analyse scientific information in nature conservation. The Habitats and the Birds Directives-the core of EU nature conservation law-are usually seen as the most 'uniform' parts of EU environmental law. This book analyses the case law from 11 current and former EU Member States' courts and explores the dynamics of how, and crucially why, their understandings of scientific uncertainty on the one hand, and EU environmental principles on the other, vary. The courts' scope and depth of review, access to scientific knowledge, and scientific literacy all influence such decisions-as does their interpretation of norms and principles. How have the courts evaluated scientific evidence, encompassing its essential uncertainties? This book answers this and many more questions pertinent to EU environmental law, comparative environmental law, administrative law, and STS studies. Co-edited by experienced leaders in the field, and with outstanding contributors, this book is an essential guide to the dynamics of nature conservation law.

The Anatomy of Administrative Law Joanna Bell, 2020-05-28 This book seeks to further our understanding of the nature of administrative law doctrine and adjudication. It has three main aims. The first is to improve understanding of administrative law's 'anatomy' by pulling the subject apart and exploring the nature of the legal structures at play in adjudication. In doing so, the book emphasises three main ways in which administrative law's anatomy is both complex and diverse, namely: - administrative law doctrine interacts with a broad array of legislative frameworks; - administrative law adjudication seeks to accommodate a variety of legal values; and, - administrative law is concerned with legal relationships of different kinds. The second aim is to illustrate the importance of recognising the complexity and variety of administrative law's anatomy in three particular doctrinal contexts: procedural review, legitimate expectations and standing. The third and final aim is to raise an important but under-explored question: is it plausible and useful to attempt to make sense of administrative law doctrine by reference to a singular organising concept or principle? The overarching message of the book is one of cynicism. The complexity and variety of administrative law's legal structures probably means that attempts to explain the field 'monistically', while they may capture important themes, will be unhelpfully reductionist. Ambitious and thought-provoking, this is an important new statement on administrative law.

Human Rights Law Merris Amos, 2021-07-15 This textbook comprehensively examines and analyses the interpretation and application of the United Kingdom's Human Rights Act 1998. The third edition has been fully updated to include the last seven years of case law. Part I covers key procedural issues including: the background to the Act; the relationship between UK courts and the European Court of Human Rights; the definition of victim and public authority; determining incompatibility including deference and proportionality; the impact of the Act on primary legislation; and damages and other remedies for the violation of Convention rights. In Part II of the book, the Convention rights, as interpreted and applied by United Kingdom courts, are examined in detail. All of the key Convention rights are discussed including: the right to life; freedom from torture and inhuman or degrading treatment or punishment; the right to liberty; fair trial; the rights to private life, family life and home; freedom of religion and belief; freedom of expression; the right to peaceful enjoyment of possessions; and the right to freedom from discrimination in the enjoyment of Convention

rights. The third edition of Human Rights Law will be invaluable for those teaching, studying and practising in the areas of United Kingdom human rights law, constitutional law and administrative law.

A Practitioner's Guide to Ancillary Orders in Criminal Courts Elaine Freer, 2019-05-23 This book provides a clear analysis of those possibilities [created by the myriad of ancillary orders] and is to be welcomed: it will help judges and practitioners navigate the complex landscape that the law has created. [It] sets out the criteria and law surrounding orders and explains them clearly and in detail: it addresses an often overlooked area of the law but one that it is essential we understand and apply correctly. Sir Brian Leveson, President of the Queen's Bench Division, Head of Criminal Justice – in his Foreword to the book Ancillary orders often involve nuanced application of detailed law. Combined with the huge variety of situations to which they apply and ways in which they operate, the scope for error when working with them is high. This is the only guide to the law, application and analysis relating to Ancillary Orders, available to criminal courts, helping you to mitigate risk for your clients. A Practitioner's Guide to Ancillary Orders in Criminal Courts covers orders available on acquittal, such as Restraining Orders and Defence Costs Orders, as well as those only available on conviction, such as Compensation Orders and Directors' Disqualification Orders, with each Order set out in a self-contained chapter. As such, the law and precedent applying to that particular type of Order is simple to access. Legislation and case law covered includes: Powers of Criminal Courts (Sentencing) Act 2000 Prosecution of Offences Act 1985 Protection from Harassment Act 1997 Sexual Offences Act 2003 Serious Crime Act 2007 Anti-social Behaviour, Crime and Policing Act 2014 Misuse of Drugs Act 1971 Firearms Act 1968 Company Directors' Disqualification Act 1986 Costs: Lord Howard of Lympne v DPP SHPOs: Cheyne, Connor SCPOs: Hancox and Duffy Driving disqualification: Needham Directors' disqualification: Cadman In addition to providing guidance on and analysis of those Orders, this book also sets out the consequences of breaches. It will help you ensure that clients do not have an unwarranted or overly-onerous order imposed upon them. An easy reference guide for advocates and courts alike.

