Evolutionary Computation & Swarm Intelligence Fabio Caraffini,Valentino Santucci,Alfredo Milani,2020-11-25 The vast majority of real-world problems can be expressed as an optimisation task by formulating an objective function, also known as cost or fitness function. The most logical methods to optimise such a function when (1) an analytical expression is not available, (2) mathematical hypotheses do not hold, and (3) the dimensionality of the problem or stringent real-time requirements make it infeasible to find an exact solution mathematically are from the field of Evolutionary Computation (EC) and Swarm Intelligence (SI). The latter are broad and still growing subjects in Computer Science in the study of metaheuristic approaches, i.e., those approaches which do not make any assumptions about the problem function, inspired from natural phenomena such as, in the first place, the evolution process and the collaborative behaviours of groups of animals and communities, respectively. This book contains recent advances in the EC and SI fields, covering most themes currently receiving a great deal of attention such as benchmarking and tuning of optimisation algorithms, their algorithm design process, and their application to solve challenging real-world problems to face large-scale domains.

Enterprise Caching Solutions using IBM WebSphere DataPower SOA Appliances and IBM WebSphere eXtreme Scale Jan Bajerski,Ulas Cubuk,Fernando Ewald,Susan Hanson,Kris (Krzysztof) Kobylinski,Jun Guo Ku,Anton Litvinov,Nikolay Marin,Dmitry Savustjan,IBM Redbooks,2013-05-01 In the dynamic business environment of today, Information Technology (IT) organizations face challenges around scalability and performance. This IBM® Redbooks® publication is targeted for IT architects, IT personnel, and developers who are looking to integrate caching technologies, specifically elastic caching, into their business environment to enhance scalability and performance. Although it is helpful to know caching technologies, an introduction to caching technologies in general is included. In addition, technical details are provided about implementing caching by using several IBM products. The IBM WebSphere® eXtreme Scale product provides several functions to enhance application performance and scalability. It provides distributed object caching functionality, which is essential for elastic scalability and next-generation cloud environments. It helps applications process massive volumes of transactions with extreme efficiency and linear scalability. By using the scalable in-memory data grid, enterprises can benefit from a powerful, high-performance elastic cache. The IBM WebSphere DataPower® XC10 Appliance enables your business-critical applications to scale cost effectively with consistent performance by using elastic caching in a purpose-built, easy-to-use appliance. This publication explains the benefits of using various caching techniques in your enterprise, specifically involving the use of IBM WebSphere eXtreme Scale and the IBM WebSphere DataPower XC10 Appliance. Three real-world scenarios are described that use these enterprise caching technologies to solve issues that face the businesses of today.

Essentials of Statistics for Criminology and Criminal Justice Raymond Paternoster,Ronnet D. Bachman,2017-01-30 Essentials of Statistics for Criminology and Criminal Justice helps students understand the vital role that research and statistics play in the study of criminology and criminal justice by showing them how to conduct and interpret statistics in real-world settings with a step-by-step approach to solving problems. This practical, applied approach offers students the fundamentals of descriptive and inferential statistics in a concise and easy-to-understand format—avoiding complicated proofs and discussions of statistical theory. The examples and case studies provide relevant examples for criminology and criminal justice students, and deal with contemporary issues related to crime, corrections, police, and the judicial system. Students will not only learn about the “how to” in statistics, but they will also recognize its importance in today’s criminal justice system.

Business Architecture Mr Graham Meaden,Mr Jonathan Whelan,2012-09-01 Organizations today exist in an environment of unprecedented change. They do so against a backdrop of a global, competitive marketplace, the fast-paced enablement of technology, amplified regulation and accelerating organizational complexity. Many organizations are addressing change in a sub-optimal way and they are operating without a clear view of where their operational risks lie. It is these dynamics that are leading organizations to recognise and embrace Business Architecture. Despite this environment, Business Architecture can be a difficult ‘sell’ - it is often perceived to be abstract and lacking in tangible delivery. To succeed, Business Architecture must be pragmatic and, to be sustainable, it must focus on achieving long-term value and, at the same time, recognise the shorter-term tactical needs of the organisation. With these challenges in mind, this book provides a practical guide on how to employ Business Architecture and how to build a balanced proposition that delivers value to a broad range of stakeholders. As the book states, Business Architecture should not be practised in isolation, nor should it be thought of as a one-off process; it needs to be woven into the fabric of the organization. And so the authors illustrate the opportunities for weaving the Business Architecture Practice into this fabric through the various stakeholders and life cycles that exist, both formally and informally, within an organization. Whilst recognizing best practice, this book explores a new, inspirational level of Business Architecture whilst acknowledging that the best way to realize the vision is one step at a time.