Brand Co-Creation Tourism Research Raouf Ahmad Rather, 2023-10-13 Responding to the rapidly changing business landscape (including advances in social media and information technology) and the COVID-19 pandemic where customers, visitors, or tourists have become more connected, accessible, and informed than ever before, many brands and firms are investing in brand management and brand co-creation. This new volume provides an enlightening perspective on brand co-creation, brand management, and branding through contemporary conceptual discussions and empirical research studies from thought leaders. Providing a step-by-step guide to the brand co-creation and branding process in the hospitality and tourism industry, the volume identifies cutting-edge measurements, strategies, and metrics for capturing and measuring brand co-creation and highlights best practices in implementing brand management marketing strategies. Starting with a basic understanding of brand (value) co-creation, the volume then explores deeper by defining the concept, describing the ways to measure it, and providing several strategies to capitalize on it. The authors emphasize the interrelationship of these concepts and how they manage brand co-creation. The book illustrates the concepts with examples from around the globe. Topics cover the impact of

social media on brand co-creation during the COVID-19 outbreak in the tourism industry, co-branding emerging tourist destinations, analysis of the content of hotel websites, creating better customer value, brand co-creation in e-sports gaming events, post-COVID-19 educational tourism, and more. The volume also presents a chapter on the state-of-the-art role of augmented reality and virtual reality in improving the customer experience. A synthesis of a decade-long effort in brand co-creation, the book will be valuable to academics, practitioners, consultants, destination management organizations (DMOs), and managers looking to improve brand co-creation pre-, during-, and post-pandemics.

Reforming Corporate Retail Investor Protection Diane Bugeja, 2019-12-12 The spate of mis-selling episodes that have plagued the financial services industries in recent years has caused widespread detriment to investors. Notwithstanding numerous regulatory interventions, curtailing the incidence of poor investment advice remains a challenge for regulators, particularly because these measures are taken in a 'fire-fighting' fashion without adequate consideration being given to the root causes of mis-selling. Against this backdrop, this book focuses on the sale of complex investment products to corporate retail investors by drawing upon the widespread mis-selling of interest rate hedging products (IRHP) in the UK and beyond. It brings to the fore the relatively understudied field concerning the different degrees of investor protection mechanisms applicable to individual retail investors – as opposed to corporate retail investors – by taking stock of past regulatory reforms and forthcoming regulatory initiatives as well as, more importantly, the conclusions reached by the judiciary in IRHP mis-selling claims. The conclusions are particularly interesting: corporate retail investors are in a vulnerable position when compared to individual retail investors. The former are exposed to a heightened risk of mis-selling, meaning that regulatory intervention should be targeted accordingly. The recommendations made as a result of these findings are further supported by insights emerging from behavioural law and economic theories. This book is aimed at researchers, lawyers and students with an interest in the financial regulation field who are keen to explore potential regulatory reforms to the investment services regime that address the root causes of mis-selling, and restore a level playing field amongst all retail investors.