China's Rural Economy after WTO Dr Aimin Chen,Professor Shunfeng Song,2012-10-01 China's Rural Economy after WTO discusses and analyses China's rural sector problems in detail, including the areas of poverty, income inequality, the gender gap, barriers of rural-urban migration,

discrimination against rural workers, poor rural governance and the impact of WTO membership. It also tackles the important subjects of inadequate infrastructure and discriminatory credit services. Strategies to modernize China's rural economy are proposed and the relevant experiences and lessons of other countries are analyzed.

Behind Human Error Dr Leila Johannesen, Dr Nadine Sarter, Dr Richard Cook, Professor Sidney Dekker, Professor David D Woods, 2012-10-01 Human error is so often cited as a cause of accidents. There is perception of a 'human error problem'. Solutions are thought to lie in changing the people or their role. The label 'human error', however, is prejudicial and hides more than it reveals about how a system malfunctions. This book takes you behind the label. It explains how human error results from social and psychological judgments by the system's stakeholders that focus only on one facet of a set of interacting contributors.

Aspects of Violence in Renaissance Europe Dr Jonathan Davies, 2013-09-28 Interest in the history of violence has increased dramatically over the last ten years and recent studies have demonstrated the productive potential for further inquiry in this field. The early modern period is particularly ripe for further investigation because of the pervasiveness of violence. Certain countries may have witnessed a drop in the number of recorded homicides during this period, yet homicide is not the only marker of a violent society. This volume presents a range of contributions that look at various aspects of violence from the fourteenth to the seventeenth centuries, from student violence and misbehaviour in fifteenth-century Oxford and Paris to the depiction of war wounds in the English civil wars. The book is divided into three sections, each clustering chapters around the topics of interpersonal and ritual violence, war, and justice and the law. Informed by the disciplines of anthropology, criminology, the history of art, literary studies, and sociology, as well as history, the contributors examine all forms of violence including manslaughter, assault, rape, riots, war and justice. Previous studies have tended to emphasise long-term trends in violent behaviour but one must always be attentive to the specificity of violence and these essays reveal what it meant in particular places and at particular times.

Immigration, Integration and the Law Dr Clíodhna Murphy, 2013-12-28 This book examines the role and impact of EU, international human rights and refugee law on national laws and policies for integration and argues for a broad understanding of the relationship between integration and the law. It analyses the legal foundations of integration at the international and regional levels and examines the interaction of national, EU and international legal spheres, highlighting the significance of these dimensions of the relationship between integration and the law. The book draws together these central themes to enhance our understanding of the connections between integration and the law. It also makes specific recommendations for the development of holistic, human-rights based approaches to integration in EU Member States. The book will be of value to academics and researchers working in the areas of immigration, and refugee law, as well as those interested in cultural diversity both from a legal and sociological perspective.

Prostitution, Harm and Gender Inequality Dr Maddy Coy, 2013-01-28 Prostitution, Harm and Gender Inequality brings together international research exploring the range of gendered harms to women involved in prostitution and the consequences of growth of the sex industry for global gender relations. While there is an increasing amount of research and academic output on prostitution, the current focus is often on discussion and critique of policy frameworks, and contemporary debates over harm are largely limited to sex trafficking and sexual exploitation of children. Less attention is paid to questions of how the sex industry perpetuates notions of objectification and male entitlement with respect to sexual access to women's bodies, despite being key feminist concerns for several decades. This position has become effectively marginalized, but the global growth and industrialization of the sex industry requires a return to these questions. Through exploring gendered inequality and re-engaging with an understanding of prostitution as harmful with impacts on the self and body that are experienced as abusive but do not always constitute violence, this book introduces

a range of research and thinking, while also drawing on existing literature to explore the consequences of prostitution for women in the sex industry and wider gender relations. These issues are discussed with regard to: coercion and recruitment, including trafficking; notions of male entitlement in accounts of men who buy sex; critical interrogations of agency and choice; legal and policy frameworks; and representations of prostitution in popular culture.