Bromley's Family Law Nigel Lowe, Gillian Douglas, Emma Hitchings, Rachel Taylor, 2021 'Bromley's Family Law' is a well-established and popular textbook with students and practitioners alike. This edition has been updated to take into account recent developments in family law.

Maritime Labour Convention, 2006 - UK and REG Implementation Charles Boyle, 2018-11-29 Since the International Labour Organisation's Maritime Labour Convention, 2006 (MLC) came into force internationally on 20 August 2013, it has already been amended, and a further two sets of amendments have been agreed and are expected to come into force in 2019 and 2020. Maritime Labour Convention, 2006 – UK and REG Implementation sets out in detail how the UK, Bermuda, Cayman Islands, Gibraltar and the Isle of Man (being the members of the Red Ensign Group (REG) which are subject to the MLC) have implemented the Convention. Specific references are given to the laws, merchant shipping notices and guidance, as well as identifying the areas where implementation is permitted by way of collective agreements. As the MLC sits in the context of the wider international regulatory regime, it

expressly endorses the application of other international instruments and standards, particularly those of the International Maritime Organisation. Furthermore, many of the MLC's mandatory provisions have been incorporated into EU Directives, which are relevant to the UK and Gibraltar. These international and regional provisions are also referenced. Chapter 1 sets out an introduction to the ILO and the MLC. Chapter 2 describes the general approach of how the UK applies its legislation to UK ships and, while they are in UK waters, non-UK ships without MLC documentation, and non-UK ships with MLC documentation. Chapters 3-22 describe the UK provisions in more detail as the other REG members' laws are influenced by those to a significant extent. The specific provisions for Bermuda, the Cayman Islands, Gibraltar and the Isle of Man have been set out, with detailed references to the appropriate regulatory sources in Chapters 23-26. Due to the central role of the MLC's Title 5 on compliance and enforcement, this is set out in full (in Part VIII, Appendix 1), annotated with references to the relevant sections of the ILO's guidelines on flag state control and port state control. The full text of the amendments to the MLC have been set out in Part VIII, Appendix 2.

Established as an essential part of the library of any practitioner engaged in public law cases, it offers unrivalled coverage of administrative law, including, but not confined to, the work of the Administrative Court and its procedures. Once again completely revised and up-dated, the seventh edition approximates to a restatement of the law of judicial review, organised around 63 legal principles, each supported by a comprehensive presentation of the sources and an unequalled selection of reported case quotations. It also includes essential procedural rules, forms and guidance issued by the Administrative Court. Here Michael Fordham casts an experienced eye over the Court's work in the area of judicial review, and assesses the signs from a Court that will be one of the key influences in the development of judicial review in the modern era. The author, a leading member of the English public law bar, and now has been involved in many of the leading judicial review cases in recent years and is the founding editor of the *Judicial Review* journal.

Comparative Multidisciplinary Perspectives on Omnibus Legislation Ittai

Bar-Siman-Tov, 2021-05-27 This book is the first in the world to provide a cross-national, comparative exploration of omnibus legislation. It contributes to the global debate over omnibus legislation and offers comprehensive, thorough and multifaceted coverage that concerns the fields of legislation and jurisprudence, comparative law, political science, public policy and economics. Beyond its relevance for these fields, the book will support practitioners in parliaments, governments and courts, thereby impacting the actual use of omnibus legislation. A new, major and controversial reform is enacted in the middle of the night. It is buried in a massive omnibus bill hundreds of pages in length, which is rammed through the legislative process at breakneck speed. The legislators receive the final version of the bill in the very last minute, and protest that they've had no opportunity to read it in detail and know what they're voting upon. The majority party's legislative leaders, however, are unimpressed, and the law is eventually passed on the basis of strict party discipline. Though it may sound far-fetched, this scenario is all too familiar in many legislatures around the world. The legislative practice of combining numerous unrelated measures in one long bill, which is often passed via a highly expedited process, has become a matter of intense debate and criticism in many countries.