Thomas Killigrew and the Seventeenth-Century English Stage Dr Philip Major, 2013-11-28 Despite his significant influence as a courtier, diplomat, playwright and theatre manager, Thomas Killigrew (1612-1683) remains a comparatively elusive and neglected figure. The original essays in this interdisciplinary volume shine new light on a singular, contradictory Englishman 400 years after his birth. They increase our knowledge and deepen our understanding not only of Killigrew himself, but of seventeenth-century dramaturgy, and its complex relationship to court culture and to evolving aesthetic tastes. The first book on Killigrew since 1930, this study re-examines the significant phases of his life and career: the little-known playwriting years of the 1630s; his long exile during the 1640s and 1650s, and its personal, political and literary repercussions; and the period following the Restoration, when, with Sir William Davenant, he enjoyed a monopoly of the London stage. These fresh accounts of Killigrew build on the recent resurgence of interest in royalists and the royalist exile, and underscore literary scholars' continued fascination with the Restoration stage. In the process, they question dominant assumptions about neatly demarcated seventeenth-century chronological, geographic and cultural boundaries. What emerges is a figure who confounds as often as he justifies traditional labels of dilettante, cavalier wit and swindler.

European Security in Transition Dr Gunther Hauser, Professor Franz Kernic, 2013-02-28 Since the end of World War II, security and defence have played a major role in European politics. With the European Union's increasing role on the global stage and with today's war on terrorism, security and defence issues have dramatically gained weight and importance in international politics. This compelling volume provides an interdisciplinary look at the development and current status of the European security system as well as selected key issues on today's security agenda. As such, it provides an excellent resource for those wishing to make sense of the complexities of defence and security issues in the European Union at a time of global change.

Female Sexuality and Cultural Degradation in Enlightenment France Dr Mary McAlpin, 2013-05-28 In her study of eighteenth-century literature and medical treatises, Mary McAlpin takes up the widespread belief among cultural philosophers of the French Enlightenment that society was gravely endangered by the effects of hyper-civilization. McAlpin's study explores a strong thread in this rhetoric of decline: the belief that premature puberty in young urban girls, supposedly brought on by their exposure to lascivious images, titillating novels, and lewd conversations, was the source of an increasing moral and physical degeneration. In how-to hygiene books intended for parents, the medical community declared that the only cure for this obviously involuntary departure from the natural path of sexual development was the increased surveillance of young girls. As these treatises by vitalist and vitalist-inspired physiologists became increasingly common in the 1760s, McAlpin shows, so, too, did the presence of young, vulnerable, and virginal heroines in the era's novels. Analyzing novels by, among others, Jean-Jacques Rousseau, Denis Diderot, and Choderlos de Laclos, she offers physiologically based readings of many of the period's most famous heroines within the context of an eighteenth-century discourse on women and heterosexual desire that broke with earlier periods in recasting female and male desire as qualitatively distinct. Her study persuasively argues that the Western view of women's sexuality as a mysterious, nebulous force—Freud's dark continent—has its secular origins in the mid-eighteenth century.

Decisions to Imprison Mr Rasmus H Wandall, 2013-02-28 Rasmus Wandall uses quantitative and qualitative methods from studies carried out in Denmark, to address the formal and informal norms and ideologies that are used to generate decisions to imprison. Focusing on the operations of the courtroom participants, his work investigates how court decision-making is organized to allow the sentencing procedure to be open to more than its

formal legal framework, while at the same time keeping the sentencing within the boundaries of law and legal validity. The author uses the theory of law's operational closure, developed by Niklas Luhmann. The theory provides an advantageous point of departure to capture the close and subtle interactions between law's need for validity and for contextual openness in every legal operation - including court decision-making.
